(k) **EXEMPTION FROM ADDITIONAL TAXES.**—(1) In this subsection—

(A) "additional tax" means a tax or fee—

(i) on the acquisition, improvement, ownership, or operation of personal property by Amtrak; and

(ii) on real property, except a tax or fee on the acquisition of real property or on the value of real property not attributable to improvements made, or the operation of those improvements, by Amtrak.

(B) "Amtrak" includes a rail carrier subsidiary of Amtrak and a lessor or lessee of Amtrak or one of its rail carrier subsidiaries.

(2) Amtrak is not required to pay an additional tax because of an expenditure to acquire or improve real property, equipment, a facility, or right-of-way material or structures used in providing rail passenger transportation, even if that use is indirect.

(l) **EXEMPTION FROM TAXES LEVIED AFTER SEPTEMBER 30, 1981.**—(1) **IN GENERAL.**—Amtrak, a rail carrier subsidiary of Amtrak, and any passenger or other customer of Amtrak or such subsidiary, are exempt from a tax, fee, head charge, or other charge, imposed or levied by a State, political subdivision, or local taxing authority on Amtrak, a rail carrier subsidiary of Amtrak, or on persons traveling in intercity rail passenger transportation or on mail or express transportation provided by Amtrak or such a subsidiary, or on the carriage of such persons, mail, or express, or on the sale of any such transportation, or on the gross receipts derived therefrom after September 30, 1981. In the case of a tax or fee that Amtrak was required to pay as of September 10, 1982, Amtrak is not exempt from such tax or fee if it was assessed before April 1, 1997.

(2) The district courts of the United States have original jurisdiction over a civil action Amtrak brings to enforce this subsection and may grant equitable or declaratory relief requested by Amtrak.

(m) **WASTE DISPOSAL.**—(1) An intercity rail passenger car manufactured after October 14, 1990, shall be built to provide for the discharge of human waste only at a servicing facility. Amtrak shall retrofit each of its intercity rail passenger cars that was manufactured after May 1, 1971, and before October 15, 1990, with a human waste disposal system that provides for the discharge of human waste only at a servicing facility. Subject to appropriations—

(A) the retrofit program shall be completed not later than October 15, 2001; and

(B) a car that does not provide for the discharge of human waste only at a servicing facility shall be removed from service after that date.

(2) Section 361 of the Public Health Service Act (42 U.S.C. 264) and other laws of the United

States, States, and local governments do not apply to waste disposal from rail carrier vehicles operated in intercity rail passenger transportation. The district courts of the United States have original jurisdiction over a civil action Amtrak brings to enforce this paragraph and may grant equitable or declaratory relief requested by Amtrak.

(n) RAIL TRANSPORTATION TREATED EQUALLY.—When authorizing transportation in the continental United States for an officer, employee, or member of the uniformed services of a department, agency, or instrumentality of the Government, the head of that department, agency, or instrumentality shall consider rail transportation (including transportation by extra-fare trains) the same as transportation by another authorized mode. The Administrator of General Services shall include Amtrak in the contract air program of the Administrator in markets in which transportation provided by Amtrak is competitive with other carriers on fares and total trip times.

(o) APPLICABILITY OF DISTRICT OF COLUMBIA LAW.—Any lease or contract entered into between Amtrak and the State of Maryland, or any department or agency of the State of Maryland, after the date of the enactment of this subsection shall be governed by the laws of the District of Columbia.

§24305. General authority

(a) **ACQUISITION AND OPERATION OF EQUIPMENT AND FACILITIES.**—(1) Amtrak may acquire, operate, maintain, and make contracts for the operation and maintenance of equipment and facilities necessary for intercity and commuter rail passenger transportation, the transportation of mail and express, and auto-ferry transportation.

AMENDMENTS

1997—Subsec. (a). Pub. L. 105–134, §102(1), struck out at end "When requested by Amtrak, a department, agency, or instrumentality of the United States Government shall assist in carrying out this section."

Subsec. (b). Pub. L. 105–134, §102(2), added subsec. (b) and struck out heading and text of former subsec. (b). Text read as follows:

"(1) A person primarily providing auto-ferry transportation and any other person not a rail carrier may provide auto-ferry transportation over any route under a certificate issued by the Interstate Commerce Commission if the Commission finds that the auto-ferry transportation—

"(A) will not impair the ability of Amtrak to reduce its losses or increase its revenues; and

"(B) is required to meet the public demand.

"(2) A rail carrier that has not made a contract with Amtrak to provide rail passenger transportation may provide auto-ferry transportation over its own rail lines.

"(3) State and local laws and regulations that impair the provision of auto-ferry transportation do not apply to Amtrak or a rail carrier providing auto-ferry transportation. A rail carrier may not refuse to participate with Amtrak in providing auto-ferry transportation because a State or local law or regulation makes the transportation unlawful."

§24307. Special transportation

(a) **REDUCED FARE PROGRAM.**—Amtrak shall maintain a reduced fare program for the following:

(1) individuals at least 65 years of age.

(2) individuals (except alcoholics and drug abusers) who—

(A) have a physical or mental impairment that substantially limits a major life activity of the individual;

(B) have a record of an impairment; or

(C) are regarded as having an impairment.

(b) **EMPLOYEE TRANSPORTATION.**—(1) In this subsection, "rail carrier employee" means—

(A) an active full-time employee of a rail carrier or terminal company and includes an employee on furlough or leave of absence;

(B) a retired employee of a rail carrier or terminal company; and

(C) a dependent of an employee referred to in clause (A) or (B) of this paragraph.

(2) Amtrak shall ensure that a rail carrier employee eligible for free or reduced-rate rail transportation on April 30, 1971, under an agreement in effect on that date is eligible, to the greatest

extent practicable, for free or reduced-rate intercity rail passenger transportation provided by Amtrak under this part, if space is available, on terms similar to those available on that date under the agreement. However, Amtrak may apply to all rail carrier employees eligible to receive free or reduced-rate transportation under any agreement a single systemwide schedule of terms that Amtrak decides applied to a majority of employees on that date under all those agreements. Unless Amtrak and a rail carrier make a different agreement, the carrier shall reimburse Amtrak at the rate of 25 percent of the systemwide average monthly yield of each revenue passenger-mile. The reimbursement is in place of costs Amtrak incurs related to free or reduced-rate transportation, including liability related to travel of a rail carrier employee eligible for free or reduced-rate transportation.

(3) This subsection does not prohibit the Surface Transportation Board from ordering retroactive relief in a proceeding begun or reopened after October 1, 1981.

§24308. Use of facilities and providing services to Amtrak

(a) **GENERAL AUTHORITY.**—(1) Amtrak may make an agreement with a rail carrier or regional transportation authority to use facilities of, and have services provided by, the carrier or authority under terms on which the parties agree. The terms shall include a penalty for untimely performance.

(2)(A) If the parties cannot agree and if the Surface Transportation Board finds it necessary to carry out this part, the Board shall—

- (i) order that the facilities be made available and the services provided to Amtrak; and
- (ii) prescribe reasonable terms and compensation for using the facilities and providing the services.

(B) When prescribing reasonable compensation under subparagraph (A) of this paragraph, the Board shall consider quality of service as a major factor when determining whether, and the extent to which, the amount of compensation shall be greater than the incremental costs of using the facilities and providing the services.

(C) The Board shall decide the dispute not later than 90 days after Amtrak submits the dispute to the Board.

(3) Amtrak's right to use the facilities or have the services provided is conditioned on payment of the compensation. If the compensation is not paid promptly, the rail carrier or authority entitled to it may bring an action against Amtrak to recover the amount owed.

(4) Amtrak shall seek immediate and appropriate legal remedies to enforce its contract rights when track maintenance on a route over which Amtrak operates falls below the contractual standard.

(b) **OPERATING DURING EMERGENCIES.**—To facilitate operation by Amtrak during an emergency, the Board, on application by Amtrak, shall require a rail carrier to provide facilities immediately during the emergency. The Board then shall promptly prescribe reasonable terms, including indemnification of the carrier by Amtrak against personal injury risk to which the carrier may be exposed. The rail carrier shall provide the facilities for the duration of the emergency.

(c) **PREFERENCE OVER FREIGHT TRANSPORTATION.**—Except in an emergency, intercity and commuter rail passenger transportation provided by or for Amtrak has preference over freight transportation in using a rail line, junction, or crossing unless the Board orders otherwise under this subsection. A rail carrier affected by this subsection may apply to the Board for relief. If the Board, after an opportunity for a hearing under section 553 of title 5, decides that preference for intercity and commuter rail passenger transportation materially will lessen the quality of freight transportation provided to shippers, the Board shall establish the rights of the carrier and Amtrak on reasonable terms.

(d) **ACCELERATED SPEEDS.**—If a rail carrier refuses to allow accelerated speeds on trains operated by or for Amtrak, Amtrak may apply to the Board for an order requiring the carrier to allow the accelerated speeds. The Board shall decide whether accelerated speeds are unsafe or impracticable and which improvements would be required to make accelerated speeds safe and practicable. After an opportunity for a hearing, the Board shall establish the maximum allowable speeds of Amtrak trains on terms the Board decides are reasonable.

(e) **ADDITIONAL TRAINS.**—(1) When a rail carrier does not agree to provide, or allow Amtrak to provide, for the operation of additional trains over a rail line of the carrier, Amtrak may apply to the Board for an order requiring the carrier to provide or allow for the operation of the requested trains. After a hearing on the record, the Board may order the carrier, within 60 days, to provide or allow for the operation of the requested trains on a schedule based on legally permissible operating times. However, if the Board decides not to hold a hearing, the Board, not later than 30 days after receiving the application, shall publish in the Federal Register the reasons for the decision not to hold the hearing.

(2) The Board shall consider—

(A) when conducting a hearing, whether an order would impair unreasonably freight transportation of the rail carrier, with the carrier having the burden of demonstrating that the additional trains will impair the freight transportation; and

(B) when establishing scheduled running times, the statutory goal of Amtrak to implement schedules that attain a system-wide average speed of at least 60 miles an hour that can be adhered to with a high degree of reliability and passenger comfort.

(3) Unless the parties have an agreement that establishes the compensation Amtrak will pay the

carrier for additional trains provided under an order under this subsection, the Board shall decide the dispute under subsection (a) of this section.

(f) PASSENGER TRAIN PERFORMANCE AND OTHER STANDARDS.—

(1) INVESTIGATION OF SUBSTANDARD PERFORMANCE.—If the on-time performance of any intercity passenger train averages less than 80 percent for any 2 consecutive calendar quarters, or the service quality of intercity passenger train operations for which minimum standards are established under section 207 of the Passenger Rail Investment and Improvement Act of 2008 fails to meet those standards for 2 consecutive calendar quarters, the Surface Transportation Board (referred to in this section as the "Board") may initiate an investigation, or upon the filing of a complaint by Amtrak, an intercity passenger rail operator, a host freight railroad over which Amtrak operates, or an entity for which Amtrak operates intercity passenger rail service, the Board shall initiate such an investigation, to determine whether and to what extent delays or failure to achieve minimum standards are due to causes that could reasonably be addressed by a rail carrier over whose tracks the intercity passenger train operates or reasonably addressed by Amtrak or other intercity passenger rail operators. As part of its investigation, the Board has authority to review the accuracy of the train performance data and the extent to which scheduling and congestion contribute to delays. In making its determination or carrying out such an investigation, the Board shall obtain information from all parties involved and identify reasonable measures and make recommendations to improve the service, quality, and on-time performance of the train.

(2) PROBLEMS CAUSED BY HOST RAIL CARRIER.—If the Board determines that delays or failures to achieve minimum standards investigated under paragraph (1) are attributable to a rail carrier's failure to provide preference to Amtrak over freight transportation as required under subsection (c), the Board may award damages against the host rail carrier, including prescribing such other relief to Amtrak as it determines to be reasonable and appropriate pursuant to paragraph (3) of this subsection.

(3) DAMAGES AND RELIEF.—In awarding damages and prescribing other relief under this subsection the Board shall consider such factors as—

(A) the extent to which Amtrak suffers financial loss as a result of host rail carrier delays or failure to achieve minimum standards; and

(B) what reasonable measures would adequately deter future actions which may reasonably be expected to be likely to result in delays to Amtrak on the route involved.

(4) USE OF DAMAGES.—The Board shall, as it deems appropriate, order the host rail carrier to remit the damages awarded under this subsection to Amtrak or to an entity for which Amtrak operates intercity passenger rail service. Such damages shall be used for capital or operating expenditures on the routes over which delays or failures to achieve minimum standards were the result of a rail carrier's failure to provide preference to Amtrak over freight transportation as determined in accordance with paragraph (2).

FEES

Pub. L. 110–432, div. B, title II, §213(b), Oct. 16, 2008, 122 Stat. 4926, provided that: "The Surface Transportation Board may establish and collect filing fees from any entity that files a complaint under section 24308(f)(1) of title 49, United States Code, or otherwise requests or requires the Board's services pursuant to this division [see Short Title of 2008 Amendment note set out under section 20101 of this title]. The Board may waive any fee established under this subsection for any governmental entity as determined appropriate by the Board."

SPECIAL PASSENGER TRAINS

Pub. L. 110–432, div. B, title II, §216, Oct. 16, 2008, 122 Stat. 4930, provided that: "Amtrak is encouraged to increase the operation of special trains funded by, or in partnership with, private sector operators through competitive contracting to minimize the need for Federal subsidies. Amtrak shall utilize the provisions of section 24308 of title 49, United States Code, when necessary to obtain access to facilities, train and engine crews, or services of a rail carrier or regional transportation authority that are required to operate such trains."

§24309. Retaining and maintaining facilities

(a) DEFINITIONS.—In this section—

(1) "facility" means a rail line, right of way, fixed equipment, facility, or real property related to a rail line, right of way, fixed equipment, or facility, including a signal system, passenger station

and repair tracks, a station building, a platform, and a related facility, including a water, fuel, steam, electric, and air line.

(2) downgrading a facility means reducing a track classification as specified in the Federal Railroad Administration track safety standards or altering a facility so that the time required for rail passenger transportation to be provided over the route on which a facility is located may be increased.

(b) APPROVAL REQUIRED FOR DOWNGRADING OR DISPOSAL.—A facility of a rail carrier or regional transportation authority that Amtrak used to provide rail passenger transportation on February 1, 1979, or on January 1, 1997, may be downgraded or disposed of only after approval by the Secretary of Transportation under this section.

(c) NOTIFICATION AND ANALYSIS.—(1) A rail carrier intending to downgrade or dispose of a facility Amtrak currently is not using to provide transportation shall notify Amtrak of its intention. If, not later than 60 days after Amtrak receives the notice, Amtrak and the carrier do not agree to retain or maintain the facility or to convey an interest in the facility to Amtrak, the carrier may apply to the Secretary for approval to downgrade or dispose of the facility.

(2) After a rail carrier notifies Amtrak of its intention to downgrade or dispose of a facility, Amtrak shall survey population centers with rail passenger transportation facilities to assist in preparing a valid and timely analysis of the need for the facility and shall update the survey as appropriate. Amtrak also shall maintain a system for collecting information gathered in the survey. The system shall collect the information based on geographic regions and on whether the facility would be part of a short haul or long haul route. The survey should facilitate an analysis of—

(A) ridership potential by ascertaining existing and changing travel patterns that would provide maximum efficient rail passenger transportation;

(B) the quality of transportation of competitors or likely competitors;

(C) the likelihood of Amtrak offering transportation at a competitive fare;

(D) opportunities to target advertising and fares to potential classes of riders;

(E) economic characteristics of rail passenger transportation related to the facility and the extent to which the characteristics are consistent with sound economic principles of short haul or long haul rail transportation; and

(F) the feasibility of applying effective internal cost controls to the facility and route served by the facility to improve the ratio of passenger revenue to transportation expenses (excluding maintenance of tracks, structures, and equipment and depreciation).

(d) APPROVAL OF APPLICATION AND PAYMENT OF AVOIDABLE COSTS.—(1) If Amtrak does not object to an application not later than 30 days after it is submitted, the Secretary shall approve the application promptly.

(2) If Amtrak objects to an application, the Secretary shall decide by not later than 180 days after the objection those costs the rail carrier may avoid if it does not have to retain or maintain a facility in the condition Amtrak requests. If Amtrak does not agree by not later than 60 days after the decision to pay the carrier these avoidable costs, the Secretary shall approve the application. When deciding whether to pay a carrier the avoidable costs of retaining or maintaining a facility, Amtrak shall consider—

(A) the potential importance of restoring rail passenger transportation on the route on which the facility is located;

(B) the market potential of the route;

(C) the availability, adequacy, and energy efficiency of an alternate rail line or alternate mode of transportation to provide passenger transportation to or near the places that would be served by the route;

(D) the extent to which major population centers would be served by the route;

(E) the extent to which providing transportation over the route would encourage the expansion of an intercity rail passenger system in the United States; and

(F) the possibility of increased ridership on a rail line that connects with the route.

(e) COMPLIANCE WITH OTHER OBLIGATIONS.—Downgrading or disposing of a facility under this section does not relieve a rail carrier from complying with its other common carrier or legal obligations related to the facility.

PRIOR PROVISIONS

A prior section 24310, Pub. L. 103–272, §1(e), July 5, 1994, 108 Stat. 914, allowed petition or application for assistance in upgrading facilities to correct dangerous conditions or State and local violations, prior to repeal by Pub. L. 105–134, title IV, §403, Dec. 2, 1997, 111 Stat. 2585.

§24311. Acquiring interests in property by eminent domain

(a) **GENERAL AUTHORITY.**—(1) To the extent financial resources are available, Amtrak may acquire by eminent domain under subsection (b) of this section interests in property—

(A) necessary for intercity rail passenger transportation, except property of a rail carrier, a State, a political subdivision of a State, or a governmental authority; or

(B) requested by the Secretary of Transportation in carrying out the Secretary's duty to design and build an intermodal transportation terminal at Union Station in the District of Columbia if the Secretary assures Amtrak that the Secretary will reimburse Amtrak.

(2) Amtrak may exercise the power of eminent domain only if it cannot—

(A) acquire the interest in the property by contract; or

(B) agree with the owner on the purchase price for the interest.

(b) **CIVIL ACTIONS.**—(1) A civil action to acquire an interest in property by eminent domain under subsection (a) of this section must be brought in the district court of the United States for the judicial district in which the property is located or, if a single piece of property is located in more than one judicial district, in any judicial district in which any piece of the property is located. An interest is condemned and taken by Amtrak for its use when a declaration of taking is filed under this subsection and an amount of money estimated in the declaration to be just compensation for the interest is deposited in the court. The declaration may be filed with the complaint in the action or at any time before judgment. The declaration must contain or be accompanied by—

(A) a statement of the public use for which the interest is taken;

(B) a description of the property sufficient to identify it;

(C) a statement of the interest in the property taken;

(D) a plan showing the interest taken; and

(E) a statement of the amount of money Amtrak estimates is just compensation for the interest.

(2) When the declaration is filed and the deposit is made under paragraph (1) of this subsection, title to the property vests in Amtrak in fee simple absolute or in the lesser interest shown in the declaration, and the right to the money vests in the person entitled to the money. When the declaration is filed, the court may decide—

(A) the time by which, and the terms under which, possession of the property is given to Amtrak; and

(B) the disposition of outstanding charges related to the property.

(3) After a hearing, the court shall make a finding on the amount that is just compensation for the interest in the property and enter judgment awarding that amount and interest on it. The rate of

interest is 6 percent a year and is computed on the amount of the award less the amount deposited in the court from the date of taking to the date of payment.

(4) On application of a party, the court may order immediate payment of any part of the amount deposited in the court for the compensation to be awarded. If the award is more than the amount received, the court shall enter judgment against Amtrak for the deficiency.

(c) **AUTHORITY TO CONDEMN RAIL CARRIER PROPERTY INTERESTS.**—(1) If Amtrak and a rail carrier cannot agree on a sale to Amtrak of an interest in property of a rail carrier necessary for intercity rail passenger transportation, Amtrak may apply to the Surface Transportation Board for an order establishing the need of Amtrak for the interest and requiring the carrier to convey the interest on reasonable terms, including just compensation. The need of Amtrak is deemed to be established, and the Board, after holding an expedited proceeding and not later than 120 days after receiving the application, shall order the interest conveyed unless the Board decides that—

(A) conveyance would impair significantly the ability of the carrier to carry out its obligations as a common carrier; and

(B) the obligations of Amtrak to provide modern, efficient, and economical rail passenger transportation can be met adequately by acquiring an interest in other property, either by sale or by exercising its right of eminent domain under subsection (a) of this section.

(2) If the amount of compensation is not determined by the date of the Board's order, the order shall require, as part of the compensation, interest at 6 percent a year from the date prescribed for the conveyance until the compensation is paid.

(3) Amtrak subsequently may reconvey to a third party an interest conveyed to Amtrak under this subsection or prior comparable provision of law if the Board decides that the reconveyance will carry out the purposes of this part, regardless of when the proceeding was brought (including a proceeding pending before a United States court on November 28, 1990).

In subsection (a)(2), the words "to . . . compensation" and "prescribed" are omitted as surplus.

In subsection (b)(1), before clause (A), the words "(beginning with 1973)" are omitted as executed. The word "complete" is substituted for "comprehensive and detailed" to eliminate unnecessary words. In subsection (c), the words "(beginning with 1974)" are omitted as executed. (7) A process by which the treatment of the families of nonrevenue passengers will be the same as the treatment of the families of revenue passengers.

(8) An assurance that the rail passenger carrier will provide adequate training to the employees and agents of the carrier to meet the needs of survivors and family members following an accident.

(f) DEFINITIONS.—In this section, the terms "passenger" and "rail passenger accident" have the meaning given those terms by section 1139 of this title.

(i) notify the petitioner and Amtrak of receipt of the petition under subparagraph (A) and to publish in the Federal Register a notice of receipt not later than 30 days after the date of receipt;

(ii) establish a deadline, of not more than 120 days after the notice of receipt is published in the Federal Register under clause (i), by which both the petitioner and Amtrak, if Amtrak chooses to do so, would be required to submit a complete bid to provide intercity rail passenger transportation over the applicable route; and

(iii) upon selecting a winning bid, publish in the Federal Register the identity of the winning bidder, the long distance route that the bidder will operate, a detailed justification of the reasons why the Secretary selected the bid, and any other information the Secretary determines appropriate for public comment for a reasonable period of time not to exceed 30 days after the date on which the Secretary selects the bid;

(ii) be made available by the winning bidder to the public after the bid award with any appropriate redactions for confidential or proprietary information;

(D) for a route that receives funding from a State or States, require that for each bid received from a petitioner described in paragraph (3), other than such State or States, the Secretary have the concurrence of the State or States that provide funding for that route; and

(i) IDENTIFICATION OF STATE-SUPPORTED ROUTE CHANGES.—Amtrak shall—

(1) not later than 120 days before the submission of the general and legislative annual report required under section 24315(b), consult with the Committee and any additional States through which a State-supported route may operate regarding any proposed changes to such route; and

The Regional Rail Reorganization Act of 1973, referred to in par. (1), is Pub. L. 93–236, Jan. 2, 1974, 87 Stat. 985, as amended, which is classified principally to chapter 16 (§701 et seq.) of Title 45, Railroads. For complete classification of this Act to the Code, see Short Title note set out under section 701 of Title 45 and Tables.

§24902. Goals and requirements

(a) **MANAGING COSTS AND REVENUES.**—Amtrak shall manage its operating costs, pricing policies, and other factors with the goal of having revenues derived each fiscal year from providing intercity rail passenger transportation over the Northeast Corridor route between the District of Columbia and Boston, Massachusetts, equal at least the operating costs of providing that transportation in that fiscal year.

(b) **PRIORITIES IN SELECTING AND SCHEDULING PROJECTS.**—When selecting and scheduling specific projects, Amtrak shall apply the following considerations, in the following order of priority:

(1) Safety-related items should be completed before other items because the safety of the passengers and users of the Northeast Corridor is paramount.

(2) Activities that benefit the greatest number of passengers should be completed before activities involving fewer passengers.

(3) Reliability of intercity rail passenger transportation must be emphasized.

(4) Trip-time requirements of this section must be achieved to the extent compatible with the priorities referred to in paragraphs (1)–(3) of this subsection.

(5) Improvements that will pay for the investment by achieving lower operating or maintenance costs should be carried out before other improvements.

(6) Construction operations should be scheduled so that the fewest possible passengers are inconvenienced, transportation is maintained, and the on-time performance of Northeast Corridor commuter rail passenger and rail freight transportation is optimized.

(7) Planning should focus on completing activities that will provide immediate benefits to users of the Northeast Corridor.

(c) **COMPATIBILITY WITH FUTURE IMPROVEMENTS AND PRODUCTION OF MAXIMUM LABOR BENEFITS.**—Improvements under this section shall be compatible with future improvements in transportation and shall produce the maximum labor benefit from hiring individuals presently unemployed.

(d) **AUTOMATIC TRAIN CONTROL SYSTEMS.**—A train operating on the Northeast Corridor main line or between the main line and Atlantic City shall be equipped with an automatic train control system designed to slow or stop the train in response to an external signal.

(e) **HIGH-SPEED TRANSPORTATION.**—If practicable, Amtrak shall establish intercity rail passenger transportation in the Northeast Corridor that carries out section 703(1)(E) of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94–210, 90 Stat. 121).

(f) **EQUIPMENT DEVELOPMENT.**—Amtrak shall develop economical and reliable equipment compatible with track, operating, and marketing characteristics of the Northeast Corridor, including the capability to meet reliable trip times under section 703(1)(E) of the Railroad Revitalization and Regulatory Reform Act of 1976 (Public Law 94–210, 90 Stat. 121) in regularly scheduled revenue transportation in the Corridor, when the Northeast Corridor improvement program is completed. Amtrak must decide that equipment complies with this subsection before buying equipment with

financial assistance of the Government. Amtrak shall submit a request for an authorization of appropriations for production of the equipment.

(g) AGREEMENTS FOR OFF-CORRIDOR ROUTING OF RAIL FREIGHT

TRANSPORTATION.—(1) Amtrak may make an agreement with a rail freight carrier or a regional transportation authority under which the carrier will carry out an alternate off-corridor routing of rail freight transportation over rail lines in the Northeast Corridor between the District of Columbia and New York metropolitan areas, including intermediate points. The agreement shall be for at least 5 years.

(2) Amtrak shall apply to the Surface Transportation Board for approval of the agreement and all related agreements accompanying the application as soon as the agreement is made. If the Board finds that approval is necessary to carry out this chapter, the Board shall approve the application and related agreements not later than 90 days after receiving the application.

(3) If an agreement is not made under paragraph (1) of this subsection, Amtrak, with the consent of the other parties, may apply to the Surface Transportation Board. Not later than 90 days after the application, the Board shall decide on the terms of an agreement if it decides that doing so is necessary to carry out this chapter. The decision of the Board is binding on the other parties.

(h) COORDINATION.—(1) The Secretary of Transportation shall coordinate—

(A) transportation programs related to the Northeast Corridor to ensure that the programs are integrated and consistent with the Northeast Corridor improvement program; and

(B) amounts from departments, agencies, and instrumentalities of the Government to achieve urban redevelopment and revitalization in the vicinity of urban rail stations in the Northeast Corridor served by intercity and commuter rail passenger transportation.

(2) If the Secretary finds significant noncompliance with this section, the Secretary may deny financing to a noncomplying program until the noncompliance is corrected.

(i) COMPLETION.—Amtrak shall give the highest priority to completing the program.

(j) APPLICABLE PROCEDURES.—No State or local building, zoning, subdivision, or similar or related law, nor any other State or local law from which a project would be exempt if undertaken by the Federal Government or an agency thereof within a Federal enclave wherein Federal jurisdiction is exclusive, including without limitation with respect to all such laws referenced herein above requirements for permits, actions, approvals or filings, shall apply in connection with the construction, ownership, use, operation, financing, leasing, conveying, mortgaging or enforcing a mortgage of (i) any improvement undertaken by or for the benefit of Amtrak as part of, or in furtherance of, the Northeast Corridor Improvement Project (including without limitation maintenance, service, inspection or similar facilities acquired, constructed or used for high speed trainsets) or chapter 241, 243, or 247 of this title or (ii) any land (and right, title or interest created with respect thereto) on which such improvement is located and adjoining, surrounding or any related land. These exemptions shall remain in effect and be applicable with respect to such land and improvements for the benefit of any mortgagee before, upon and after coming into possession of such improvements or land, any third party purchasers thereof in foreclosure (or through a deed in lieu of foreclosure), and their respective successors and assigns, in each case to the extent the land or improvements are used, or held for use, for railroad purposes or purposes accessory thereto. This subsection shall not apply to any improvement or related land unless Amtrak receives a Federal operating subsidy in the fiscal year in which Amtrak commits to or initiates such improvement.

L. 114–94, div. A, title XI, §11306(b)(3), Dec. 4, 2015, 129 Stat. 1660.

§24903. General authority

(a) GENERAL.—To carry out this chapter and the Regional Rail Reorganization Act of 1973 (45 U.S.C. 701 et seq.), Amtrak may—

(1) acquire, maintain, and dispose of any interest in property used to provide improved

high-speed rail transportation under section 24902 of this title;

(2) acquire, by condemnation or otherwise, any interest in real property that Amtrak considers necessary to carry out the goals of section 24902;

(3) provide for rail freight, intercity rail passenger, and commuter rail passenger transportation over property acquired under this section;

(4) improve rail rights of way between Boston, Massachusetts, and the District of Columbia (including the route through Springfield, Massachusetts, and routes to Harrisburg, Pennsylvania, and Albany, New York, from the Northeast Corridor main line) to achieve the goals of section 24902 of providing improved high-speed rail passenger transportation between Boston, Massachusetts, and the District of Columbia, and intermediate intercity markets;

(5) acquire, build, improve, and install passenger stations, communications and electric power facilities and equipment, public and private highway and pedestrian crossings, and other facilities and equipment necessary to provide improved high-speed rail passenger transportation over rights of way improved under clause (4) of this subsection;

(6) make agreements with other carriers and commuter authorities to grant, acquire, or make arrangements for rail freight or commuter rail passenger transportation over, rights of way and facilities acquired under the Regional Rail Reorganization Act of 1973 (45 U.S.C. 701 et seq.), the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801 et seq.), and chapter 224 of this title; and

(7) appoint a general manager of the Northeast Corridor improvement program.

(b) COMPENSATORY AGREEMENTS.—Rail freight and commuter rail passenger transportation provided under subsection (a)(3) of this section shall be provided under compensatory agreements with the responsible carriers.

(c) COMPENSATION FOR TRANSPORTATION OVER CERTAIN RIGHTS OF WAY AND FACILITIES.—(1) An agreement under subsection (a)(6) of this section shall provide for reasonable reimbursement of costs but may not cross-subsidize intercity rail passenger, commuter rail passenger, and rail freight transportation.

(2) If the parties do not agree, the Surface Transportation Board shall order that the transportation continue over facilities acquired under the Regional Rail Reorganization Act of 1973 (45 U.S.C. 701 et seq.), the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 801 et seq.), and chapter 224 of this title and shall determine compensation (without allowing cross-subsidization between commuter rail passenger and intercity rail passenger and rail freight transportation) for the transportation not later than 120 days after the dispute is submitted. The Board shall assign to a rail carrier obtaining transportation under this subsection the costs Amtrak incurs only for the benefit of the carrier, plus a proportionate share of all other costs of providing transportation under this paragraph incurred for the common benefit of Amtrak and the carrier. The proportionate share shall be based on relative measures of volume of car operations, tonnage, or other factors that reasonably reflect the relative use of rail property covered by this subsection.

(3) This subsection does not prevent the parties from making an agreement under subsection (a)(6) of this section after the Board makes a decision under this subsection.

Section 211 of the Passenger Rail Investment and Improvement Act of 2008, referred to in subsec. (e)(2)(A)(i), is section 211 of Pub. L. 110–432, which was set out as a note under section 24902 of this title, prior to repeal by Pub. L. 114–94, div. A, title XI, §11306(b)(3), Dec. 4, 2015, 129 Stat. 1660.

Section 207 of the Passenger Rail Investment and Improvement Act of 2008, referred to subsec. (e)(2)(B)(i)(I), is section 207 of Pub. L. 110–432, which is set out in a note under section 24101 of this title.

"SEC. 302. FINDINGS.

"Congress finds that—

"(1) rail transportation is an essential component of the North American intermodal transportation system;

"(4) rail transportation in otherwise isolated areas facilitates controlled access and may reduce overall impact to environmentally sensitive areas;

"(5) the extension of the continental rail system through northern British Columbia and the Yukon Territory to the current terminus of the Alaska Railroad would significantly benefit the United States and Canadian visitor industries by facilitating the comfortable movement of passengers over long distances while minimizing effects on the surrounding areas; and

"(6) ongoing research and development efforts in the rail industry continue to increase the efficiency of rail transportation, ensure safety, and decrease the impact of rail service on the environment.

"SEC. 303. AGREEMENT FOR A UNITED STATES-CANADA BILATERAL COMMISSION.

"The President is authorized and urged to enter into an agreement with the Government of Canada to establish an independent joint commission to study the feasibility and advisability of linking the rail system in Alaska to the nearest appropriate point on the North American continental rail system.

§28103. Limitations on rail passenger transportation liability

(a) LIMITATIONS.—(1) Notwithstanding any other statutory or common law or public policy, or the nature of the conduct giving rise to damages or liability, in a claim for personal injury to a passenger, death of a passenger, or damage to property of a passenger arising from or in connection with the provision of rail passenger transportation, or from or in connection with any rail passenger transportation operations over or rail passenger transportation use of right-of-way or facilities owned,

leased, or maintained by any high-speed railroad authority or operator, any commuter authority or operator, any rail carrier, or any State, punitive damages, to the extent permitted by applicable State law, may be awarded in connection with any such claim only if the plaintiff establishes by clear and convincing evidence that the harm that is the subject of the action was the result of conduct carried out by the defendant with a conscious, flagrant indifference to the rights or safety of others. If, in any case wherein death was caused, the law of the place where the act or omission complained of occurred provides, or has been construed to provide, for damages only punitive in nature, this paragraph shall not apply.

(2) The aggregate allowable awards to all rail passengers, against all defendants, for all claims, including claims for punitive damages, arising from a single accident or incident, shall not exceed \$200,000,000.

(b) **CONTRACTUAL OBLIGATIONS.**—A provider of rail passenger transportation may enter into contracts that allocate financial responsibility for claims.

(c) **MANDATORY COVERAGE.**—Amtrak shall maintain a total minimum liability coverage for claims through insurance and self-insurance of at least \$200,000,000 per accident or incident.

(d) **EFFECT ON OTHER LAWS.**—This section shall not affect the damages that may be recovered under the Act of April 27, 1908 (45 U.S.C. 51 et seq.; popularly known as the "Federal Employers' Liability Act") or under any workers compensation Act.

(e) **DEFINITION.**—For purposes of this section—

(1) the term "claim" means a claim made—

(A) against Amtrak, any high-speed railroad authority or operator, any commuter authority or operator, any rail carrier, or any State; or

(B) against an officer, employee, affiliate engaged in railroad operations, or agent, of Amtrak, any high-speed railroad authority or operator, any commuter authority or operator, any rail carrier, or any State;

(2) the term "punitive damages" means damages awarded against any person or entity to punish or deter such person or entity, or others, from engaging in similar behavior in the future; and

(3) the term "rail carrier" includes a person providing excursion, scenic, or museum train service, and an owner or operator of a privately owned rail passenger car.

The words "Congress hereby declares that", "to persons", and "Congress determines that" are omitted as surplus. The words "motor vehicle" before "equipment" are added for consistency. The words "and to expand the national driver register" are omitted because section 401 of the National Traffic and Motor Vehicle Safety Act of 1966 (Public Law 89–563, 80 Stat. 730), the only section in this law related to the national driver register, was superseded by the National Driver Register Act of 1982 (Public Law 97–364, 96 Stat. 1740).

In subsection (a), the definitions apply to the entire chapter because of references in 15:1421–1431 applying 15:1391–1420 to 15:1421–1431. Before clause (1), the words "As used" are omitted as surplus. In clause (1), the text of 15:1391(10) and 49 App.:1655(a)(6)(A) is omitted as surplus because the complete name of the Secretary of Transportation is used the first time the term appears in a section. The words "selling and distributing" are substituted for "who is engaged in the sale and distribution of" to eliminate unnecessary words. The word "purposes" is omitted as surplus. In clause (3), the words "selling and distributing" are substituted for "engaged in the sale and distribution of" to eliminate unnecessary words. In clause (5)(A), the words "manufacturing or assembling" are substituted for "engaged in the manufacturing or assembling of" to eliminate unnecessary words. In clause (7), the words "physician or other duly" and "drivers, passengers, and other" are omitted as surplus. In clause (8), the words "is also protected" and "to persons" are omitted as unnecessary. In clause (9), the words "which is practicable, which meets the need for motor vehicle safety and which provides objective criteria" are omitted as unnecessary because of 15:1392(a) which is restated in section 30111 of the revised title. In clauses (10) and (11), the words "the Northern Mariana Islands" are added because of section 502(a)(2) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as enacted by the Act of March 24, 1976 (Public Law 94–241, 90 Stat. 268), and as proclaimed to be in effect by the President on January 9, 1978 (Proc. No. 4534, Oct. 24, 1977, 42 F.R. 56593). The words "the Canal Zone" are omitted because of the Panama Canal Treaty of 1977. In clause (10), the word "means" is substituted for "includes" as being more appropriate. The words "a State of the United States" are substituted for "each of the several States" for consistency. The words "the Commonwealth of" are omitted as surplus. In clause (11), the word "Federal" is omitted as surplus. The words "of the Commonwealth of Puerto Rico" are omitted as unnecessary because the district court of Puerto Rico is a district court of the United States under 28:119.

In subsection (b)(1), before clause (A), the words "The term" and "the term" are omitted as surplus. In clause (B), the words "of a motor vehicle or motor vehicle equipment" are added for clarity. In clause (E), the words "to be" are added for consistency. The words "marketed under such brand name" are omitted as surplus. In clause (F), the words "a motor vehicle safety standard prescribed under this chapter" are added for clarity and consistency. The word "noncompliance" is substituted for "failure to comply" for consistency in the chapter. In clause (G), the words "(rather than the manufacturer of such equipment)" are omitted as surplus. The words "deemed to be" are substituted for "considered" for consistency. In clause (H), the words "which have been" are omitted as surplus.

Subsection (b)(2) is substituted for "Except as otherwise provided in regulations of the Secretary" for clarity and because of the restatement.

§30103. Relationship to other laws

(a) **UNIFORMITY OF REGULATIONS.**—The Secretary of Transportation may not prescribe a safety regulation related to a motor vehicle subject to subchapter I of chapter 135 of this title that differs from a motor vehicle safety standard prescribed under this chapter. However, the Secretary may prescribe, for a motor vehicle operated by a carrier subject to subchapter I of chapter 135, a safety regulation that imposes a higher standard of performance after manufacture than that required by an applicable standard in effect at the time of manufacture.

(b) **PREEMPTION.**—(1) When a motor vehicle safety standard is in effect under this chapter, a State or a political subdivision of a State may prescribe or continue in effect a standard applicable to the same aspect of performance of a motor vehicle or motor vehicle equipment only if the standard is identical to the standard prescribed under this chapter. A remedy under those sections and sections 30161 and 30162 of this title is in addition to other rights and remedies under other laws of the United States or a State.

(e) **COMMON LAW LIABILITY.**—Compliance with a motor vehicle safety standard prescribed under this chapter does not exempt a person from liability at common law.

SUBCHAPTER II—STANDARDS AND COMPLIANCE

§30111. Standards

(a) **GENERAL REQUIREMENTS.**—The Secretary of Transportation shall prescribe motor vehicle safety standards. Each standard shall be practicable, meet the need for motor vehicle safety, and be stated in objective terms.

(b) **CONSIDERATIONS AND CONSULTATION.**—When prescribing a motor vehicle safety standard under this chapter, the Secretary shall—

(1) consider relevant available motor vehicle safety information;

(2) consult with the agency established under the Act of August 20, 1958 (Public Law 85–684, 72 Stat. 635), and other appropriate State or interstate authorities (including legislative committees);

(3) consider whether a proposed standard is reasonable, practicable, and appropriate for the particular type of motor vehicle or motor vehicle equipment for which it is prescribed; and

(4) consider the extent to which the standard will carry out section 30101 of this title.

(c) **COOPERATION.**—The Secretary may advise, assist, and cooperate with departments, agencies, and instrumentalities of the United States Government, States, and other public and private agencies in developing motor vehicle safety standards.

(d) **EFFECTIVE DATES OF STANDARDS.**—The Secretary shall specify the effective date of a motor vehicle safety standard prescribed under this chapter in the order prescribing the standard. A standard may not become effective before the 180th day after the standard is prescribed or later than one year after it is prescribed. However, the Secretary may prescribe a different effective date after finding, for good cause shown, that a different effective date is in the public interest and publishing the reasons for the finding.

(e) **5-YEAR PLAN FOR TESTING STANDARDS.**—The Secretary shall establish and periodically review and update on a continuing basis a 5-year plan for testing motor vehicle safety standards prescribed under this chapter that the Secretary considers capable of being tested. In developing the plan and establishing testing priorities, the Secretary shall consider factors the Secretary considers appropriate, consistent with section 30101 of this title and the Secretary's other duties and powers under this chapter. The Secretary may change at any time those priorities to address matters the Secretary considers of greater priority. The initial plan may be the 5-year plan for compliance testing in effect on December 18, 1991.

(f) **MOTOR VEHICLE SAFETY GUIDELINES.**—

(1) **IN GENERAL.**—No guidelines issued by the Secretary with respect to motor vehicle safety shall confer any rights on any person, State, or locality, nor shall operate to bind the Secretary or any person to the approach recommended in such guidelines. In any enforcement action with respect to motor vehicle safety, the Secretary shall allege a violation of a provision of this subtitle, a motor vehicle safety standard issued under this subtitle, or another relevant statute or regulation. The Secretary may not base an enforcement action on, or execute a consent order based on, practices that are alleged to be inconsistent with any such guidelines, unless the practices allegedly violate a provision of this subtitle, a motor vehicle safety standard issued under this subtitle, or another relevant statute or regulation.

(2) **RULE OF CONSTRUCTION.**—Nothing in this subsection shall be construed to confer any authority upon or negate any authority of the Secretary to issue guidelines under this chapter.

"(2) NO RETROFITTING REQUIRED.—Any rule promulgated pursuant to this section may not require the retrofitting of agricultural equipment that was manufactured before the date on which the lighting and marking standards are enforceable under subsection (b)(2)(A).

"(3) NO EFFECT ON ADDITIONAL MATERIALS AND EQUIPMENT.—Any rule promulgated pursuant to this section may not prohibit the operation on public roads of agricultural equipment that is

equipped with materials or equipment that are in addition to the minimum materials and equipment specified in the standard upon which such rule is based."

"SEC. 3. MINIMUM SOUND REQUIREMENT FOR MOTOR VEHICLES.

"(a) **RULEMAKING REQUIRED.**—Not later than 18 months after the date of enactment of this Act [Jan. 4, 2011] the Secretary shall initiate rulemaking, under section 30111 of title 49, United States Code, to promulgate a motor vehicle safety standard—

"(1) establishing performance requirements for an alert sound that allows blind and other pedestrians to reasonably detect a nearby electric or hybrid vehicle operating below the cross-over speed, if any; and

"(2) requiring new electric or hybrid vehicles to provide an alert sound conforming to the requirements of the motor vehicle safety standard established under this subsection.

"The motor vehicle safety standard established under this subsection shall not require either driver or pedestrian activation of the alert sound and shall allow the pedestrian to reasonably detect a nearby electric or hybrid vehicle in critical operating scenarios including, but not limited to, constant speed, accelerating, or decelerating. The Secretary shall allow manufacturers to provide each vehicle with one or more sounds that

comply with the motor vehicle safety standard at the time of manufacture. Further, the Secretary shall require manufacturers to provide, within reasonable manufacturing tolerances, the same sound or set of sounds for all vehicles of the same make and model and shall prohibit manufacturers from providing any mechanism for anyone other than the manufacturer or the dealer to disable, alter, replace, or modify the sound or set of sounds, except that the manufacturer or dealer may alter, replace, or modify the sound or set of sounds in order to remedy a defect or non-compliance with the motor vehicle safety standard. The Secretary shall promulgate the required motor vehicle safety standard pursuant to this subsection not later than 36 months after the date of enactment of this Act.

"(b) **CONSIDERATION.**—When conducting the required rulemaking, the Secretary shall—

"(1) determine the minimum level of sound emitted from a motor vehicle that is necessary to provide blind and other pedestrians with the information needed to reasonably detect a nearby electric or hybrid vehicle operating at or below the cross-over speed, if any;

"(3) consider the overall community noise impact.

"(c) **PHASE-IN REQUIRED.**—The motor vehicle safety standard prescribed pursuant to subsection (a) of this section shall establish a phase-in period for compliance, as determined by the Secretary, and shall require full compliance with the required motor vehicle safety standard for motor vehicles manufactured on or after September 1st of the calendar year that begins 3 years after the date on which the final rule is issued.

"(d) **REQUIRED CONSULTATION.**—When conducting the required study and rulemaking, the Secretary shall—

"(1) consult with the Environmental Protection Agency to assure that the motor vehicle safety standard is consistent with existing noise requirements overseen by the Agency;

"(2) consult consumer groups representing individuals who are blind;

"(e) **REQUIRED STUDY AND REPORT TO CONGRESS.**—Not later than 48 months after the date of enactment of this Act, the Secretary shall complete a study and report to Congress as to whether there exists a safety need to apply the motor vehicle safety standard required by subsection (a) to conventional motor vehicles. In the event that the Secretary determines there exists a safety need, the Secretary shall initiate rulemaking under section 30111 of title 49, United States Code, to extend the standard to conventional motor vehicles.

"SEC. 4. FUNDING.

"Notwithstanding any other provision of law, \$2,000,000 of any amounts made available to the Secretary of Transportation under under [sic] section 406 of title 23, United States Code, shall be made available to the Administrator of the National Highway Transportation Safety Administration for carrying out section 3 of this Act."

CHILD SAFETY STANDARDS FOR MOTOR VEHICLES

Pub. L. 110–189, Feb. 28, 2008, 122 Stat. 639, provided that:

"SECTION 1. SHORT TITLE.

"This Act may be cited as the 'Cameron Gulbransen Kids Transportation Safety Act of 2007' or the 'K.T. Safety Act of 2007'.

"SEC. 2. RULEMAKING REGARDING CHILD SAFETY.

"(a) **POWER WINDOW SAFETY.**—

"(1) **CONSIDERATION OF RULE.**—Not later than 18 months after the date of the enactment of this Act [Feb. 28, 2008], the Secretary of Transportation (referred to in this Act as the 'Secretary') shall initiate a rulemaking to consider prescribing or amending Federal motor vehicle safety standards to require power windows and panels on motor vehicles to automatically reverse direction when such power windows and panels detect an obstruction to prevent children and others from being trapped, injured, or killed.

"(2) **DEADLINE FOR DECISION.**—If the Secretary determines such safety standards are reasonable, practicable, and appropriate, the Secretary shall prescribe, under section 30111 of title 49, United States Code, the safety standards described in paragraph (1) not later than 30 months after the date of enactment of this Act. If the Secretary determines that no additional safety standards are reasonable, practicable, and appropriate, the Secretary shall—

"(A) not later than 30 months after the date of enactment of this Act, transmit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate describing the reasons such standards were not prescribed; and

"(B) publish and otherwise make available to the public through the Internet and other means (such as the 'Buying a Safer Car' brochure) information regarding which vehicles are or are not equipped with power windows and panels that automatically reverse direction when an obstruction is detected.

"(b) REARWARD VISIBILITY.—Not later than 12 months after the date of the enactment of this Act [Feb. 28, 2008], the Secretary shall initiate a rulemaking to revise Federal Motor Vehicle Safety Standard 111 (FMVSS 111) to expand the required field of view to enable the driver of a motor vehicle to detect areas behind the motor vehicle to reduce death and injury resulting from backing incidents, particularly incidents involving small children and disabled persons. The Secretary may prescribe different requirements for different types of motor vehicles to expand the required field of view to enable the driver of a motor vehicle to detect areas behind the motor vehicle to reduce death and injury resulting from backing incidents, particularly incidents involving small children and disabled persons. Such standard may be met by the provision of additional mirrors, sensors, cameras, or other technology to expand the driver's field of view. The Secretary shall prescribe final standards pursuant to this subsection not later than 36 months after the date of enactment of this Act.

"(c) PHASE-IN PERIOD.—

"(1) PHASE-IN PERIOD REQUIRED.—The safety standards prescribed pursuant to subsections (a) and (b) shall establish a phase-in period for compliance, as determined by the Secretary, and require full compliance with the safety standards not later than 48 months after the date on which the final rule is issued.

"(2) PHASE-IN PRIORITIES.—In establishing the phase-in period of the rearward visibility safety standards required under subsection (b), the Secretary shall consider whether to require the phase-in according to different types of motor vehicles based on data demonstrating the frequency by which various types of motor vehicles have been involved in backing incidents resulting in injury or death. If the Secretary determines that any type of motor vehicle should be given priority, the Secretary shall issue regulations that specify—

"(A) which type or types of motor vehicles shall be phased-in first; and

"(B) the percentages by which such motor vehicles shall be phased-in.

"(d) PREVENTING MOTOR VEHICLES FROM ROLLING AWAY.—

"(1) REQUIREMENT.—Each motor vehicle with an automatic transmission that includes a 'park' position manufactured for sale after September 1, 2010, shall be equipped with a system that requires the service brake to be depressed before the transmission can be shifted out of 'park'. This system shall function in any starting system key position in which the transmission can be shifted out of 'park'.

"(2) TREATMENT AS MOTOR VEHICLE SAFETY STANDARD.—A violation of paragraph (1) shall be treated as a violation of a motor vehicle safety standard prescribed under section 30111 of title 49, United States Code, and shall be subject to enforcement by the Secretary under chapter 301 of such title.

"(3) PUBLICATION OF NONCOMPLIANT VEHICLES.—

"(A) INFORMATION SUBMISSION.—Not later than 60 days after the date of the enactment of this Act [Feb. 28, 2008], for the current model year and annually thereafter through 2010, each motor vehicle manufacturer shall transmit to the Secretary the make and model of motor vehicles with automatic transmissions that include a 'park' position that do not comply with the requirements of paragraph (1).

"(B) PUBLICATION.—Not later than 30 days after receiving the information submitted under subparagraph (A), the Secretary shall publish and otherwise make available to the public through the Internet and other means the make and model of the applicable motor vehicles that do not comply with the requirements of paragraph (1). Any motor vehicle not included in the publication under this subparagraph shall be presumed to comply with such requirements.

"(e) DEFINITION OF MOTOR VEHICLE.—As used in this Act and for purposes of the motor vehicle safety standards described in subsections (a) and (b), the term 'motor vehicle' has the meaning given such term in section 30102(a)(6) [now 30102(a)(7)] of title 49, United States Code, except that such term shall not include—

"(1) a motorcycle or trailer (as such terms are defined in section 571.3 of title 49, Code of Federal Regulations); or

"(2) any motor vehicle that is rated at more than 10,000 pounds gross vehicular weight.

"(f) DATABASE ON INJURIES AND DEATHS IN NONTRAFFIC, NONCRASH EVENTS.—

"(1) IN GENERAL.—Not later than 12 months after the date of the enactment of this Act [Feb. 28,

2008], the Secretary shall establish and maintain a database of injuries and deaths in nontraffic, noncrash events involving motor vehicles.

"(2) CONTENTS.—The database established pursuant to paragraph (1) shall include information regarding—

"(A) the number, types, and causes of injuries and deaths resulting from the events described in paragraph (1);

"(B) the make, model, and model year of motor vehicles involved in such events, when practicable; and

"(C) other variables that the Secretary determines will enhance the value of the database.

"(3) AVAILABILITY.—The Secretary shall make the information contained in the database established pursuant to paragraph (1) available to the public through the Internet and other means.

"SEC. 3. CHILD SAFETY INFORMATION PROGRAM.

"(a) IN GENERAL.—Not later than 9 months after the date of the enactment of this Act [Feb. 28, 2008], the Secretary shall provide information about hazards to children in nontraffic, noncrash incident situations by—

"(1) supplementing an existing consumer information program relating to child safety; or

"(2) creating a new consumer information program relating to child safety.

"(b) PROGRAM REQUIREMENTS.—In carrying out the program under subsection (a), the Secretary shall—

"(1) utilize information collected pursuant to section 2(f) regarding nontraffic, noncrash injuries, and other relevant data the Secretary considers appropriate, to establish priorities for the program;

"(2) address ways in which parents and caregivers can reduce risks to small children arising from back over incidents, hyperthermia in closed motor vehicles, accidental actuation of power windows, and any other risks the Secretary determines should be addressed; and

"(3) make information related to the program available to the public through the Internet and other means.

"SEC. 4. DEADLINES.

"If the Secretary determines that the deadlines applicable under this Act cannot be met, the Secretary shall—

"(1) establish new deadlines; and

"(2) notify the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate of the new deadlines and describing the reasons the deadlines specified under this Act could not be met."

IMPROVING CRITERIA USED IN A RECALL

Pub. L. 106–414, §15, Nov. 1, 2000, 114 Stat. 1808, provided that:

"(a) REVIEW OF STANDARDS AND CRITERIA USED IN OPENING A DEFECT OR NONCOMPLIANCE INVESTIGATION.—The Secretary shall, not later than 30 days after the date of the enactment of this Act [Nov. 1, 2000], undertake a comprehensive review of all standards, criteria, procedures, and methods, including data management and analysis used by the National Highway Traffic Safety Administration in determining whether to open a defect or noncompliance investigation pursuant to subchapter II or IV of chapter 301 of title 49, United States Code, and shall undertake such steps as may be necessary to update and improve such standards, criteria, procedures, or methods, including data management and analysis.

"(b) REPORT TO CONGRESS.—Not later than 1 year after the date of the enactment of this Act [Nov. 1, 2000], the Secretary shall transmit to the Committee on Commerce [now Committee on Energy and Commerce] of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report describing the Secretary's findings and actions under subsection (a)."

§30112. Prohibitions on manufacturing, selling, and importing noncomplying motor vehicles and equipment

(a) GENERAL.—(1) Except as provided in this section, sections 30113 and 30114 of this title, and subchapter III of this chapter, a person may not manufacture for sale, sell, offer for sale, introduce or deliver for introduction in interstate commerce, or import into the United States, any motor vehicle or motor vehicle equipment manufactured on or after the date an applicable motor

vehicle safety standard prescribed under this chapter takes effect unless the vehicle or equipment complies with the standard and is covered by a certification issued under section 30115 of this title.

(2) Except as provided in this section, sections 30113 and 30114 of this title, and subchapter III of this chapter, a school or school system may not purchase or lease a new 15-passenger van if it will be used significantly by, or on behalf of, the school or school system to transport preprimary, primary, or secondary school students to or from school or an event related to school, unless the 15-passenger van complies with the motor vehicle standards prescribed for school buses and multifunction school activity buses under this title. This paragraph does not apply to the purchase or lease of a 15-passenger van under a contract executed before the date of enactment of this paragraph.

Nothing in this paragraph may be construed to prohibit the importation of a new motor vehicle that receives a required recall remedy before being sold to a consumer in the United States.

(b) NONAPPLICATION.—This section does not apply to—

(1) the sale, offer for sale, or introduction or delivery for introduction in interstate commerce of a motor vehicle or motor vehicle equipment after the first purchase of the vehicle or equipment in good faith other than for resale;

(2) a person—

(A) establishing that the person had no reason to know, despite exercising reasonable care, that a motor vehicle or motor vehicle equipment does not comply with applicable motor vehicle safety standards prescribed under this chapter;

(B) holding, without knowing about the noncompliance and before the vehicle or equipment is first purchased in good faith other than for resale, a certificate issued by a manufacturer or importer stating the vehicle or equipment complies with applicable standards prescribed under this chapter; or

(C) having no reason to know, despite exercising reasonable care, that a motor vehicle or motor vehicle equipment contains a defect related to motor vehicle safety about which notice was given under section 30118(c) or an order was issued under section 30118(b);

(3) a motor vehicle or motor vehicle equipment intended only for export, labeled for export on the vehicle or equipment and on the outside of any container of the vehicle or equipment, and exported;

(5) a motor vehicle imported for personal use by an individual who receives an exemption under section 30142 of this title;

(6) a motor vehicle under section 30143 of this title imported by an individual employed outside the United States;

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2012 AMENDMENT

Amendment by Pub. L. 112–141 effective Oct. 1, 2012, see section 3(a) of Pub. L. 112–141, set out as an Effective and Termination Dates of 2012 Amendment note under section 101 of Title 23, Highways.

§30113. General exemptions

(a) **DEFINITION.**—In this section, "low-emission motor vehicle" means a motor vehicle meeting the standards for new motor vehicles applicable to the vehicle under section 202 of the Clean Air Act (42 U.S.C. 7521) when the vehicle is manufactured and emitting an air pollutant in an amount significantly below one of those standards.

(b) **AUTHORITY TO EXEMPT AND PROCEDURES.**—(1) The Secretary of Transportation may exempt, on a temporary basis, motor vehicles from a motor vehicle safety standard prescribed under this chapter or passenger motor vehicles from a bumper standard prescribed under chapter 325 of this title, on terms the Secretary considers appropriate. An exemption may be renewed. A renewal may be granted only on reapplication and must conform to the requirements of this subsection.

(2) The Secretary may begin a proceeding under this subsection when a manufacturer applies for an exemption or a renewal of an exemption. The Secretary shall publish notice of the application and provide an opportunity to comment. An application for an exemption or for a renewal of an exemption shall be filed at a time and in the way, and contain information, this section and the Secretary require.

(3) The Secretary may act under this subsection on finding that—

(A) an exemption is consistent with the public interest and this chapter or chapter 325 of this title (as applicable); and

(B)(i) compliance with the standard would cause substantial economic hardship to a manufacturer that has tried to comply with the standard in good faith;

(ii) the exemption would make easier the development or field evaluation of a new motor vehicle safety feature providing a safety level at least equal to the safety level of the standard;

(iii) the exemption would make the development or field evaluation of a low-emission motor vehicle easier and would not unreasonably lower the safety level of that vehicle; or

(iv) compliance with the standard would prevent the manufacturer from selling a motor vehicle with an overall safety level at least equal to the overall safety level of nonexempt vehicles.

(c) **CONTENTS OF APPLICATIONS.**—A manufacturer applying for an exemption under subsection (b) of this section shall include the following information in the application:

(1) if the application is made under subsection (b)(3)(B)(i) of this section, a complete financial statement describing the economic hardship and a complete description of the manufacturer's good faith effort to comply with each motor vehicle safety standard prescribed under this chapter, or a bumper standard prescribed under chapter 325 of this title, from which the manufacturer is requesting an exemption.

(2) if the application is made under subsection (b)(3)(B)(ii) of this section, a record of the research, development, and testing establishing the innovative nature of the safety feature and a detailed analysis establishing that the safety level of the feature at least equals the safety level of the standard.

(3) if the application is made under subsection (b)(3)(B)(iii) of this section, a record of the

research, development, and testing establishing that the motor vehicle is a low-emission motor vehicle and that the safety level of the vehicle is not lowered unreasonably by exemption from the standard.

(4) if the application is made under subsection (b)(3)(B)(iv) of this section, a detailed analysis showing how the vehicle provides an overall safety level at least equal to the overall safety level of nonexempt vehicles.

(d) **ELIGIBILITY.**—A manufacturer is eligible for an exemption under subsection (b)(3)(B)(i) of this section (including an exemption under subsection (b)(3)(B)(i) relating to a bumper standard referred to in subsection (b)(1)) only if the Secretary determines that the manufacturer's total motor vehicle production in the most recent year of production is not more than 10,000. A manufacturer is eligible for an exemption under subsection (b)(3)(B)(ii), (iii), or (iv) of this section only if the Secretary determines the exemption is for not more than 2,500 vehicles to be sold in the United States in any 12-month period.

(e) **MAXIMUM PERIOD.**—An exemption or renewal under subsection (b)(3)(B)(i) of this section may be granted for not more than 3 years. An exemption or renewal under subsection (b)(3)(B)(ii), (iii), or (iv) of this section may be granted for not more than 2 years.

(f) **DISCLOSURE.**—The Secretary may make public, by the 10th day after an application is filed, information contained in the application or relevant to the application unless the information concerns or is related to a trade secret or other confidential information not relevant to the application.

(g) **NOTICE OF DECISION.**—The Secretary shall publish in the Federal Register a notice of each decision granting an exemption under this section and the reasons for granting it.

(h) **PERMANENT LABEL REQUIREMENT.**—The Secretary shall require a permanent label to be fixed to a motor vehicle granted an exemption under this section. The label shall either name or describe each motor vehicle safety standard prescribed under this chapter or bumper standard prescribed under chapter 325 of this title from which the vehicle is exempt. The Secretary may require that written notice of an exemption be delivered by appropriate means to the dealer and the first purchaser of the vehicle other than for resale.

§30114. Special exemptions

(A) ¹ Vehicles Used for Particular Purposes. ² The Secretary of Transportation may exempt a

motor vehicle or item of motor vehicle equipment from section 30112(a) of this title on terms the Secretary decides are necessary for research, investigations, demonstrations, training, competitive racing events, show, or display.

(b) EXEMPTION FOR LOW-VOLUME MANUFACTURERS.—

(1) IN GENERAL.—The Secretary shall—

(A) exempt from section 30112(a) of this title not more than 325 replica motor vehicles per year that are manufactured or imported by a low-volume manufacturer; and

(B) except as provided in paragraph (4) of this subsection, limit any such exemption to the Federal Motor Vehicle Safety Standards applicable to motor vehicles and not motor vehicle equipment.

(2) REGISTRATION REQUIREMENT.—To qualify for an exemption under paragraph (1), a low-volume manufacturer shall register with the Secretary at such time, in such manner, and under such terms that the Secretary determines appropriate. The Secretary shall establish terms that ensure that no person may register as a low-volume manufacturer if the person is registered as an importer under section 30141 of this title.

(3) PERMANENT LABEL REQUIREMENT.—

(A) **IN GENERAL.—**The Secretary shall require a low-volume manufacturer to affix a permanent label to a motor vehicle exempted under paragraph (1) that identifies the specified standards and regulations for which such vehicle is exempt from section 30112(a), states that the vehicle is a replica, and designates the model year such vehicle replicates.

(B) **WRITTEN NOTICE.—**The Secretary may require a low-volume manufacturer of a motor vehicle exempted under paragraph (1) to deliver written notice of the exemption to—

(i) the dealer; and

(ii) the first purchaser of the motor vehicle, if the first purchaser is not an individual that purchases the motor vehicle for resale.

(C) **REPORTING REQUIREMENT.—**A low-volume manufacturer shall annually submit a report to the Secretary including the number and description of the motor vehicles exempted under paragraph (1) and a list of the exemptions described on the label affixed under subparagraph (A).

(4) EFFECT ON OTHER PROVISIONS.—Any motor vehicle exempted under this subsection shall also be exempted from sections 32304, 32502, and 32902 of this title and from section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232).

(5) LIMITATION AND PUBLIC NOTICE.—The Secretary shall have 90 days to review and approve or deny a registration submitted under paragraph (2). If the Secretary determines that any such registration submitted is incomplete, the Secretary shall have an additional 30 days for review. Any registration not approved or denied within 90 days after initial submission, or 120 days if the registration submitted is incomplete, shall be deemed approved. The Secretary shall have the authority to revoke an existing registration based on a failure to comply with requirements set forth in this subsection or a finding by the Secretary of a safety-related defect or unlawful conduct under this chapter that poses a significant safety risk. The registrant shall be provided a reasonable opportunity to correct all deficiencies, if such are correctable based on the sole discretion of the Secretary. An exemption granted by the Secretary to a low-volume manufacturer under this subsection may not be transferred to any other person, and shall expire at the end of the calendar year for which it was granted with respect to any volume authorized by the exemption that was not applied by the low-volume manufacturer to vehicles built during that calendar year. The Secretary shall maintain an up-to-date list of registrants and a list of the make and model of motor vehicles exempted under paragraph (1) on at least an annual basis and publish such list in the Federal Register or on a website operated by the Secretary.

(6) LIMITATION OF LIABILITY FOR ORIGINAL MANUFACTURERS, LICENSORS OR OWNERS OF PRODUCT CONFIGURATION, TRADE DRESS, OR DESIGN PATENTS.—The

original manufacturer, its successor or assignee, or current owner, who grants a license or otherwise transfers rights to a low-volume manufacturer shall incur no liability to any person or entity under Federal or State statute, regulation, local ordinance, or under any Federal or State common law for such license or assignment to a low-volume manufacturer.

(7) DEFINITIONS.—In this subsection:

(A) LOW-VOLUME MANUFACTURER.—The term "low-volume manufacturer" means a motor vehicle manufacturer, other than a person who is registered as an importer under section 30141 of this title, whose annual worldwide production, including by a parent or subsidiary of the manufacturer, if applicable, is not more than 5,000 motor vehicles.

(B) REPLICA MOTOR VEHICLE.—The term "replica motor vehicle" means a motor vehicle produced by a low-volume manufacturer and that—

(i) is intended to resemble the body of another motor vehicle that was manufactured not less than 25 years before the manufacture of the replica motor vehicle; and

(ii) is manufactured under a license for the product configuration, trade dress, trademark, or patent, for the motor vehicle that is intended to be replicated from the original manufacturer, its successors or assignees, or current owner of such product configuration, trade dress, trademark, or patent rights.

(8) CONSTRUCTION.—Except as provided in paragraphs (1) and (4), a registrant shall be considered a motor vehicle manufacturer for purposes of parts A and C of subtitle VI of this title. Nothing shall be construed to exempt a registrant from complying with the requirements under sections 30116 through 30120A of this title if the motor vehicle excepted under paragraph (1) contains a defect related to motor vehicle safety.

(9) STATE REGISTRATION.—Nothing in this subsection shall be construed to preempt, affect, or supersede any State titling or registration law or regulation for a replica motor vehicle, or exempt a person from complying with such law or regulation.

The Secretary may require the manufacturer to give the following notice of that information when the Secretary decides it is necessary:

(2) to the first purchaser of a vehicle or equipment other than for resale when the vehicle or equipment is bought, in printed matter placed in the vehicle or attached to or accompanying the equipment.

(b) MAINTAINING PURCHASER RECORDS AND PROCEDURES.—(1) A manufacturer of a motor vehicle or tire (except a retreaded tire) shall cause to be maintained a record of the name and address of the first purchaser of each vehicle or tire it produces and, to the extent prescribed by regulations of the Secretary, shall cause to be maintained a record of the name and address of the first purchaser of replacement equipment (except a tire) that the manufacturer produces. The Secretary may prescribe by regulation the records to be maintained and reasonable procedures for maintaining the records under this subsection, including procedures to be followed by distributors and dealers to assist the manufacturer in obtaining the information required by this subsection. A procedure shall be reasonable for the type of vehicle or tire involved, and shall provide reasonable assurance that a customer list of a distributor or dealer, or similar information, will be made available to a person (except the distributor or dealer) only when necessary to carry out this subsection and sections 30118–30121, 30166(f), and 30167(a) and (b) of this title. The Secretary shall prescribe the form, which shall be standardized for all tires and designed to allow the purchaser to complete and return it directly to the manufacturer of the tire. The manufacturer shall give sufficient copies of forms to distributors and dealers.

(3) RULEMAKING.—

(A) IN GENERAL.—The Secretary shall initiate a rulemaking to require a distributor or dealer of tires that is not owned or controlled by a manufacturer of tires to maintain records of—

- (iii) any additional records the Secretary considers appropriate.

(B) ELECTRONIC TRANSMISSION.—The rulemaking carried out under subparagraph (A) shall require a distributor or dealer of tires that is not owned or controlled by a manufacturer of tires to electronically transmit the records described in clauses (i), (ii), and (iii) of subparagraph (A) to the manufacturer of the tires or the designee of the manufacturer by secure means at no cost to tire purchasers or lessors.

The notification shall include the information on which the decision is based. The Secretary shall publish a notice of each decision under this subsection in the Federal Register. Subject to section 30167(a) of this title, the notification and information are available to any interested person.

(b) DEFECT AND NONCOMPLIANCE PROCEEDINGS AND ORDERS.—(1) The Secretary may make a final decision that a motor vehicle or replacement equipment contains a defect related to motor vehicle safety or does not comply with an applicable motor vehicle safety standard prescribed under this chapter only after giving the manufacturer an opportunity to present information, views, and arguments showing that there is no defect or noncompliance or that the defect does not affect motor vehicle safety. Any interested person also shall be given an opportunity to present information, views, and arguments.

(2) If the Secretary decides under paragraph (1) of this subsection that the vehicle or equipment contains the defect or does not comply, the Secretary shall order the manufacturer to—

(2) decides in good faith that the vehicle or equipment does not comply with an applicable motor vehicle safety standard prescribed under this chapter.

(d) EXEMPTIONS.—On application of a manufacturer, the Secretary shall exempt the manufacturer from this section if the Secretary decides a defect or noncompliance is inconsequential to motor vehicle safety. The Secretary may take action under this subsection only after notice in the Federal Register and an opportunity for any interested person to present information, views, and arguments.

(e) HEARINGS ABOUT MEETING NOTIFICATION REQUIREMENTS.—On the motion of the Secretary or on petition of any interested person, the Secretary may conduct a hearing to decide

whether the manufacturer has reasonably met the notification requirements under this section. Any interested person may make written and oral presentations of information, views, and arguments on whether the manufacturer has reasonably met the notification requirements. If the Secretary decides that the manufacturer has not reasonably met the notification requirements, the Secretary shall order the manufacturer to take specified action to meet those requirements and may take any other action authorized under this chapter.

(a) **CONTENTS OF NOTIFICATION.**—Notification by a manufacturer required under section 30118 of this title of a defect or noncompliance shall contain—

- (1) a clear description of the defect or noncompliance;
- (2) an evaluation of the risk to motor vehicle safety reasonably related to the defect or noncompliance;
- (3) the measures to be taken to obtain a remedy of the defect or noncompliance;
- (4) a statement that the manufacturer giving notice will remedy the defect or noncompliance without charge under section 30120 of this title;
- (5) the earliest date on which the defect or noncompliance will be remedied without charge, and for tires, the period during which the defect or noncompliance will be remedied without charge under section 30120 of this title;

- (7) other information the Secretary prescribes by regulation.

(b) **EARLIEST REMEDY DATE.**—The date specified by a manufacturer in a notification under subsection (a)(5) of this section or section 30121(c)(2) of this title is the earliest date that parts and facilities reasonably can be expected to be available to remedy the defect or noncompliance. The Secretary may disapprove the date.

(c) **TIME FOR NOTIFICATION.**—Notification required under section 30118 of this title shall be given within a reasonable time—

- (1) prescribed by the Secretary, after the manufacturer receives notice of a final decision under section 30118(b) of this title; or

send a 2d notification in the way the Secretary prescribes by regulation.

(ii) to take additional steps to locate and notify each person registered under State law as the owner or lessee or the most recent purchaser or lessee, as appropriate; and

Pub. L. 114–94, div. B, title XXIV, §24335, Dec. 4, 2015, 129 Stat. 1716, provided that:

"(a) IN GENERAL.—The Secretary shall establish a publicly available and searchable electronic database of tire recall information that is reported to the Administrator of the National Highway Traffic Safety Administration.

"(b) TIRE IDENTIFICATION NUMBER.—The database established under subsection (a) shall be searchable by Tire Identification Number (TIN) and any other criteria that assists consumers in determining whether a tire is subject to a recall."

§30120. Remedies for defects and noncompliance

(a) WAYS TO REMEDY.—(1) Subject to subsections (f) and (g) of this section, when notification of a defect or noncompliance is required under section 30118(b) or (c) of this title, the manufacturer of the defective or noncomplying motor vehicle or replacement equipment shall remedy the defect or noncompliance without charge when the vehicle or equipment is presented for remedy. Subject to subsections (b) and (c) of this section, the manufacturer shall remedy the defect or noncompliance in any of the following ways the manufacturer chooses:

(A) if a vehicle—

(i) by repairing the vehicle;

(ii) by replacing the vehicle with an identical or reasonably equivalent vehicle; or

(iii) by refunding the purchase price, less a reasonable allowance for depreciation.

(B) if replacement equipment, by repairing the equipment, replacing the equipment with identical or reasonably equivalent equipment, or by refunding the purchase price.

(2) The Secretary of Transportation may prescribe regulations to allow the manufacturer to impose conditions on the replacement of a motor vehicle or refund of its price.

(b) TIRE REMEDIES.—(1) A manufacturer of a tire, including an original equipment tire, shall remedy a defective or noncomplying tire if the owner or purchaser presents the tire for remedy not later than 180 days after the later of—

(A) the day the owner or purchaser receives notification under section 30119 of this title; or

(B) if the manufacturer decides to replace the tire, the day the owner or purchaser receives notification that a replacement is available.

(2) If the manufacturer decides to replace the tire and the replacement is not available during the 180-day period, the owner or purchaser must present the tire for remedy during a subsequent

180-day period that begins only after the owner or purchaser receives notification that a replacement will be available during the subsequent period. If tires are available during the subsequent period, only a tire presented for remedy during that period must be remedied.

(c) **ADEQUACY OF REPAIRS.**—(1) If a manufacturer decides to repair a defective or noncomplying motor vehicle or replacement equipment and the repair is not done adequately within a reasonable time, the manufacturer shall—

(A) replace the vehicle or equipment without charge with an identical or reasonably equivalent vehicle or equipment; or

(B) for a vehicle, refund the purchase price, less a reasonable allowance for depreciation.

(2) Failure to repair a motor vehicle or replacement equipment adequately not later than 60 days after its presentation is prima facie evidence of failure to repair within a reasonable time. However, the Secretary may extend, by order, the 60-day period if good cause for an extension is shown and the reason is published in the Federal Register before the period ends. Presentation of a vehicle or equipment for repair before the date specified by a manufacturer in a notice under section 30119(a)(5) or 30121(c)(2) of this title is not a presentation under this subsection.

(3) If the Secretary determines that a manufacturer's remedy program is not likely to be capable of completion within a reasonable time, the Secretary may require the manufacturer to accelerate the remedy program if the Secretary finds—

(A) that there is a risk of serious injury or death if the remedy program is not accelerated; and

(B) that acceleration of the remedy program can be reasonably achieved by expanding the sources of replacement parts, expanding the number of authorized repair facilities, or both.

The Secretary may prescribe regulations to carry out this paragraph.

(d) **FILING MANUFACTURER'S REMEDY PROGRAM.**—A manufacturer shall file with the Secretary a copy of the manufacturer's program under this section for remedying a defect or noncompliance. The Secretary shall make the program available to the public and publish a notice of availability in the Federal Register. A manufacturer's remedy program shall include a plan for reimbursing an owner or purchaser who incurred the cost of the remedy within a reasonable time in advance of the manufacturer's notification under subsection (b) or (c) of section 30118. The Secretary may prescribe regulations establishing what constitutes a reasonable time for purposes of the preceding sentence and other reasonable conditions for the reimbursement plan. In the case of a remedy program involving the replacement of tires, the manufacturer shall include a plan addressing how to prevent, to the extent reasonably within the control of the manufacturer, replaced tires from being resold for installation on a motor vehicle, and how to limit, to the extent reasonably within the control of the manufacturer, the disposal of replaced tires in landfills, particularly through shredding, crumbling, recycling, recovery, and other alternative beneficial non-vehicular uses. The manufacturer shall include information about the implementation of such plan with each quarterly report to the Secretary regarding the progress of any notification or remedy campaigns.

(e) **HEARINGS ABOUT MEETING REMEDY REQUIREMENTS.**—On the motion of the Secretary or on application by any interested person, the Secretary may conduct a hearing to decide whether the manufacturer has reasonably met the remedy requirements under this section. Any interested person may make written and oral presentations of information, views, and arguments on whether the manufacturer has reasonably met the remedy requirements. If the Secretary decides a manufacturer has not reasonably met the remedy requirements, the Secretary shall order the manufacturer to take specified action to meet those requirements and may take any other action authorized under this chapter.

(f) **FAIR REIMBURSEMENT TO DEALERS.**—

(1) **IN GENERAL.**—A manufacturer¹ shall pay fair reimbursement to a dealer providing a remedy without charge under this section if—

(A) at the time of providing service for each of the manufacturer's motor vehicles it services, the dealer notifies the owner or the individual requesting the service of any open recall; and

(B) the notification requirement under subparagraph (A) is specified in a franchise, operating,

or other agreement between the dealer and the manufacturer.

(2) **DEFINITION OF OPEN RECALL.**—In this subsection, the term "open recall" means a recall for which a notification by a manufacturer has been provided under section 30119 and that has not been remedied under this section.

(g) **NONAPPLICATION.**—(1) The requirement that a remedy be provided without charge does not apply if the motor vehicle or replacement equipment was bought by the first purchaser more than 15 calendar years, or the tire, including an original equipment tire, was bought by the first purchaser more than 5 calendar years, before notice is given under section 30118(c) of this title or an order is issued under section 30118(b) of this title, whichever is earlier.

(2) This section does not apply during any period in which enforcement of an order under section 30118(b) of this title is restrained or the order is set aside in a civil action to which section 30121(d) of this title applies.

(h) **EXEMPTIONS.**—On application of a manufacturer, the Secretary shall exempt the manufacturer from this section if the Secretary decides a defect or noncompliance is inconsequential to motor vehicle safety. The Secretary may take action under this subsection only after notice in the Federal Register and an opportunity for any interested person to present information, views, and arguments.

(i) **LIMITATION ON SALE OR LEASE OF NEW VEHICLES OR EQUIPMENT, OR RENTAL.**—

(1) **IN GENERAL.**—If notification is required by an order under section 30118(b) of this title or is required under section 30118(c) of this title and the manufacturer has provided to a dealer (including retailers of motor vehicle equipment) notification about a new motor vehicle or new item of replacement equipment in the dealer's possession at the time of notification or the manufacturer has provided to a rental company notification about a covered rental vehicle in the company's possession at the time of notification that contains a defect related to motor vehicle safety or does not comply with an applicable motor vehicle safety standard prescribed under this chapter, the dealer or rental company may sell, lease, or rent the motor vehicle or item of replacement equipment only if—

(A) the defect or noncompliance is remedied as required by this section before delivery under the sale, lease, or rental agreement; or

(B) when the notification is required by an order under section 30118(b) of this title, enforcement of the order is restrained or the order is set aside in a civil action to which section 30121(d) of this title applies.

(2) **RULE OF CONSTRUCTION.**—Nothing in this subsection may be construed to prohibit a dealer or rental company from offering the vehicle or equipment for sale, lease, or rent.

(3) **SPECIFIC RULES FOR RENTAL COMPANIES.**—

(A) **IN GENERAL.**—Except as otherwise provided under this paragraph, a rental company shall comply with the limitations on sale, lease, or rental set forth in subparagraph (C) and paragraph (1) as soon as practicable, but not later than 24 hours after the earliest receipt of the notice to owner under subsection (b) or (c) of section 30118 (including the vehicle identification number for the covered vehicle) by the rental company, whether by electronic means or first class mail.

(B) **SPECIAL RULE FOR LARGE VEHICLE FLEETS.**—Notwithstanding subparagraph (A), if a rental company receives a notice to owner covering more than 5,000 motor vehicles in its fleet, the rental company shall comply with the limitations on sale, lease, or rental set forth in subparagraph (C) and paragraph (1) as soon as practicable, but not later than 48 hours after the earliest receipt of the notice to owner under subsection (b) or (c) of section 30118 (including the vehicle identification number for the covered vehicle) by the rental company, whether by electronic means or first class mail.

(C) **SPECIAL RULE FOR WHEN REMEDIES NOT IMMEDIATELY AVAILABLE.**—If a

notification required under subsection (b) or (c) of section 30118 indicates that the remedy for the defect or noncompliance is not immediately available and specifies actions to temporarily alter the vehicle that eliminate the safety risk posed by the defect or noncompliance, the rental company, after causing the specified actions to be performed, may rent (but may not sell or lease) the motor vehicle. Once the remedy for the rental vehicle becomes available to the rental company, the rental company may not rent the vehicle until the vehicle has been remedied, as provided in subsection (a).

(D) INAPPLICABILITY TO JUNK AUTOMOBILES.—Notwithstanding paragraph (1), this subsection does not prohibit a rental company from selling a covered rental vehicle if such vehicle—

(i) meets the definition of a junk automobile under section 201 of the Anti-Car Theft Act of 1992 (49 U.S.C. 30501);

(ii) is retitled as a junk automobile pursuant to applicable State law; and

(iii) is reported to the National Motor Vehicle Information System, if required under section 204 of such Act (49 U.S.C. 30504).

(j) PROHIBITION ON SALES OF REPLACEMENT EQUIPMENT.—No person may sell or lease any motor vehicle equipment (including a tire), for installation on a motor vehicle, that is the subject of a decision under section 30118(b) or a notice required under section 30118(c) in a condition that it may be reasonably used for its original purpose unless—

(1) the defect or noncompliance is remedied as required by this section before delivery under the sale or lease; or

(2) notification of the defect or noncompliance is required under section 30118(b) but enforcement of the order is set aside in a civil action to which section 30121(d) applies.

(k) RECALL COMPLETION RATES.—

(1) IN GENERAL.—The Administrator of the National Highway Traffic Safety Administration shall publish an annual list of recall completion rates for each recall campaign for which 8 quarterly reports have been submitted under subsection (f) of section 30118 as of the date of publication of the list.

(2) REQUIREMENTS.—The annual list under paragraph (1) shall include—

(A) for each applicable campaign—

(i) the total number of vehicles subject to recall; and

(ii) the percentage of vehicles that have been remedied; and

(B) for each manufacturer submitting an applicable quarterly report under section 30118(f)—
(i) the total number of recalls issued by the manufacturer during the year covered by the list;

(ii) the estimated number of vehicles of the manufacturer subject to recall during the year covered by the list; and

(iii) the percentage of vehicles that have been remedied.

§30120A. Recall obligations and bankruptcy of a manufacturer

A manufacturer's filing of a petition in bankruptcy under chapter 7 or chapter 11 of title 11 does not negate the manufacturer's duty to comply with section 30112 or sections 30115 through 30120 of this title. In any bankruptcy proceeding, the manufacturer's obligations under such sections shall be treated as a claim of the United States Government against such manufacturer, subject to subchapter II of chapter 37 of title 31, United States Code, and given priority pursuant to section 3713(a)(1)(A) of such chapter, notwithstanding section 3713(a)(2), to ensure that consumers are adequately protected from any safety defect or noncompliance determined to exist in the manufacturer's products. STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE

Section effective Oct. 1, 2012, see section 3(a) of Pub. L. 112–141, set out as an Effective and Termination Dates of 2012 Amendment note under section 101 of Title 23, Highways.

§30121. Provisional notification and civil actions to enforce

(a) **PROVISIONAL NOTIFICATION.**—(1) The Secretary of Transportation may order a manufacturer to issue a provisional notification if a civil action about an order issued under section 30118(b) of this title has been brought under section 30163 of this title. The provisional notification shall contain—

(A) a statement that the Secretary has decided that a defect related to motor vehicle safety or noncompliance with a motor vehicle safety standard prescribed under this chapter exists and that the manufacturer is contesting the decision in a civil action in a United States district court;

(B) a clear description of the Secretary's stated basis for the decision;

(C) the Secretary's evaluation of the risk to motor vehicle safety reasonably related to the defect or noncompliance;

(D) measures the Secretary considers necessary to avoid an unreasonable risk to motor vehicle safety resulting from the defect or noncompliance;

(E) a statement that the manufacturer will remedy the defect or noncompliance without charge under section 30120 of this title, but that the requirement to remedy without charge is conditioned on the outcome of the civil action; and

(F) other information the Secretary prescribes by regulation or includes in the order requiring the notice.

(2) A notification under this subsection does not relieve a manufacturer of liability for not giving notification required by an order under section 30118(b) of this title.

(b) **CIVIL ACTIONS FOR NOT NOTIFYING.**—(1) A manufacturer that does not notify owners and purchasers under section 30119(c) and (d) of this title is liable to the United States Government for a civil penalty, unless the manufacturer prevails in a civil action referred to in subsection (a) of this section or the court in that action enjoins enforcement of the order. Enforcement may be enjoined only if the court decides that the failure to notify is reasonable and that the manufacturer has demonstrated the likelihood of prevailing on the merits. If enforcement is enjoined, the manufacturer is not liable during the time the order is stayed.

(2) A manufacturer that does not notify owners and purchasers as required under subsection (a) of this section is liable for a civil penalty regardless of whether the manufacturer prevails in an action on the validity of the order issued under section 30118(b) of this title.

(c) **ORDERS TO MANUFACTURERS.**—If the Secretary prevails in a civil action referred to in subsection (a) of this section, the Secretary shall order the manufacturer—

(1) to notify each owner, purchaser, and dealer described in section 30119(d) of this title of the outcome of the action and other information the Secretary requires, and notification under this clause may be combined with notification required under section 30118(b) of this title;

(2) to specify the earliest date under section 30119(b) of this title on which the defect or noncompliance will be remedied without charge under section 30120 of this title; and

(3) if notification was required under subsection (a) of this section, to reimburse an owner or purchaser for reasonable and necessary expenses (in an amount that is not more than the amount specified in the order of the Secretary under subsection (a)) incurred for repairing the defect or

noncompliance during the period beginning on the date that notification was required to be issued and ending on the date the owner or purchaser receives the notification under this subsection.

TIRE PRESSURE MONITORING SYSTEM

Pub. L. 114–94, div. B, title XXIV, §24115, Dec. 4, 2015, 129 Stat. 1710, provided that:

"(a) **PROPOSED RULE**.—Not later than 1 year after the date of enactment of this Act [Dec. 4, 2015], the Secretary shall publish a proposed rule that—

"(1) updates the standards pertaining to tire pressure monitoring systems to ensure that a tire pressure monitoring system that is installed in a new motor vehicle after the effective date of such updated standards cannot be overridden, reset, or recalibrated in such a way that the system will no longer detect when the inflation pressure in one or more of the vehicle's tires has fallen to or below a significantly underinflated pressure level; and

"(2) does not contain any provision that has the effect of prohibiting the availability of direct or indirect tire pressure monitoring systems that meet the requirements of the standards updated pursuant to

paragraph (1).

"(b) FINAL RULE.—Not later than 2 years after the date of enactment of this Act, after providing the public with sufficient opportunity for notice and comment on the proposed rule published pursuant to subsection (a), the Secretary shall issue a final rule based on the proposed rule described in subsection (a) that—

"(1) allows a manufacturer to install a tire pressure monitoring system that can be reset or recalibrated to accommodate—

"(A) the repositioning of tire sensor locations on vehicles with split inflation pressure recommendations;

"(B) tire rotation; or

"(C) replacement tires or wheels of a different size than the original equipment tires or wheels;

and

"(2) to address the accommodations described in subparagraphs (A), (B), and (C) of paragraph (1), ensures that a tire pressure monitoring system that is reset or recalibrated according to the manufacturer's instructions would illuminate the low tire pressure warning telltale when a tire is significantly underinflated until the tire is no longer significantly underinflated.

"(c) SIGNIFICANTLY UNDERINFLATED PRESSURE LEVEL DEFINED.—In this section, the term 'significantly underinflated pressure level' means a pressure level that is—

"(1) below the level at which the low tire pressure warning telltale must illuminate, consistent with the TPMS detection requirements contained in S4.2(a) of section 571.138 of title 49, Code of Federal Regulations, or any corresponding similar or successor regulation or ruling (as determined by the Secretary); and

"(2) in the case of a replacement wheel or tire, below the recommended cold inflation pressure of the wheel or tire manufacturer."

An exemption may be renewed.

(2) The Secretary of Transportation may grant an exemption under paragraph (1) of this subsection if the Secretary finds that there has been a disruption in the supply of any component of an inflatable restraint or in the use and installation of that component by the manufacturer because of an unavoidable event not under the control of the manufacturer that will prevent the manufacturer from meeting its anticipated production volume of vehicles with those restraints.

(3) Only an affected manufacturer may apply for an exemption. The Secretary of Transportation shall prescribe in the amendment to Standard 208 required under this section the information an affected manufacturer must include in its application under this subsection. The manufacturer shall

specify in the application the models, lines, and types of vehicles affected. The Secretary may consolidate similar applications from different manufacturers.

(4) An exemption or renewal of an exemption is conditioned on the commitment of the manufacturer to recall the exempted vehicles for installation of the omitted inflatable restraints within a reasonable time that the manufacturer proposes and the Secretary of Transportation approves after the components become available in sufficient quantities to satisfy both anticipated production and recall volume requirements.

(5) The Secretary of Transportation shall publish in the Federal Register a notice of each application under this subsection and each decision to grant or deny a temporary exemption and the reasons for the decision.

(6) The Secretary of Transportation shall require a label for each exempted vehicle that can be removed only after recall and installation of the required inflatable restraint. The Secretary shall require that written notice of the exemption be provided to the dealer and the first purchaser of each exempted vehicle other than for resale, with the notice being provided in a way, and containing the information, the Secretary considers appropriate.

(f) APPLICATION.—(1) This section revises, but does not replace, Standard 208 as in effect on December 18, 1991, including the amendment of March 26, 1991 (56 Fed. Reg. 12472), to Standard 208, extending the requirements for automatic crash protection, with incentives for more innovative automatic crash protection, to trucks, buses, and multipurpose passenger vehicles. This section may not be construed as—

(A) affecting another provision of law carried out by the Secretary of Transportation applicable to passenger cars, buses, multipurpose passenger vehicles, or trucks; or

(B) establishing a precedent related to developing or prescribing a Government motor vehicle safety standard.

(2) This section and amendments to Standard 208 made under this section may not be construed as indicating an intention by Congress to affect any liability of a motor vehicle manufacturer under applicable law related to vehicles with or without inflatable restraints.

(g) REPORT.—(1) On October 1, 1992, and annually after that date through October 1, 2000, the Secretary of Transportation shall submit reports on the effectiveness of occupant restraint systems expressed as a percentage reduction in fatalities or injuries of restrained occupants compared to unrestrained occupants for—

(A) a combination of inflated restraints and lap and shoulder belts;

(B) inflated restraints only; and

(C) lap and shoulder belts only.

(2) In consultation with the Secretaries of Labor and Defense, the Secretary of Transportation also shall provide information and analysis on lap and shoulder belt use, nationally and in each State by—

(A) military personnel;

(B) Government, State, and local law enforcement officers;

(C) other Government and State employees; and

(D) the public.

(h) AIRBAGS FOR GOVERNMENT CARS.—In cooperation with the Administrator of General Services and the heads of appropriate departments, agencies, and instrumentalities of the Government, the Secretary of Transportation shall establish a program, consistent with applicable procurement laws of the Government and available appropriations, requiring that all passenger cars acquired—

(1) after September 30, 1994, for use by the Government be equipped, to the maximum extent practicable, with driver-side inflatable restraints; and

(2) after September 30, 1996, for use by the Government be equipped, to the maximum extent practicable, with inflatable restraints for both front outboard seating positions.

IMPROVING THE SAFETY OF CHILD RESTRAINTS

Pub. L. 107–318, Dec. 4, 2002, 116 Stat. 2772, provided that:

"SECTION 1. SHORT TITLE.

"This Act may be cited as 'Anton's Law'.

"SEC. 2. FINDINGS.

"Congress finds the following:

"(1) It is the policy of the Department of Transportation that all child occupants of motor vehicles, regardless of seating position, be appropriately restrained in order to reduce the incidence of injuries and fatalities resulting from motor vehicle crashes on the streets, roads, and highways.

"(2) Research has shown that very few children between the ages of 4 to 8 years old are in the appropriate restraint for their age when riding in passenger motor vehicles.

"(3) Children who have outgrown their child safety seats should ride in a belt-positioning booster seat until an adult seat belt fits properly.

"(4) Children who were properly restrained when riding in passenger motor vehicles suffered less severe injuries from accidents than children not properly restrained.

"SEC. 3. IMPROVEMENT OF SAFETY OF CHILD RESTRAINTS IN PASSENGER MOTOR VEHICLES.

"(a) **IN GENERAL.**—The Secretary of Transportation (hereafter referred to as the 'Secretary') shall initiate a rulemaking proceeding to establish performance requirements for child restraints, including booster seats, for the restraint of children weighing more than 50 pounds.

"(b) **ELEMENTS FOR CONSIDERATION.**—In the rulemaking proceeding required by subsection (a), the Secretary shall—

"(1) consider whether to include injury performance criteria for child restraints, including booster seats and other products for use in passenger motor vehicles for the restraint of children weighing more than 50 pounds, under the requirements established in the rulemaking proceeding;

"(2) consider whether to establish performance requirements for seat belt fit when used with booster seats and other belt guidance devices;

"(3) consider whether to address situations where children weighing more than 50 pounds only have access to seating positions with lap belts, such as allowing tethered child restraints for such children; and

"(4) review the definition of the term 'booster seat' in Federal motor vehicle safety standard No. 213 under section 571.213 of title 49, Code of Federal Regulations, to determine if it is sufficiently comprehensive.

"(c) **COMPLETION.**—The Secretary shall complete the rulemaking proceeding required by subsection (a) not later than 30 months after the date of the enactment of this Act [Dec. 4, 2002].

"SEC. 4. DEVELOPMENT OF ANTHROPOMORPHIC TEST DEVICE SIMULATING A 10-YEAR OLD CHILD.

"(a) **DEVELOPMENT AND EVALUATION.**—Not later than 24 months after the date of the enactment of this Act [Dec. 4, 2002], the Secretary shall develop and evaluate an anthropomorphic test device that simulates a 10-year old child for use in testing child restraints used in passenger motor vehicles.

"(b) **ADOPTION BY RULEMAKING.**—Within 1 year following the development and evaluation carried out under subsection (a), the Secretary shall initiate a rulemaking proceeding for the adoption of an anthropomorphic test device as developed under subsection (a).

"SEC. 5. REQUIREMENTS FOR INSTALLATION OF LAP AND SHOULDER BELTS.

"(a) **IN GENERAL.**—Not later than 24 months after the date of the enactment of this Act [Dec. 4, 2002], the Secretary shall complete a rulemaking proceeding to amend Federal motor vehicle safety standard No. 208 under section 571.208 of title 49, Code of Federal Regulations, relating to occupant crash protection, in order to—

"(1) require a lap and shoulder belt assembly for each rear designated seating position in a passenger motor vehicle with a gross vehicle weight rating of 10,000 pounds or less, except that if the Secretary determines that installation of a lap and shoulder belt assembly is not practicable for a particular designated seating position in a particular type of passenger motor vehicle, the Secretary may exclude the designated seating position from the requirement; and

"(2) apply that requirement to passenger motor vehicles in phases in accordance with subsection (b).

"(b) IMPLEMENTATION SCHEDULE.—The requirement prescribed under subsection (a)(1) shall be implemented in phases on a production year basis beginning with the production year that begins not later than 12 months after the end of the year in which the regulations are prescribed under subsection (a). The final rule shall apply to all passenger motor vehicles with a gross vehicle weight rating of 10,000 pounds or less that are manufactured in the third production year of the implementation phase-in under the schedule.

"SEC. 6. EVALUATION OF INTEGRATED CHILD SAFETY SYSTEMS.

"(a) EVALUATION.—Not later than 180 days after the date of enactment of this Act [Dec. 4, 2002], the Secretary shall initiate an evaluation of integrated or built-in child restraints and booster seats. The evaluation should include—

"(1) the safety of the child restraint and correctness of fit for the child;

"(2) the availability of testing data on the system and vehicle in which the child restraint will be used;

"(3) the compatibility of the child restraint with different makes and models;

"(4) the cost-effectiveness of mass production of the child restraint for consumers;

"(5) the ease of use and relative availability of the child restraint to children riding in motor vehicles;

and

"(6) the benefits of built-in seats for improving compliance with State child occupant restraint laws.

"(b) REPORT.—Not later than 12 months after the date of enactment of this Act [Dec. 4, 2002], the Secretary shall transmit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report of this evaluation.

(b) ROLLOVER PREVENTION.—One of the rulemaking proceedings initiated under subsection (a) shall be to establish performance criteria to reduce the occurrence of rollovers consistent with stability enhancing technologies. The Secretary shall issue a proposed rule in this proceeding by rule by October 1, 2006, and a final rule by April 1, 2009.

(c) OCCUPANT EJECTION PREVENTION.—

(1) IN GENERAL.—The Secretary shall also initiate a rulemaking proceeding to establish performance standards to reduce complete and partial ejections of vehicle occupants from outboard seating positions. In formulating the standards the Secretary shall consider various ejection mitigation systems. The Secretary shall issue a final rule under this paragraph no later than October 1, 2009.

(2) DOOR LOCKS AND DOOR RETENTION.—The Secretary shall complete the rulemaking proceeding initiated to upgrade Federal Motor Vehicle Safety Standard No. 206, relating to door locks and door retention, no later than 30 months after the date of enactment of this section.

The Secretary may consider industry and independent dynamic tests that realistically duplicate the actual forces transmitted during a rollover crash. The Secretary shall issue a proposed rule by December 31, 2005, and a final rule by July 1, 2008.

(e) DEADLINES.—If the Secretary determines that the deadline for a final rule under this section cannot be met, the Secretary shall—

SUBCHAPTER III—IMPORTING NONCOMPLYING MOTOR VEHICLES AND EQUIPMENT

§30141. Importing motor vehicles capable of complying with standards

(a) GENERAL.—Section 30112(a) of this title does not apply to a motor vehicle if—

(1) on the initiative of the Secretary of Transportation or on petition of a manufacturer or importer registered under subsection (c) of this section, the Secretary decides—

(A) the vehicle is—

(i) substantially similar to a motor vehicle originally manufactured for import into and sale in the United States;

- (ii) certified under section 30115 of this title;
- (iii) the same model year (as defined under regulations of the Secretary of Transportation) as the model of the motor vehicle it is being compared to; and
- (iv) capable of being readily altered to comply with applicable motor vehicle safety standards prescribed under this chapter; or

(B) if there is no substantially similar United States motor vehicle, the safety features of the vehicle comply with or are capable of being altered to comply with those standards based on destructive test information or other evidence the Secretary of Transportation decides is adequate;

(2) the vehicle is imported by a registered importer; and

(3) the registered importer pays the annual fee the Secretary of Transportation establishes under subsection (e) of this section to pay for the costs of carrying out the registration program for importers under subsection (c) of this section and any other fees the Secretary of Transportation establishes to pay for the costs of—

(A) processing bonds provided to the Secretary of the Treasury under subsection (d) of this section; and

(B) making the decisions under this subchapter.

(b) PROCEDURES ON DECIDING ON MOTOR VEHICLE CAPABILITY.—(1) The Secretary of Transportation shall establish by regulation procedures for making a decision under subsection (a)(1) of this section and the information a petitioner must provide to show clearly that the motor vehicle is capable of being brought into compliance with applicable motor vehicle safety standards prescribed under this chapter. In establishing the procedures, the Secretary shall provide for a minimum period of public notice and written comment consistent with ensuring expeditious, but complete, consideration and avoiding delay by any person. In making a decision under those procedures, the Secretary shall consider test information and other information available to the Secretary, including any information provided by the manufacturer. If the Secretary makes a negative decision, the Secretary may not make another decision for the same model until at least 3 calendar months have elapsed after the negative decision.

(2) The Secretary of Transportation shall publish each year in the Federal Register a list of all decisions made under subsection (a)(1) of this section. Each published decision applies to the model of the motor vehicle for which the decision was made. A positive decision permits another importer registered under subsection (c) of this section to import a vehicle of the same model under this section if the importer complies with all the terms of the decision.

(c) REGISTRATION.—(1) The Secretary of Transportation shall establish procedures for registering a person who complies with requirements prescribed by the Secretary by regulation under this subsection, including—

(A) recordkeeping requirements;

(B) inspection of records and facilities related to motor vehicles the person has imported, altered, or both; and

(C) requirements that ensure that the importer (or a successor in interest) will be able technically and financially to carry out responsibilities under sections 30117(b), 30118–30121, and 30166(f) of this title.

(2) The Secretary of Transportation shall deny registration to a person whose registration is revoked under paragraph (4) of this subsection.

(3) The Secretary of Transportation may deny registration to a person that is or was owned or controlled by, or under common ownership or control with, a person whose registration was revoked under paragraph (4) of this subsection.

(4) The Secretary of Transportation shall establish procedures for—

(A) revoking or suspending a registration issued under paragraph (1) of this subsection for not

complying with a requirement of this subchapter or any of sections 30112, 30115, 30117–30122, 30125(c), 30127, or 30166 of this title or regulations prescribed under this subchapter or any of those sections;

(B) automatically suspending a registration for not paying a fee under subsection (a)(3) of this section in a timely manner or for knowingly filing a false or misleading certification under section 30146 of this title; and

(C) reinstating suspended registrations.

(d) **BONDS.**—(1) A person importing a motor vehicle under this section shall provide a bond to the Secretary of the Treasury (acting for the Secretary of Transportation) and comply with the terms the Secretary of Transportation decides are appropriate to ensure that the vehicle—

(A) will comply with applicable motor vehicle safety standards prescribed under this chapter within a reasonable time (specified by the Secretary of Transportation) after the vehicle is imported; or

(B) will be exported (at no cost to the United States Government) by the Secretary of the Treasury or abandoned to the Government.

(2) The amount of the bond provided under this subsection shall be at least equal to the dutiable value of the motor vehicle (as determined by the Secretary of the Treasury) but not more than 150 percent of that value.

(e) **FEE REVIEW, ADJUSTMENT, AND USE.**—The Secretary of Transportation shall review and make appropriate adjustments at least every 2 years in the amounts of the fees required to be paid under subsection (a)(3) of this section. The Secretary of Transportation shall establish the fees for each fiscal year before the beginning of that year. All fees collected remain available until expended without fiscal year limit to the extent provided in advance by appropriation laws. The amounts are only for use by the Secretary of Transportation—

(1) in carrying out this section and sections 30146(a)–(c)(1), (d), and (e) and 30147(b) of this title; and

(2) in advancing to the Secretary of the Treasury amounts for costs incurred under this section and section 30146 of this title to reimburse the Secretary of the Treasury for those costs.

§30146. Release of motor vehicles and bonds

(a) COMPLIANCE CERTIFICATION AND BOND.—(1) Except as provided in subsections (c) and (d) of this section, an importer registered under section 30141(c) of this title may license or register an imported motor vehicle for use on public streets, roads, or highways, or release custody of

a motor vehicle imported by the registered importer or imported by an individual under section 30142 of this title and altered by the registered importer to meet applicable motor vehicle safety standards prescribed under this chapter to a person for license or registration for use on public streets, roads, or highways, only after 30 days after the registered importer certifies to the Secretary of Transportation, in the way the Secretary prescribes, that the motor vehicle complies with each standard prescribed in the year the vehicle was manufactured and that applies in that year to that vehicle. A vehicle may not be released if the Secretary gives written notice before the end of the 30-day period that the Secretary will inspect the vehicle under subsection (c) of this section.

(2) The Secretaries of Transportation and the Treasury shall prescribe regulations—

(A) ensuring the release of a motor vehicle and bond required under section 30141(d) of this title at the end of the 30-day period, unless the Secretary of Transportation issues a notice of an inspection under subsection (c) of this section; and

(B) providing that the Secretary of Transportation shall release the vehicle and bond promptly after an inspection under subsection (c) of this section showing compliance with the standards applicable to the vehicle.

(3) Each registered importer shall include on each motor vehicle released under this subsection a label prescribed by the Secretary of Transportation identifying the importer and stating that the vehicle has been altered by the importer to comply with the standards applicable to the vehicle.

(b) **RELIANCE ON MANUFACTURER'S CERTIFICATION.**—In making a certification under subsection (a)(1) of this section, the registered importer may rely on the manufacturer's certification for the model to which the motor vehicle involved is substantially similar if the importer certifies that any alteration made by the importer did not affect the compliance of the safety features of the vehicle and the importer keeps records verifying the certification for the period the Secretary of Transportation prescribes.

(c) **EVIDENCE OF COMPLIANCE.**—(1) The Secretary of Transportation may require that the certification under subsection (a)(1) of this section be accompanied by evidence of compliance the Secretary considers appropriate or may inspect the certified motor vehicle, or both. If the Secretary gives notice of an inspection, an importer may release the vehicle only after—

(A) an inspection showing the motor vehicle complies with applicable motor vehicle safety standards prescribed under this chapter for which the inspection was made; and

(B) release of the vehicle by the Secretary.

(2) The Secretary of Transportation shall inspect periodically a representative number of motor vehicles for which certifications have been filed under subsection (a)(1) of this section. In carrying out a motor vehicle testing program under this chapter, the Secretary shall include a representative number of motor vehicles for which certifications have been filed under subsection (a)(1).

(d) **CHALLENGING THE CERTIFICATION.**—A motor vehicle or bond may not be released under subsection (a) of this section if the Secretary of Transportation, not later than 30 days after receiving a certification under subsection (a)(1) of this section, gives written notice that the Secretary believes or has reason to believe that the certification is false or contains a misrepresentation.¹ The vehicle and bond may be released only after the Secretary is satisfied with the certification and any modification of the certification.

(e) **BOND RELEASE.**—A release of a bond required under section 30141(d) of this title is deemed an acceptance of a certification or completion of an inspection under this section but is not a decision by the Secretary of Transportation under section 30118(a) or (b) of this title of compliance with applicable motor vehicle safety standards prescribed under this chapter.

(e) RECORDS AND MAKING REPORTS.—The Secretary of Transportation reasonably may require a manufacturer of a motor vehicle or motor vehicle equipment to keep records, and a manufacturer, distributor, dealer, or rental company to make reports, to enable the Secretary to decide whether the manufacturer, distributor, dealer, or rental company has complied or is complying with this chapter or a regulation prescribed or order issued under this chapter. This subsection does

not impose a recordkeeping requirement on a distributor ¹ dealer, or rental company in addition to those imposed under subsection (f) of this section and section 30117(b) of this title or a regulation prescribed or order issued under subsection (f) or section 30117(b).

§30171. Protection of employees providing motor vehicle safety information

(a) DISCRIMINATION AGAINST EMPLOYEES OF MANUFACTURERS, PART SUPPLIERS, AND DEALERSHIPS.—No motor vehicle manufacturer, part supplier, or dealership may discharge an employee or otherwise discriminate against an employee with respect to compensation, terms, conditions, or privileges of employment because the employee (or any person acting pursuant to a request of the employee)—

(1) provided, caused to be provided, or is about to provide (with any knowledge of the

employer) or cause to be provided to the employer or the Secretary of Transportation information relating to any motor vehicle defect, noncompliance, or any violation or alleged violation of any notification or reporting requirement of this chapter;

(2) has filed, caused to be filed, or is about to file (with any knowledge of the employer) or cause to be filed a proceeding relating to any violation or alleged violation of any motor vehicle defect, noncompliance, or any violation or alleged violation of any notification or reporting requirement of this chapter;

(3) testified or is about to testify in such a proceeding;

(4) assisted or participated or is about to assist or participate in such a proceeding; or

(5) objected to, or refused to participate in, any activity that the employee reasonably believed to be in violation of any provision of chapter 301 of this title, or any order, rule, regulation, standard, or ban under such provision.

(b) COMPLAINT PROCEDURE.—

(1) **FILING AND NOTIFICATION.**—A person who believes that he or she has been discharged or otherwise discriminated against by any person in violation of subsection (a) may file (or have any person file on his or her behalf), not later than 180 days after the date on which such violation occurs, a complaint with the Secretary of Labor (hereinafter in this section referred to as the "Secretary") alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary shall notify, in writing, the person named in the complaint of the filing of the complaint, of the allegations contained in the complaint, of the substance of evidence supporting the complaint, and of the opportunities that will be afforded to such person under paragraph (2).

(2) INVESTIGATION; PRELIMINARY ORDER.—

(A) **IN GENERAL.**—Not later than 60 days after the date of receipt of a complaint filed under paragraph (1) and after affording the person named in the complaint an opportunity to submit to the Secretary a written response to the complaint and an opportunity to meet with a representative of the Secretary to present statements from witnesses, the Secretary shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify, in writing, the complainant and the person alleged to have committed a violation of subsection (a) of the Secretary's findings. If the Secretary concludes that there is a reasonable cause to believe that a violation of subsection (a) has occurred, the Secretary shall accompany the Secretary's findings with a preliminary order providing the relief prescribed by paragraph (3)(B). Not later than 30 days after the date of notification of findings under this paragraph, either the person alleged to have committed the violation or the complainant may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of such objections shall not operate to stay any reinstatement remedy contained in the preliminary order. Such hearings shall be conducted expeditiously. If a hearing is not requested in such 30-day period, the preliminary order shall be deemed a final order that is not subject to judicial review.

(B) REQUIREMENTS.—

(i) **REQUIRED SHOWING BY COMPLAINANT.**—The Secretary shall dismiss a complaint filed under this subsection and shall not conduct an investigation otherwise required under subparagraph (A) unless the complainant makes a prima facie showing that any behavior described in paragraphs (1) through (5) of subsection (a) was a contributing factor in the unfavorable personnel action alleged in the complaint.

(ii) **SHOWING BY EMPLOYER.**—Notwithstanding a finding by the Secretary that the complainant has made the showing required under clause (i), no investigation otherwise required under subparagraph (A) shall be conducted if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(iii) **CRITERIA FOR DETERMINATION BY SECRETARY.**—The Secretary may determine that a violation of subsection (a) has occurred only if the complainant demonstrates that any behavior described in paragraphs (1) through (5) of subsection (a) was a contributing

factor in the unfavorable personnel action alleged in the complaint.

(iv) PROHIBITION.—Relief may not be ordered under subparagraph (A) if the employer demonstrates, by clear and convincing evidence, that the employer would have taken the same unfavorable personnel action in the absence of that behavior.

(3) FINAL ORDER.—

(A) DEADLINE FOR ISSUANCE; SETTLEMENT AGREEMENTS.—Not later than 120 days after the date of conclusion of a hearing under paragraph (2), the Secretary shall issue a final order providing the relief prescribed by this paragraph or denying the complaint. At any time before issuance of a final order, a proceeding under this subsection may be terminated on the basis of a settlement agreement entered into by the Secretary, the complainant, and the person alleged to have committed the violation.

(B) REMEDY.—If, in response to a complaint filed under paragraph (1), the Secretary determines that a violation of subsection (a) has occurred, the Secretary shall order the person who committed such violation—

- (i) to take affirmative action to abate the violation;
- (ii) to reinstate the complainant to his or her former position together with the compensation (including back pay) and restore the terms, conditions, and privileges associated with his or her employment; and
- (iii) to provide compensatory damages to the complainant.

(C) ATTORNEYS' FEES.—If such an order is issued under this paragraph, the Secretary, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' and expert witness fees) reasonably incurred, as determined by the Secretary, by the complainant for, or in connection with, bringing the complaint upon which the order was issued.

(D) FRIVOLOUS COMPLAINTS.—If the Secretary determines that a complaint under paragraph (1) is frivolous or has been brought in bad faith, the Secretary may award to the prevailing employer a reasonable attorney's fee not exceeding \$1,000.

(E) DE NOVO REVIEW.—With respect to a complaint under paragraph (1), if the Secretary has not issued a final decision within 210 days after the filing of the complaint and if the delay is not due to the bad faith of the employee, the employee may bring an original action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy, and which action shall, at the request of either party to the action, be tried by the court with a jury. The action shall be governed by the same legal burdens of proof specified in paragraph (2)(B) for review by the Secretary.

(4) REVIEW.—

(A) APPEAL TO COURT OF APPEALS.—Any person adversely affected or aggrieved by an order issued under paragraph (3) may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred or the circuit in which the complainant resided on the date of such violation. The petition for review shall be filed not later than 60 days after the date of the issuance of the final order of the Secretary. Review shall conform to chapter 7 of title 5. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the order.

(B) LIMITATION ON COLLATERAL ATTACK.—An order of the Secretary with respect to which review could have been obtained under subparagraph (A) shall not be subject to judicial review in any criminal or other civil proceeding.

(5) ENFORCEMENT OF ORDER BY SECRETARY.—Whenever any person fails to comply with an order issued under paragraph (3), the Secretary may file a civil action in the United States

district court for the district in which the violation was found to occur to enforce such order. In actions brought under this paragraph, the district courts shall have jurisdiction to grant all appropriate relief, including injunctive relief and compensatory damages.

(6) ENFORCEMENT OF ORDER BY PARTIES.—

(A) COMMENCEMENT OF ACTION.—A person on whose behalf an order was issued under paragraph (3) may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

(B) ATTORNEY FEES.—The court, in issuing any final order under this paragraph, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

(c) MANDAMUS.—Any nondiscretionary duty imposed under this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28.

(d) NONAPPLICABILITY TO DELIBERATE VIOLATIONS.—Subsection (a) shall not apply with respect to an employee of a motor vehicle manufacturer, part supplier, or dealership who, acting without direction from such motor vehicle manufacturer, part supplier, or dealership (or such person's agent), deliberately causes a violation of any requirement relating to motor vehicle safety under this chapter.

§30302. National Driver Register

(a) **ESTABLISHMENT AND CONTENTS.**—The Secretary of Transportation shall establish as soon as practicable and maintain a National Driver Register to assist chief driver licensing officials of participating States in exchanging information about the motor vehicle driving records of individuals. The Register shall contain an index of the information reported to the Secretary under section 30304 of this title. The Register shall enable the Secretary (electronically or, until all States can participate electronically, by United States mail)—

- (1) to receive information submitted under section 30304 of this title by the chief driver licensing official of a State of record;
- (2) to receive a request for information made by the chief driver licensing official of a participating State under section 30305 of this title;
- (3) to refer the request to the chief driver licensing official of a State of record; and
- (4) in response to the request, to relay information provided by a chief driver licensing official of a State of record to the chief driver licensing official of a participating State, without interception of the information.

(b) **ACCURACY OF INFORMATION.**—The Secretary is not responsible for the accuracy of information relayed to the chief driver licensing official of a participating State. However, the Secretary shall maintain the Register in a way that ensures against inadvertent alteration of information during a relay. The Secretary shall make continual improvements to modernize the Register's data processing system.

(c) **TRANSITION FROM PRIOR REGISTER.**—(1) The Secretary shall provide by regulation for the orderly transition from the register maintained under the Act of July 14, 1960 (Public Law 86–660, 74 Stat. 526), as restated by section 401 of the National Traffic and Motor Vehicle Safety Act of 1966 (Public Law 89–563, 80 Stat. 730), to the Register maintained under this chapter.

(2)(A) The Secretary shall delete from the Register a report or information that was compiled under the Act of July 14, 1960 (Public Law 86–660, 74 Stat. 526), as restated by section 401 of the National Traffic and Motor Vehicle Safety Act of 1966 (Public Law 89–563, 80 Stat. 730), and transferred to the Register, after the earlier of—

- (i) the date the State of record removes it from the State's file;
- (ii) 7 years after the date the report or information is entered in the Register; or
- (iii) the date a fully electronic Register system is established.

(B) The report or information shall be disposed of under chapter 33 of title 44.

(3) If the chief driver licensing official of a participating State finds that information provided for inclusion in the Register is erroneous or is related to a conviction of a traffic offense that subsequently is reversed, the official immediately shall notify the Secretary. The Secretary shall provide for the immediate deletion of the information from the Register.

(d) **ASSIGNMENT OF PERSONNEL.**—In carrying out this chapter, the Secretary shall assign personnel necessary to ensure the effective operation of the Register.

(e) **TRANSFER OF SELECTED FUNCTIONS TO NON-FEDERAL MANAGEMENT.**—

(1) **AGREEMENT.**—The Secretary may enter into an agreement with an organization that represents the interests of the States to manage, administer, and operate the National Driver Register's computer timeshare and user assistance functions. If the Secretary decides to enter into such an agreement, the Secretary shall ensure that the management of these functions is compatible with this chapter and the regulations issued to implement this chapter.

(2) **REQUIRED DEMONSTRATION.**—Any transfer of the National Driver Register's computer timeshare and user assistance functions to an organization that represents the interests of the States shall begin only after a determination is made by the Secretary that all States are

participating in the National Driver Register's "Problem Driver Pointer System" (the system used by the Register to effect the exchange of motor vehicle driving records) and that the system is functioning properly.

(3) **TRANSITION PERIOD.**—Any agreement entered into under this subsection shall include a provision for a transition period sufficient to allow the States to make the budgetary and legislative changes the States may need to pay fees charged by the organization representing their interests for their use of the National Driver Register's computer timeshare and user assistance functions. During this transition period, the Secretary shall continue to fund these transferred functions.

(4) **FEES.**—The total of the fees charged by the organization representing the interests of the States in any fiscal year for the use of the National Driver Register's computer timeshare and user assistance functions shall not exceed the total cost to the organization of performing these functions in such fiscal year.

(5) **LIMITATION ON STATUTORY CONSTRUCTION.**—Nothing in this subsection may be construed to diminish, limit, or otherwise affect the authority of the Secretary to carry out this chapter.

30307	23:401 (note).	Oct. 25, 1982, Pub. L. 97–364, §208, 96 Stat. 1746; Dec. 30, 1987, Pub. L. 100–223, §305(b)(1), 101 Stat. 1526.

In this section, the words "fined under title 18" are substituted for "fined not more than \$10,000" for consistency with title 18.

In subsection (a), before clause (1), the reference to "section 30305(b)(6) of this title" is used to carry out the probable intent of Congress. Section 305(b)(1) of the Airport and Airway Safety and Capacity Expansion Act of 1987 (Public Law 100–223, 101 Stat. 1526) amended section 206(b) of the National Driver Register Act of 1982 (Public Law 97–364, 96 Stat. 1744) by "redesignating paragraphs (3) and (4), and any reference thereto, as paragraphs (4) and (5), respectively". Because the reference to "section 206(b)(4)" in section 208 of the National Driver Register Act of 1982 appears to have been incorrect before that amendment, and would continue to be incorrect if the reference is redesignated as required by the amendment, a reference to section 30305(b)(6) is used in this section to carry out the probable intent of Congress.

EFFECTIVE DATE OF 1997 AMENDMENT

Amendment by Pub. L. 105–102 effective as if included in the provisions of the Act to which the amendment relates, see section 3(f) of Pub. L. 105–102, set out as a note under section 106 of this title.

§30502. National Motor Vehicle Title Information System

(a) ESTABLISHMENT OR DESIGNATION.—(1) In cooperation with the States and not later than December 31, 1997, the Attorney General shall establish a National Motor Vehicle Title Information System that will provide individuals and entities referred to in subsection (e) of this section with instant and reliable access to information maintained by the States related to automobile titling described in subsection (d) of this section. However, if the Attorney General decides that the existing information system meets the requirements of subsections (d) and (e) of this section and will permit the Attorney General to carry out this chapter as early as possible, the Attorney General, in

consultation with the Secretary of Transportation, may designate an existing information system as the National Motor Vehicle Title Information System.

(2) In cooperation with the Secretary of Transportation and the States, the Attorney General shall ascertain the extent to which title and related information to be included in the system established under paragraph (1) of this subsection will be adequate, timely, reliable, uniform, and capable of assisting in efforts to prevent the introduction or reintroduction of stolen vehicles and parts into interstate commerce.

(b) OPERATION.—The Attorney General may authorize the operation of the System established or designated under subsection (a)(1) of this section by agreement with one or more States, or by designating, after consulting with the States, a third party that represents the interests of the States.

(c) USER FEES.—Operation of the System established or designated under subsection (a)(1) of this section shall be paid for by user fees and should be self-sufficient and not be dependent on amounts from the United States Government. The amount of fees the operator collects and keeps under this subsection subject to annual appropriation laws, excluding fees the operator collects and pays to an entity providing information to the operator, may be not more than the costs of operating the System.

(d) INFORMATION REQUIREMENTS.—The System established or designated under subsection (a)(1) of this section shall permit a user of the System at least to establish instantly and reliably—

(1) the validity and status of a document purporting to be a certificate of title;

(2) whether an automobile bearing a known vehicle identification number is titled in a particular State;

(3) whether an automobile known to be titled in a particular State is or has been a junk automobile or a salvage automobile;

(4) for an automobile known to be titled in a particular State, the odometer mileage disclosure required under section 32705 of this title for that automobile on the date the certificate of title for that automobile was issued and any later mileage information, if noted by the State; and

(5) whether an automobile bearing a known vehicle identification number has been reported as a junk automobile or a salvage automobile under section 30504 of this title.

(e) AVAILABILITY OF INFORMATION.—(1) The operator shall make available—

(A) to a participating State on request of that State, information in the System about any automobile;

(B) to a Government, State, or local law enforcement official on request of that official, information in the System about a particular automobile, junk yard, or salvage yard;

(C) to a prospective purchaser of an automobile on request of that purchaser, including an auction company or entity engaged in the business of purchasing used automobiles, information in the System about that automobile; and

(D) to a prospective or current insurer of an automobile on request of that insurer, information in the System about that automobile.

(2) The operator may release only the information reasonably necessary to satisfy the requirements of paragraph (1) of this subsection. The operator may not collect an individual's social security account number or permit users of the System to obtain an individual's address or social security account number.

(f) IMMUNITY.—Any person performing any activity under this section or sections 30503 or 30504 in good faith and with the reasonable belief that such activity was in accordance with this section or section 30503 or 30504, as the case may be, shall be immune from any civil action respecting such activity which is seeking money damages or equitable relief in any court of the United States or a State.

"(D) any data collection gaps or data sufficiency problems that may exist and the impact of those gaps and problems on the efficacy of the CSA program;

"(E) the accuracy of safety data, including the use of crash data from crashes in which a motor carrier was free from fault;

"(F) whether BASIC percentiles for motor carriers of passengers should be calculated separately from motor carriers of freight;

"(G) the differences in the rates at which safety violations are reported to the Federal Motor Carrier Safety Administration for inclusion in the SMS by various enforcement authorities, including States, territories, and Federal inspectors; and

"(H) how members of the public use the SMS and what effect making the SMS information public has had on reducing crashes and eliminating unsafe motor carriers from the industry; and

"(2) shall consider—

"(A) whether the SMS provides comparable precision and confidence, through SMS alerts and

percentiles, for the relative crash risk of individual large and small motor carriers;

"(B) whether alternatives to the SMS would identify high risk carriers more accurately; and

"(C) the recommendations and findings of the Comptroller General of the United States and the Inspector General of the Department [of Transportation], and independent review team reports, issued before the date of enactment of this Act [Dec. 4, 2015].

(Z) provides that the State agrees to fully participate in the performance and registration information systems management under section 31106(b) not later than October 1, 2020, by complying with the conditions for participation under paragraph (3) of that section, or demonstrates to the Secretary an alternative approach for identifying and immobilizing a motor carrier with serious safety deficiencies in a manner that provides an equivalent level of safety;

(AA) in the case of a State that shares a land border with another country, provides that the State—

(i) will conduct a border commercial motor vehicle safety program focusing on international commerce that includes enforcement and related projects; or

(ii) will forfeit all funds calculated by the Secretary based on border-related activities if the State declines to conduct the program described in clause (i) in its plan; and

(BB) in the case of a State that meets the other requirements of this section and agrees to comply with the requirements established in subsection (1)(3), provides that the State may fund operation and maintenance costs associated with innovative technology deployment under subsection (1)(3) with motor carrier safety assistance program funds authorized under section 31104(a)(1).

(3) PUBLICATION.—

(A) **IN GENERAL.**—Subject to subparagraph (B), the Secretary shall publish each approved State multiple-year plan, and each annual update thereto, on a publically accessible Internet Web site of the Department of Transportation not later than 30 days after the date the Secretary approves the plan or update.

(B) **LIMITATION.**—Before publishing an approved State multiple-year plan or annual update under subparagraph (A), the Secretary shall redact any information identified by the State that, if disclosed—

- (i) would reasonably be expected to interfere with enforcement proceedings; or

(d) **EXCLUSION OF U.S. TERRITORIES.**—The requirement that a State conduct safety audits of new entrant motor carriers under subsection (c)(2)(Y) does not apply to a territory of the United States unless required by the Secretary.

(e) **INTRASTATE COMPATIBILITY.**—The Secretary shall prescribe regulations specifying tolerance guidelines and standards for ensuring compatibility of intrastate commercial motor vehicle safety laws, including regulations, with Federal motor carrier safety regulations to be enforced under subsections (b) and (c). To the extent practicable, the guidelines and standards shall allow for maximum flexibility while ensuring a degree of uniformity that will not diminish motor vehicle safety.

(f) MAINTENANCE OF EFFORT.—

(1) **BASELINE.**—Except as provided under paragraphs (2) and (3) and in accordance with section 5107 of the FAST Act, a State plan under subsection (c) shall provide that the total expenditure of amounts of the lead State commercial motor vehicle safety agency responsible for administering the plan will be maintained at a level each fiscal year that is at least equal to—

- (A) the average level of that expenditure for fiscal years 2004 and 2005; or
- (B) the level of that expenditure for the year in which the Secretary implements a new allocation formula under section 5106 of the FAST Act.

(2) **ADJUSTED BASELINE AFTER FISCAL YEAR 2017.**—At the request of a State, the Secretary may evaluate additional documentation related to the maintenance of effort and may make reasonable adjustments to the maintenance of effort baseline after the year in which the Secretary implements a new allocation formula under section 5106 of the FAST Act, and this adjusted baseline will replace the maintenance of effort requirement under paragraph (1).

(3) **WAIVERS.**—At the request of a State, the Secretary may waive or modify the requirements of this subsection for a total of 1 fiscal year if the Secretary determines that the waiver or modification is reasonable, based on circumstances described by the State, to ensure the continuation of commercial motor vehicle enforcement activities in the State.

(4) **LEVEL OF STATE EXPENDITURES.**—In estimating the average level of a State's expenditures under paragraph (1), the Secretary—

- (A) may allow the State to exclude State expenditures for federally sponsored demonstration and pilot programs and strike forces;

(h) **USE OF GRANTS TO ENFORCE OTHER LAWS.**—When approved as part of a State's plan under subsection (c), the State may use motor carrier safety assistance program funds received under this section—

(1) if the activities are carried out in conjunction with an appropriate inspection of a commercial motor vehicle to enforce Federal or State commercial motor vehicle safety regulations, for—

(A) enforcement of commercial motor vehicle size and weight limitations at locations, excluding fixed-weight facilities, such as near steep grades or mountainous terrains, where the weight of a commercial motor vehicle can significantly affect the safe operation of the vehicle, or at ports where intermodal shipping containers enter and leave the United States; and

(B) detection of and enforcement actions taken as a result of criminal activity, including the trafficking of human beings, in a commercial motor vehicle or by any occupant, including the operator, of the commercial motor vehicle; and

(2) for documented enforcement of State traffic laws and regulations designed to promote the safe operation of commercial motor vehicles, including documented enforcement of such laws and regulations relating to noncommercial motor vehicles when necessary to promote the safe operation of commercial motor vehicles, if—

(A) the number of motor carrier safety activities, including roadside safety inspections, conducted in the State is maintained at a level at least equal to the average level of such activities conducted in the State in fiscal years 2014 and 2015; and

(B) the State does not use more than 10 percent of the basic amount the State receives under a grant awarded under section 31104(a)(1) for enforcement activities relating to noncommercial motor vehicles necessary to promote the safe operation of commercial motor vehicles unless the Secretary determines that a higher percentage will result in significant increases in commercial motor vehicle safety.

(i) **EVALUATION OF PLANS AND AWARD OF GRANTS.**—

(3) **ELECTIVE ADJUSTMENTS.**—Subject to the availability of funding and notwithstanding fluctuations in the data elements used by the Secretary to calculate the annual allocation amounts, after the creation of a new allocation formula under section 5106 of the FAST Act, the Secretary may not make elective adjustments to the allocation formula that decrease a State's Federal funding levels by more than 3 percent in a fiscal year. The 3 percent limit shall not apply to the withholding provisions of subsection (k).

(k) PLAN MONITORING.—

Upon the receipt of such notice, the State plan shall no longer be in effect and the Secretary shall withhold all funding to the State under this section.

(B) NONCOMPLIANCE WITHHOLDING.—In lieu of withdrawing approval of a State plan under subparagraph (A), the Secretary may, after providing notice to the State and an opportunity to be heard, withhold funding from the State to which the State would otherwise be entitled under this section for the period of the State's noncompliance. In exercising this option, the Secretary may withhold—

(3) JUDICIAL REVIEW.—A State adversely affected by a determination under paragraph (2) may seek judicial review under chapter 7 of title 5. Notwithstanding the disapproval of a State plan under paragraph (2)(A) or the withholding of funds under paragraph (2)(B), the State may retain jurisdiction in an administrative or a judicial proceeding that commenced before the notice of disapproval or withholding if the issues involved are not related directly to the reasons for the disapproval or withholding.

MAINTENANCE OF EFFORT CALCULATION

Pub. L. 114–94, div. A, title V, §5107, Dec. 4, 2015, 129 Stat. 1532, provided that:

"(a) BEFORE NEW ALLOCATION FORMULA.—

"(1) FISCAL YEAR 2017.—If a new allocation formula for the motor carrier safety assistance program has not been established under this subtitle [subtitle A (§§5101–5107) of title V of div. A of Pub. "(2) SUBSEQUENT FISCAL YEARS.—The Secretary may use the methodology for calculating the maintenance of effort baseline specified in paragraph (1) for fiscal year 2018 and subsequent fiscal years if a new allocation formula for the motor carrier safety assistance program has not been established for that fiscal year.

"(b) BEGINNING WITH NEW ALLOCATION FORMATION.—

"(1) IN GENERAL.—Subject to paragraphs (2) and (3)(B), beginning on the date that a new allocation formula for the motor carrier safety assistance program is established under this subtitle, upon the request of a State, the Secretary may waive or modify the baseline maintenance of effort required of the State by section 31102(f) of title 49, United States Code, as amended by this subtitle, for the purpose of establishing a new baseline maintenance of effort if the Secretary determines that a waiver or modification—

"(A) is equitable due to reasonable circumstances;

"(B) will ensure the continuation of commercial motor vehicle enforcement activities in the State;

and

"(C) is necessary to ensure that the total amount of State maintenance of effort and matching expenditures required under sections 31102 and 31104 of title 49, United States Code, as amended by this subtitle, does not exceed a sum greater than the average of the total amount of State maintenance of effort and matching expenditures required under those sections for the 3 fiscal years prior to the date of enactment of this Act.

"(2) ADJUSTMENT METHODOLOGY.—If requested by a State, the Secretary may modify the maintenance of effort baseline referred to in paragraph (1) for the State according to the following methodology:

"(A) The Secretary shall establish the maintenance of effort baseline for the State using the average baseline of fiscal years 2004 and 2005, as required by section 31102(b)(4) of title 49, United States Code, as that section was in effect on the day before the date of enactment of this Act.

"(B) The Secretary shall calculate the average required match by a lead State commercial motor vehicle safety agency for fiscal years 2013, 2014, and 2015 for motor carrier safety assistance grants established at 20 percent by section 31103 of title 49, United States Code, as that section was in effect on the day before the date of enactment of this Act.

"(C) The Secretary shall calculate the estimated match required under section 31104(b) of title 49, United States Code, as amended by this subtitle.

"(D) The Secretary shall subtract the amount in subparagraph (B) from the amount in subparagraph (C) and—

"(i) if the number is greater than 0, the Secretary shall subtract the number from the amount in subparagraph (A); or

"(ii) if the number is not greater than 0, the Secretary shall calculate the maintenance of effort using the methodology in subparagraph (A).

"(3) MAINTENANCE OF EFFORT AMOUNT.—

"(A) IN GENERAL.—The Secretary shall use the amount calculated under paragraph (2) as the baseline maintenance of effort required under section 31102(f) of title 49, United States Code, as amended by this subtitle.

"(B) DEADLINE.—If a State does not request a waiver or modification under this subsection before September 30 during the first fiscal year that the Secretary implements a new allocation formula for the motor carrier safety assistance program under this subtitle, the Secretary shall calculate the maintenance of effort using the methodology described in paragraph (2)(A).

"(4) MAINTENANCE OF EFFORT DESCRIBED.—The maintenance of effort calculated under this section is the amount required under section 31102(f) of title 49, United States Code, as amended by this subtitle.

"(c) TERMINATION OF EFFECTIVENESS.—The authority of the Secretary under this section shall terminate effective on the date that a new maintenance of effort baseline is calculated based on a new

allocation formula for the motor carrier safety assistance program implemented under section 31102 of title 49, United States Code."

§31105. Employee protections

(a) PROHIBITIONS.—(1) A person may not discharge an employee, or discipline or discriminate against an employee regarding pay, terms, or privileges of employment, because—

(A)(i) the employee, or another person at the employee's request, has filed a complaint or begun a proceeding related to a violation of a commercial motor vehicle safety or security regulation, standard, or order, or has testified or will testify in such a proceeding; or

(ii) the person perceives that the employee has filed or is about to file a complaint or has begun or is about to begin a proceeding related to a violation of a commercial motor vehicle safety or security regulation, standard, or order;

(B) the employee refuses to operate a vehicle because—

(i) the operation violates a regulation, standard, or order of the United States related to commercial motor vehicle safety, health, or security; or

(ii) the employee has a reasonable apprehension of serious injury to the employee or the public because of the vehicle's hazardous safety or security condition;

(C) the employee accurately reports hours on duty pursuant to chapter 315;

(D) the employee cooperates, or the person perceives that the employee is about to cooperate, with a safety or security investigation by the Secretary of Transportation, the Secretary of Homeland Security, or the National Transportation Safety Board; or

(E) the employee furnishes, or the person perceives that the employee is or is about to furnish, information to the Secretary of Transportation, the Secretary of Homeland Security, the National Transportation Safety Board, or any Federal, State, or local regulatory or law enforcement agency as to the facts relating to any accident or incident resulting in injury or death to an individual or damage to property occurring in connection with commercial motor vehicle transportation.

(2) Under paragraph (1)(B)(ii) of this subsection, an employee's apprehension of serious injury is reasonable only if a reasonable individual in the circumstances then confronting the employee would conclude that the hazardous safety or security condition establishes a real danger of accident, injury, or serious impairment to health. To qualify for protection, the employee must have sought from the employer, and been unable to obtain, correction of the hazardous safety or security condition.

(b) FILING COMPLAINTS AND PROCEDURES.—(1) An employee alleging discharge, discipline, or discrimination in violation of subsection (a) of this section, or another person at the employee's request, may file a complaint with the Secretary of Labor not later than 180 days after the alleged violation occurred. All complaints initiated under this section shall be governed by the legal burdens of proof set forth in section 42121(b). On receiving the complaint, the Secretary of Labor shall notify, in writing, the person alleged to have committed the violation of the filing of the complaint.

(2)(A) Not later than 60 days after receiving a complaint, the Secretary of Labor shall conduct an

investigation, decide whether it is reasonable to believe the complaint has merit, and notify, in writing, the complainant and the person alleged to have committed the violation of the findings. If the Secretary of Labor decides it is reasonable to believe a violation occurred, the Secretary of Labor shall include with the decision findings and a preliminary order for the relief provided under paragraph (3) of this subsection.

(B) Not later than 30 days after the notice under subparagraph (A) of this paragraph, the complainant and the person alleged to have committed the violation may file objections to the findings or preliminary order, or both, and request a hearing on the record. The filing of objections does not stay a reinstatement ordered in the preliminary order. If a hearing is not requested within the 30 days, the preliminary order is final and not subject to judicial review.

(C) A hearing shall be conducted expeditiously. Not later than 120 days after the end of the hearing, the Secretary of Labor shall issue a final order. Before the final order is issued, the proceeding may be ended by a settlement agreement made by the Secretary of Labor, the complainant, and the person alleged to have committed the violation.

(3)(A) If the Secretary of Labor decides, on the basis of a complaint, a person violated subsection (a) of this section, the Secretary of Labor shall order the person to—

- (i) take affirmative action to abate the violation;
- (ii) reinstate the complainant to the former position with the same pay and terms and privileges of employment; and
- (iii) pay compensatory damages, including backpay with interest and compensation for any special damages sustained as a result of the discrimination, including litigation costs, expert witness fees, and reasonable attorney fees.

(B) If the Secretary of Labor issues an order under subparagraph (A) of this paragraph and the complainant requests, the Secretary of Labor may assess against the person against whom the order is issued the costs (including attorney fees) reasonably incurred by the complainant in bringing the complaint. The Secretary of Labor shall determine the costs that reasonably were incurred.

(C) Relief in any action under subsection (b) may include punitive damages in an amount not to exceed \$250,000.

(c) DE NOVO REVIEW.—With respect to a complaint under paragraph (1),¹ if the Secretary of Labor has not issued a final decision within 210 days after the filing of the complaint and if the delay is not due to the bad faith of the employee, the employee may bring an original action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy, and which action shall, at the request of either party to such action, be tried by the court with a jury.

(d) JUDICIAL REVIEW AND VENUE.—A person adversely affected by an order issued after a hearing under subsection (b) of this section may file a petition for review, not later than 60 days after the order is issued, in the court of appeals of the United States for the circuit in which the violation occurred or the person resided on the date of the violation. Review shall conform to chapter 7 of title 5. The review shall be heard and decided expeditiously. An order of the Secretary of Labor subject to review under this subsection is not subject to judicial review in a criminal or other civil proceeding.

(e) CIVIL ACTIONS TO ENFORCE.—If a person fails to comply with an order issued under subsection (b) of this section, the Secretary of Labor shall bring a civil action to enforce the order in the district court of the United States for the judicial district in which the violation occurred.

(f) NO PREEMPTION.—Nothing in this section preempts or diminishes any other safeguards against discrimination, demotion, discharge, suspension, threats, harassment, reprimand, retaliation, or any other manner of discrimination provided by Federal or State law.

(g) RIGHTS RETAINED BY EMPLOYEE.—Nothing in this section shall be deemed to diminish the rights, privileges, or remedies of any employee under any Federal or State law or under any collective bargaining agreement. The rights and remedies in this section may not be waived by any agreement, policy, form, or condition of employment.

(h) DISCLOSURE OF IDENTITY.—

- (1) Except as provided in paragraph (2) of this subsection, or with the written consent of the

employee, the Secretary of Transportation or the Secretary of Homeland Security may not disclose the name of an employee who has provided information about an alleged violation of this part, or a regulation prescribed or order issued under any of those provisions.

(2) The Secretary of Transportation or the Secretary of Homeland Security shall disclose to the Attorney General the name of an employee described in paragraph (1) of this subsection if the matter is referred to the Attorney General for enforcement. The Secretary making such disclosure shall provide reasonable advance notice to the affected employee if disclosure of that person's identity or identifying information is to occur.

(i) **PROCESS FOR REPORTING SECURITY PROBLEMS TO THE DEPARTMENT OF HOMELAND SECURITY.—**

(1) **ESTABLISHMENT OF PROCESS.—**The Secretary of Homeland Security shall establish through regulations, after an opportunity for notice and comment, a process by which any person may report to the Secretary of Homeland Security regarding motor carrier vehicle security problems, deficiencies, or vulnerabilities.

(2) **ACKNOWLEDGMENT OF RECEIPT.—**If a report submitted under paragraph (1) identifies the person making the report, the Secretary of Homeland Security shall respond promptly to such person and acknowledge receipt of the report.

(3) **STEPS TO ADDRESS PROBLEM.—**The Secretary of Homeland Security shall review and consider the information provided in any report submitted under paragraph (1) and shall take appropriate steps to address any problems or deficiencies identified.

(j) **DEFINITION.—**In this section, "employee" means a driver of a commercial motor vehicle (including an independent contractor when personally operating a commercial motor vehicle), a mechanic, a freight handler, or an individual not an employer, who—

(1) directly affects commercial motor vehicle safety or security in the course of employment by a commercial motor carrier; and

(2) is not an employee of the United States Government, a State, or a political subdivision of a State acting in the course of employment.

SUBCHAPTER II—LENGTH AND WIDTH LIMITATIONS

§31111. Length limitations

(a) **DEFINITIONS.**—In this section, the following definitions apply:

(1) **AUTOMOBILE TRANSPORTER.**—The term "automobile transporter" means any vehicle combination designed and used for the transport of assembled highway vehicles, including truck camper units. An automobile transporter shall not be prohibited from the transport of cargo or general freight on a backhaul, so long as it complies with weight limitations for a truck tractor and semitrailer combination.

(2) **MAXI-CUBE VEHICLE.**—The term "maxi-cube vehicle" means a truck tractor combined with a semitrailer and a separable property-carrying unit designed to be loaded and unloaded through the semitrailer, with the length of the separable property-carrying unit being not more than 34 feet and the length of the vehicle combination being not more than 65 feet.

(3) **TRUCK TRACTOR.**—The term "truck tractor" means—

(A) a non-property-carrying power unit that operates in combination with a semitrailer or trailer; or

(B) a power unit that carries as property motor vehicles when operating in combination with a semitrailer in transporting motor vehicles or any other commodity, including cargo or general freight on a backhaul.

(4) **DRIVEAWAY SADDLEMOUNT VEHICLE TRANSPORTER COMBINATION.**—The term "driveaway saddlemount vehicle transporter combination" means a vehicle combination

designed and specifically used to tow up to 3 trucks or truck tractors, each connected by a saddle to the frame or fifth-wheel of the forward vehicle of the truck or truck tractor in front of it. Such combination may include one fullmount.

(5) **BACKHAUL.**—The term "backhaul" means the return trip of a vehicle transporting cargo or general freight, especially when carrying goods back over all or part of the same route.

(6) **TRAILER TRANSPORTER TOWING UNIT.**—The term "trailer transporter towing unit" means a power unit that is not used to carry property when operating in a towaway trailer transporter combination.

(7) **TOWAWAY TRAILER TRANSPORTER COMBINATION.**—The term "towaway trailer transporter combination" means a combination of vehicles consisting of a trailer transporter towing unit and 2 trailers or semitrailers—

(A) with a total weight that does not exceed 26,000 pounds; and

(B) in which the trailers or semitrailers carry no property and constitute inventory property of a manufacturer, distributor, or dealer of such trailers or semitrailers.

(b) **GENERAL LIMITATIONS.**—(1) Except as provided in this section, a State may not prescribe or enforce a regulation of commerce that—

(A) imposes a vehicle length limitation of less than 45 feet on a bus, of less than 48 feet on a semitrailer operating in a truck tractor-semitrailer combination, or of less than 28 feet on a semitrailer or trailer operating in a truck tractor-semitrailer-trailer combination, on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (f) of this section) and those classes of qualifying Federal-aid Primary System highways designated by the Secretary of Transportation under subsection (e) of this section;

(B) imposes an overall length limitation on a commercial motor vehicle operating in a truck tractor-semitrailer or truck tractor-semitrailer-trailer combination;

(C) has the effect of prohibiting the use of a semitrailer or trailer of the same dimensions as those that were in actual and lawful use in that State on December 1, 1982;

(D) imposes a vehicle length limitation of not less than or more than 97 feet on all driveaway saddlemount vehicle transporter combinations;

(E) has the effect of prohibiting the use of an existing semitrailer or trailer, of not more than 28.5 feet in length, in a truck tractor-semitrailer-trailer combination if the semitrailer or trailer was operating lawfully on December 1, 1982, within a 65-foot overall length limit in any State;

(F) imposes a limitation of less than 46 feet on the distance from the kingpin to the center of the rear axle on trailers used exclusively or primarily in connection with motorsports competition events;

(G) imposes a vehicle length limitation of less than 80 feet on a stinger-steered automobile transporter with a front overhang of less than 4 feet and a rear overhang of less than 6 feet; or

(H) has the effect of imposing an overall length limitation of less than 82 feet on a towaway trailer transporter combination.

(2) A length limitation prescribed or enforced by a State under paragraph (1)(A) of this subsection applies only to a semitrailer or trailer and not to a truck tractor.

(c) **MAXI-CUBE AND VEHICLE COMBINATION LIMITATIONS.**—A State may not prohibit a maxi-cube vehicle or a commercial motor vehicle combination consisting of a truck tractor and 2 trailing units on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (f) of this section) and those classes of qualifying Federal-aid Primary System highways designated by the Secretary under subsection (e) of this section.

(d) **EXCLUSION OF SAFETY AND ENERGY CONSERVATION DEVICES.**—Length calculated under this section does not include a safety or energy conservation device the Secretary decides is necessary for safe and efficient operation of a commercial motor vehicle. However, such a device may not have by its design or use the ability to carry cargo.

(e) **QUALIFYING HIGHWAYS.**—The Secretary by regulation shall designate as qualifying Federal-aid Primary System highways those highways of the Federal-aid Primary System in existence on June 1, 1991, that can accommodate safely the applicable vehicle lengths provided in this section.

(f) **EXEMPTIONS.**—(1) If the chief executive officer of a State, after consulting under paragraph (2) of this subsection, decides a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely accommodating a commercial motor vehicle having a length described in subsection (b)(1)(A) of this section or the motor vehicle combination described in subsection (c) of this section, the chief executive officer may notify the Secretary of that decision and request the Secretary to exempt that segment from either or both provisions.

(2) Before making a decision under paragraph (1) of this subsection, the chief executive officer shall consult with units of local government in the State in which the segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is located and with the chief executive officer of any adjacent State that may be directly affected by the exemption. As part of the consultations, consideration shall be given to any potential alternative route that serves the area in which the segment is located and can safely accommodate a commercial motor vehicle having a length described in subsection (b)(1)(A) of this section or the motor vehicle combination described in subsection (c) of this section.

(3) A chief executive officer's notification under this subsection must include specific evidence of safety problems supporting the officer's decision and the results of consultations about alternative routes.

(4)(A) If the Secretary decides, on request of a chief executive officer or on the Secretary's own initiative, a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely accommodating a commercial motor vehicle having a length described in subsection (b)(1)(A) of this section or the motor vehicle combination described in subsection (c) of this section, the Secretary shall exempt the segment from either or both of those provisions. Before making a decision under this paragraph, the Secretary shall consider any possible alternative route that serves the area in which the segment is located.

(B) The Secretary shall make a decision about a specific segment not later than 120 days after the date of receipt of notification from a chief executive officer under paragraph (1) of this subsection or the date on which the Secretary initiates action under subparagraph (A) of this paragraph, whichever is applicable. If the Secretary finds the decision will not be made in time, the Secretary immediately shall notify Congress, giving the reasons for the delay, information about the resources assigned, and the projected date for the decision.

(C) Before making a decision, the Secretary shall give an interested person notice and an opportunity for comment. If the Secretary exempts a segment under this subsection before the final regulations under subsection (e) of this section are prescribed, the Secretary shall include the exemption as part of the final regulations. If the Secretary exempts the segment after the final regulations are prescribed, the Secretary shall publish the exemption as an amendment to the final regulations.

(g) **ACCOMMODATING SPECIALIZED EQUIPMENT.**—In prescribing regulations to carry out this section, the Secretary may make decisions necessary to accommodate specialized equipment, including automobile and vessel transporters and maxi-cube vehicles.

Subsection (b)(1) is substituted for 49 App.:2311(a) and (b) (2d-last sentences) to eliminate unnecessary words and for consistency in the revised title and with other titles of the United States Code. Hyphens are used

in describing the combinations "truck tractor-semitrailer" and "truck tractor-semitrailer-trailer" for consistency. In clause (D), the word "actually" is omitted as surplus.

Subsection (b)(2) is substituted for 49 App.:2311(b) (1st sentence) because of the restatement.

§31112. Property-carrying unit limitation

(a) DEFINITIONS.—In this section—

(1) "property-carrying unit" means any part of a commercial motor vehicle combination (except the truck tractor) used to carry property, including a trailer, a semitrailer, or the property-carrying section of a single unit truck, but not including a trailer or a semitrailer transported as part of a towaway trailer transporter combination (as defined in section 31111(a)).

(2) the length of the property-carrying units of a commercial motor vehicle combination is the length measured from the front of the first property-carrying unit to the rear of the last property-carrying unit.

(b) GENERAL LIMITATIONS.—A State may not allow by any means the operation, on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways and those classes of qualifying Federal-aid Primary System highways designated by the Secretary of Transportation under section 31111(e) of this title, of any commercial motor vehicle combination (except a vehicle or load that cannot be dismantled easily or divided easily and that has been issued a special permit under applicable State law) with more than one property-carrying unit (not including the truck tractor) whose property-carrying units are more than—

(1) the maximum combination trailer, semitrailer, or other type of length limitation allowed by law or regulation of that State before June 2, 1991; or

(2) the length of the property-carrying units of those commercial motor vehicle combinations, by specific configuration, in actual, lawful operation on a regular or periodic basis (including continuing seasonal operation) in that State before June 2, 1991.

(c) SPECIAL RULES FOR WYOMING, OHIO, ALASKA, IOWA, NEBRASKA, KANSAS, AND OREGON.—In addition to the vehicles allowed under subsection (b) of this section—

(1) Wyoming may allow the operation of additional vehicle configurations not in actual operation on June 1, 1991, but authorized by State law not later than November 3, 1992, if the vehicle configurations comply with the single axle, tandem axle, and bridge formula limits in section 127(a) of title 23 and are not more than 117,000 pounds gross vehicle weight;

(2) Ohio may allow the operation of commercial motor vehicle combinations with 3 property-carrying units of 28.5 feet each (not including the truck tractor) not in actual operation on June 1, 1991, to be operated in Ohio on the 1-mile segment of Ohio State Route 7 that begins at and is south of exit 16 of the Ohio Turnpike;

(3) Alaska may allow the operation of commercial motor vehicle combinations that were not in actual operation on June 1, 1991, but were in actual operation before July 6, 1991;

(4) Iowa may allow the operation on Interstate Route 29 between Sioux City, Iowa, and the border between Iowa and South Dakota or on Interstate Route 129 between Sioux City, Iowa, and the border between Iowa and Nebraska of commercial motor vehicle combinations with trailer length, semitrailer length, and property-carrying unit length allowed by law or regulation and in actual lawful operation on a regular or periodic basis (including continued seasonal operation) in South Dakota or Nebraska, respectively, before June 2, 1991;

(5) Nebraska and Kansas may allow the operation of a truck tractor and 2 trailers or semitrailers not in actual lawful operation on a regular or periodic basis on June 1, 1991, if the length of the property-carrying units does not exceed 81 feet 6 inches and such combination is used only to transport equipment utilized by custom harvesters under contract to agricultural producers to harvest one or more of wheat, soybeans, and milo during the harvest months for such crops, as defined by the relevant state;¹ and

(6) Oregon may allow the operation of a truck tractor and 2 property-carrying units not in actual lawful operation on a regular or periodic basis on June 1, 1991, if—

(A) the length of the property-carrying units does not exceed 82 feet 8 inches;

(B) the combination is used only to transport sugar beets; and

(C) the operation occurs on United States Route 20, United States Route 26, United States Route 30, or Oregon Route 201 in the vicinity, or between any, of—

- (i) Vale, Oregon;
- (ii) Ontario, Oregon; or
- (iii) Nyssa, Oregon.

(d) **ADDITIONAL LIMITATIONS.**—(1) A commercial motor vehicle combination whose operation in a State is not prohibited under subsections (b) and (c) of this section may continue to operate in the State on highways described in subsection (b) only if at least in compliance with all State laws, regulations, limitations, and conditions, including routing-specific and configuration-specific designations and all other restrictions in force in the State on June 1, 1991. However, subject to regulations prescribed by the Secretary under subsection (g)(2) of this section, the State may make minor adjustments of a temporary and emergency nature to route designations and vehicle operating restrictions in effect on June 1, 1991, for specific safety purposes and road construction.

(2) This section does not prevent a State from further restricting in any way or prohibiting the operation of any commercial motor vehicle combination subject to this section, except that a restriction or prohibition shall be consistent with this section and sections 31113(a) and (b) and 31114 of this title.

(3) A State making a minor adjustment of a temporary and emergency nature as authorized by paragraph (1) of this subsection or further restricting or prohibiting the operation of a commercial motor vehicle combination as authorized by paragraph (2) of this subsection shall advise the Secretary not later than 30 days after the action. The Secretary shall publish a notice of the action in the Federal Register.

(4) ² Nebraska may continue to allow to be operated under paragraphs (b)(1) and (b)(2) of this section,³ the State of Nebraska may allow longer combination vehicles that were not in actual operation on June 1, 1991 to be operated within its boundaries to transport sugar beets from the field where such sugar beets are harvested to storage, market, factory or stockpile or from stockpile to storage, market or factory. This provision shall expire on February 28, 1998.

(e) **LIST OF STATE LENGTH LIMITATIONS.**—(1) Not later than February 16, 1992, each State shall submit to the Secretary for publication a complete list of State length limitations applicable to commercial motor vehicle combinations operating in the State on the highways described in subsection (b) of this section. The list shall indicate the applicable State laws and regulations associated with the length limitations. If a State does not submit the information as required, the Secretary shall complete and file the information for the State.

(2) Not later than March 17, 1992, the Secretary shall publish an interim list in the Federal Register consisting of all information submitted under paragraph (1) of this subsection. The Secretary shall review for accuracy all information submitted by a State under paragraph (1) and shall solicit and consider public comment on the accuracy of the information.

(3) A law or regulation may not be included on the list submitted by a State or published by the Secretary merely because it authorized, or could have authorized, by permit or otherwise, the operation of commercial motor vehicle combinations not in actual operation on a regular or periodic basis before June 2, 1991.

(4) Except as revised under this paragraph or paragraph (5) of this subsection, the list shall be published as final in the Federal Register not later than June 15, 1992. In publishing the final list, the Secretary shall make any revisions necessary to correct inaccuracies identified under paragraph (2) of this subsection. After publication of the final list, commercial motor vehicle combinations prohibited under subsection (b) of this section may not operate on the Dwight D. Eisenhower System of Interstate and Defense Highways and other Federal-aid Primary System highways designated by the Secretary except as published on the list. The list may be combined by the Secretary with the list required under section 127(d) of title 23.

(5) On the Secretary's own motion or on request by any person (including a State), the Secretary shall review the list published under paragraph (4) of this subsection. If the Secretary decides there is

reason to believe a mistake was made in the accuracy of the list, the Secretary shall begin a proceeding to decide whether a mistake was made. If the Secretary decides there was a mistake, the Secretary shall publish the correction.

(f) **LIMITATIONS ON STATUTORY CONSTRUCTION.**—This section may not be construed—

(1) to allow the operation on any segment of the Dwight D. Eisenhower System of Interstate and Defense Highways of a longer combination vehicle prohibited under section 127(d) of title 23;

(2) to affect in any way the operation of a commercial motor vehicle having only one property-carrying unit; or

(3) to affect in any way the operation in a State of a commercial motor vehicle with more than one property-carrying unit if the vehicle was in actual operation on a regular or periodic basis (including seasonal operation) in that State before June 2, 1991, that was authorized under State law or regulation or lawful State permit.

(g) **REGULATIONS.**—(1) In carrying out this section only, the Secretary shall define by regulation loads that cannot be dismantled easily or divided easily.

(2) Not later than June 15, 1992, the Secretary shall prescribe regulations establishing criteria for a State to follow in making minor adjustments under subsection (d) of this section.

§31113. Width limitations

(a) GENERAL LIMITATIONS.—(1) Except as provided in subsection (e) of this section, a State (except Hawaii) may not prescribe or enforce a regulation of commerce that imposes a vehicle width limitation of more or less than 102 inches on a commercial motor vehicle operating on—

(A) a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (e) of this section);

(B) a qualifying Federal-aid highway designated by the Secretary of Transportation, with traffic lanes designed to be at least 12 feet wide; or

(C) a qualifying Federal-aid Primary System highway designated by the Secretary if the Secretary decides the designation is consistent with highway safety.

(2) Notwithstanding paragraph (1) of this subsection, a State may continue to enforce a regulation of commerce in effect on April 6, 1983, that applies to a commercial motor vehicle of more than 102 inches in width, until the date on which the State prescribes a regulation of commerce that complies with this subsection.

(3) A Federal-aid highway (except an interstate highway) not designated under this subsection on June 5, 1984, may be designated under this subsection only with the agreement of the chief executive officer of the State in which the highway is located.

(b) EXCLUSION OF SAFETY AND ENERGY CONSERVATION DEVICES.—Width calculated under this section does not include a safety or energy conservation device the Secretary decides is necessary for safe and efficient operation of a commercial motor vehicle.

(c) SPECIAL USE PERMITS.—A State may grant a special use permit to a commercial motor

vehicle that is more than 102 inches in width.

(d) STATE ENFORCEMENT.—Consistent with this section, a State may enforce a commercial motor vehicle width limitation of 102 inches on a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under subsection (e) of this section) or other qualifying Federal-aid highway designated by the Secretary.

(e) EXEMPTIONS.—(1) If the chief executive officer of a State, after consulting under paragraph (2) of this subsection, decides a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely accommodating a commercial motor vehicle having the width provided in subsection (a) of this section, the chief executive officer may notify the Secretary of that decision and request the Secretary to exempt that segment from subsection (a) to allow the State to impose a width limitation of less than 102 inches for a vehicle (except a bus) on that segment.

(2) Before making a decision under paragraph (1) of this subsection, the chief executive officer shall consult with units of local government in the State in which the segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is located and with the chief executive officer of any adjacent State that may be directly affected by the exemption. As part of the consultations, consideration shall be given to any potential alternative route that serves the area in which the segment is located and can safely accommodate a commercial motor vehicle having the width provided for in subsection (a) of this section.

(3) A chief executive officer's notification under this subsection must include specific evidence of safety problems supporting the officer's decision and the results of consultations about alternative routes.

(4)(A) If the Secretary decides, on request of a chief executive officer or on the Secretary's own initiative, a segment of the Dwight D. Eisenhower System of Interstate and Defense Highways is not capable of safely accommodating a commercial motor vehicle having a width provided in subsection (a) of this section, the Secretary shall exempt the segment from subsection (a) to allow the State to impose a width limitation of less than 102 inches for a vehicle (except a bus) on that segment. Before making a decision under this paragraph, the Secretary shall consider any possible alternative route that serves the area in which the segment is located.

(B) The Secretary shall make a decision about a specific segment not later than 120 days after the date of receipt of notification from a chief executive officer under paragraph (1) of this subsection or the date on which the Secretary initiates action under subparagraph (A) of this paragraph, whichever is applicable. If the Secretary finds the decision will not be made in time, the Secretary immediately shall notify Congress, giving the reasons for the delay, information about the resources assigned, and the projected date for the decision.

(C) Before making a decision, the Secretary shall give an interested person notice and an opportunity for comment. If the Secretary exempts a segment under this subsection before the final regulations under subsection (a) of this section are prescribed, the Secretary shall include the exemption as part of the final regulations. If the Secretary exempts the segment after the final regulations are prescribed, the Secretary shall publish the exemption as an amendment to the final regulations.

(1) the Dwight D. Eisenhower System of Interstate and Defense Highways (except a segment exempted under section 31111(f) or 31113(e) of this title) and other qualifying Federal-aid Primary System highways designated by the Secretary of Transportation; and

(b) EXCEPTION.—This section does not prevent a State or local government from imposing reasonable restrictions, based on safety considerations, on a truck tractor-semitrailer combination in which the semitrailer has a length of not more than 28.5 feet and that generally operates as part of a vehicle combination described in section 31111(c) of this title.

SUBCHAPTER III—SAFETY REGULATION

§31131. Purposes and findings

(a) **PURPOSES.**—The purposes of this subchapter are—

(a) **MINIMUM SAFETY STANDARDS.**—Subject to section 30103(a) of this title, the Secretary of Transportation shall prescribe regulations on commercial motor vehicle safety. The regulations shall prescribe minimum safety standards for commercial motor vehicles. At a minimum, the regulations shall ensure that—

- (1) commercial motor vehicles are maintained, equipped, loaded, and operated safely;
- (2) the responsibilities imposed on operators of commercial motor vehicles do not impair their ability to operate the vehicles safely;
- (3) the physical condition of operators of commercial motor vehicles is adequate to enable them to operate the vehicles safely and the periodic physical examinations required of such operators are performed by medical examiners who have received training in physical and medical examination standards and, after the national registry maintained by the Department of Transportation under section 31149(d) is established, are listed on such registry;

(b) **ELIMINATING AND AMENDING EXISTING REGULATIONS.**—The Secretary may not eliminate or amend an existing motor carrier safety regulation related only to the maintenance, equipment, loading, or operation (including routing) of vehicles carrying material found to be hazardous under section 5103 of this title until an equivalent or more stringent regulation has been prescribed under section 5103.

(c) **PROCEDURES AND CONSIDERATIONS.**—(1) A regulation under this section shall be prescribed under section 553 of title 5 (without regard to sections 556 and 557 of title 5).

(2) Before prescribing regulations under this section, the Secretary shall consider, to the extent practicable and consistent with the purposes of this chapter—

- (A) costs and benefits; and
- (B) State laws and regulations on commercial motor vehicle safety, to minimize their unnecessary preemption.

(d) **EFFECT OF EXISTING REGULATIONS.**—If the Secretary does not prescribe regulations on commercial motor vehicle safety under this section, regulations on commercial motor vehicle safety prescribed by the Secretary before October 30, 1984, and in effect on October 30, 1984, shall be deemed in this subchapter to be regulations prescribed by the Secretary under this section.

(B) consider the effects on commercial truck and bus carriers of various sizes and types.

(g) PUBLIC PARTICIPATION.—

(1) IN GENERAL.—If a proposed rule under this part is likely to lead to the promulgation of a major rule, the Secretary, before publishing such proposed rule, shall—

(A) issue an advance notice of proposed rulemaking; or

(B) proceed with a negotiated rulemaking.

(2) REQUIREMENTS.—Each advance notice of proposed rulemaking issued under paragraph (1) shall—

(A) identify the need for a potential regulatory action;

(B) identify and request public comment on the best available science or technical information relevant to analyzing potential regulatory alternatives;

In subsection (a), the text of 49 App.:2505(g) is omitted because 5:ch. 7 applies unless otherwise stated. Before clause (1), the words "Not later than 18 months after October 30, 1984" are omitted because the time period specified has expired. The words "Subject to section 30103(a) of this title" are added to alert the reader to that section.

In subsection (c)(1), the words "except that the time periods specified in this subsection shall apply to the issuance of such regulations" are omitted because the time periods referred to do not appear in subsection (c) as enacted. The reference was probably to the time periods in a prior version of subsection (c). See S. 2174, 98th Cong., 2d Sess., §6(b) (as reported by the Committee on Commerce, Science, and Transportation of the Senate on May 2, 1984, in S. Rept. 98–424).

In subsection (d), the text of 49 App.:2505(d) is omitted as obsolete.

In subsection (f)(2)(C)(i), the words "an operator" are substituted for "such person" because only a natural person can have a medical or physical condition.

"(2) TRANSPORTATION AND OPERATION OF GROUND WATER WELL DRILLING RIGS

.—Such regulations shall, in the case of a driver of a commercial motor vehicle who is used primarily in the transportation and operation of a ground water well drilling rig, permit any period of 7 or 8 consecutive days to end with the beginning of an off-duty period of 24 or more consecutive hours for the purposes of determining maximum driving and on-duty time. Except as required in section 395.3 of title 49, Code of Federal Regulations, as in effect on the date of enactment of this sentence [Aug. 10, 2005], no additional off-duty time shall be required in order to operate such vehicle.

"(5) SNOW AND ICE REMOVAL.—A State may waive the requirements of chapter 313 of title 49, United States Code, with respect to a vehicle that is being operated within the boundaries of an eligible unit of local government by an employee of such unit for the purpose of removing snow or ice from a roadway by plowing, sanding, or salting. Such waiver authority shall only apply in a case where the employee is needed to operate the vehicle because the employee of the eligible unit of local government who ordinarily operates the vehicle and who has a commercial drivers license is unable to operate the vehicle or is in need of additional assistance due to a snow emergency.

"(b) PREEMPTION.—Except as provided in subsection (a)(4), nothing contained in this section shall require the preemption of State laws and regulations concerning the safe operation of commercial motor vehicles as the result of exemptions from Federal requirements provided under this section.

"(c) REVIEW BY THE SECRETARY.—The Secretary [of Transportation] may conduct a rulemaking proceeding to determine whether granting any exemption provided by subsection (a) (other than paragraph (1), (2), or (4)) is not in the public interest and would have a significant adverse impact on the safety of commercial motor vehicles. If, at any time as a result of such a proceeding, the Secretary determines that

granting such exemption would not be in the public interest and would have a significant adverse impact on the safety of commercial motor vehicles, the Secretary may prevent the exemption from going into effect, modify the exemption, or revoke the exemption. The Secretary may develop a program to monitor the exemption, including agreements with carriers to permit the Secretary to examine insurance information maintained by an insurer on a carrier.

"(f) EMERGENCY CONDITION REQUIRING IMMEDIATE RESPONSE.—

"(1) PROPANE OR PIPELINE EMERGENCY.—A regulation prescribed under section 31136 or 31502 of title 49, United States Code, shall not apply to a driver of a commercial motor vehicle which is used primarily in the transportation of propane winter heating fuel or a driver of a motor vehicle used to respond to a pipeline emergency if such regulations would prevent the driver from responding to an emergency condition requiring immediate response.

"(2) DEFINITION.—An emergency condition requiring immediate response is any condition that, if left unattended, is reasonably likely to result in immediate serious bodily harm, death, or substantial damage

to property. In the case of propane such conditions shall include (but are not limited to) the detection of gas odor, the activation of carbon monoxide alarms, the detection of carbon monoxide poisoning, and any real or suspected damage to a propane gas system following a severe storm or flooding. §31137. Electronic logging devices and brake maintenance regulations

(a) USE OF ELECTRONIC LOGGING DEVICES.—Not later than 1 year after the date of enactment of the Commercial Motor Vehicle Safety Enhancement Act of 2012, the Secretary of Transportation shall prescribe regulations—

(1) requiring a commercial motor vehicle involved in interstate commerce and operated by a driver subject to the hours of service and the record of duty status requirements under part 395 of title 49, Code of Federal Regulations, be ¹equipped with an electronic logging device to improve compliance by an operator of a vehicle with hours of service regulations prescribed by the Secretary; and

(2) ensuring that an electronic logging device is not used to harass a vehicle operator.

(b) ELECTRONIC LOGGING DEVICE REQUIREMENTS.—

(1) IN GENERAL.—The regulations prescribed under subsection (a) shall—

(A) require an electronic logging device—

(i) to accurately record commercial driver hours of service;

(ii) to record the location of a commercial motor vehicle;

(iii) to be tamper resistant; and

(iv) to be synchronized to the operation of the vehicle engine or be capable of recognizing when the vehicle is being operated;

(B) allow law enforcement to access the data contained in the device during a roadside inspection; and

(C) except as provided in paragraph (3), apply to a commercial motor vehicle beginning on the date that is 2 years after the date that the regulations are published as a final rule.

(2) PERFORMANCE AND DESIGN STANDARDS.—The regulations prescribed under subsection (a) shall establish performance standards—

(A) defining a standardized user interface to aid vehicle operator compliance and law enforcement review;

(B) establishing a secure process for standardized—

(i) and unique vehicle operator identification;

(ii) data access;

(iii) data transfer for vehicle operators between motor vehicles;

(iv) data storage for a motor carrier; and

(v) data transfer and transportability for law enforcement officials;

(3) EXCEPTION.—A motor carrier, when transporting a motor home or recreation vehicle trailer within the definition of the term "driveaway-towaway operation" (as defined in section 390.5 of title 49, Code of Federal Regulations), may comply with the hours of service requirements by requiring each driver to use—

(A) a paper record of duty status form; or

(B) an electronic logging device.

(c) CERTIFICATION CRITERIA.—

(1) IN GENERAL.—The regulations prescribed by the Secretary under this section shall establish the criteria and a process for the certification of electronic logging devices to ensure that the device meets the performance requirements under this section.

(2) EFFECT OF NONCERTIFICATION.—Electronic logging devices that are not certified in accordance with the certification process referred to in paragraph (1) shall not be acceptable evidence of hours of service and record of duty status requirements under part 395 of title 49, Code of Federal Regulations.

(d) ADDITIONAL CONSIDERATIONS.—The Secretary, in prescribing the regulations described in subsection (a), shall consider how such regulations may—

(1) reduce or eliminate requirements for drivers and motor carriers to retain supporting documentation associated with paper-based records of duty status if—

(A) data contained in an electronic logging device supplants such documentation; and

(B) using such data without paper-based records does not diminish the Secretary's ability to audit and review compliance with the Secretary's hours of service regulations; and

(2) include such measures as the Secretary determines are necessary to protect the privacy of each individual whose personal data is contained in an electronic logging device.

(e) USE OF DATA.—

(1) IN GENERAL.—The Secretary may utilize information contained in an electronic logging device only to enforce the Secretary's motor carrier safety and related regulations, including record-of-duty status regulations.

(2) MEASURES TO PRESERVE CONFIDENTIALITY OF PERSONAL DATA.—The Secretary shall institute appropriate measures to preserve the confidentiality of any personal data contained in an electronic logging device and disclosed in the course of an action taken by the Secretary or by law enforcement officials to enforce the regulations referred to in paragraph (1).

(f) DEFINITIONS.—In this section:

(1) ELECTRONIC LOGGING DEVICE.—The term "electronic logging device" means an electronic device that—

(A) is capable of recording a driver's hours of service and duty status accurately and automatically; and

(B) meets the requirements established by the Secretary through regulation.

(2) TAMPER RESISTANT.—The term "tamper resistant" means resistant to allowing any individual to cause an electronic device to record the incorrect date, time, and location for changes to on-duty driving status of a commercial motor vehicle operator under part 395 of title 49, Code of Federal Regulations, or to subsequently alter the record created by that device.

(g) BRAKES AND BRAKE SYSTEMS MAINTENANCE REGULATIONS.—The Secretary shall maintain regulations on improved standards or methods to ensure that brakes and brake systems of commercial motor vehicles are maintained properly and inspected by appropriate employees. At a minimum, the regulations shall establish minimum training requirements and qualifications for employees responsible for maintaining and inspecting the brakes and brake systems.

(a) GENERAL REQUIREMENT.—

(1) TRANSPORTATION OF PASSENGERS FOR COMPENSATION.—The Secretary of Transportation shall prescribe regulations to require minimum levels of financial responsibility

sufficient to satisfy liability amounts established by the Secretary covering public liability and property damage for the transportation of passengers for compensation by motor vehicle in the United States between a place in a State and—

- (A) a place in another State;
- (B) another place in the same State through a place outside of that State; or
- (C) a place outside the United States.

(2) **TRANSPORTATION OF PASSENGERS NOT FOR COMPENSATION.**—The Secretary may prescribe regulations to require minimum levels of financial responsibility sufficient to satisfy liability amounts established by the Secretary covering public liability and property damage for the transportation of passengers for commercial purposes, but not for compensation, by motor vehicle in the United States between a place in a State and—

- (A) a place in another State;
- (B) another place in the same State through a place outside of that State; or
- (C) a place outside the United States.

(b) **MINIMUM AMOUNTS.**—The level of financial responsibility established under subsection (a) of this section for a motor vehicle with a seating capacity of—

- (1) at least 16 passengers shall be at least \$5,000,000; and
- (2) not more than 15 passengers shall be at least \$1,500,000.

(c) **EVIDENCE OF FINANCIAL RESPONSIBILITY.**—(1) Subject to paragraph (2) of this subsection, financial responsibility may be established by evidence of one or a combination of the following if acceptable to the Secretary of Transportation:

- (A) insurance, including high self-retention.
- (B) a guarantee.
- (C) a surety bond issued by a bonding company authorized to do business in the United States.

(2) A person domiciled in a country contiguous to the United States and providing transportation to which a minimum level of financial responsibility under this section applies shall have evidence of financial responsibility in the motor vehicle when the person is providing the transportation. If evidence of financial responsibility is not in the vehicle, the Secretary of Transportation and the Secretary of the Treasury shall deny entry of the vehicle into the United States.

(3) A motor carrier may obtain the required amount of financial responsibility from more than one source provided the cumulative amount is equal to the minimum requirements of this section.

(4) **OTHER PERSONS.**—The Secretary may require a person, other than a motor carrier (as defined in section 13102), transporting passengers by motor vehicle to file with the Secretary the evidence of financial responsibility specified in subsection (c)(1) in an amount not less than the greater of the amount required by subsection (b)(1) or the amount required for such person to transport passengers under the laws of the State or States in which the person is operating; except that the amount of the financial responsibility must be sufficient to pay not more than the amount of the financial responsibility for each final judgment against the person for bodily injury to, or death of, an individual resulting from the negligent operation, maintenance, or use of the motor vehicle, or for loss or damage to property, or both.

(d) **CIVIL PENALTY.**—(1) If, after notice and an opportunity for a hearing, the Secretary of Transportation finds that a person (except an employee acting without knowledge) has knowingly violated this section or a regulation prescribed under this section, the person is liable to the United States Government for a civil penalty of not more than \$10,000 for each violation. A separate violation occurs for each day the violation continues.

(2) The Secretary of Transportation shall impose the penalty by written notice. In determining the amount of the penalty, the Secretary shall consider—

- (A) the nature, circumstances, extent, and gravity of the violation;
- (B) with respect to the violator, the degree of culpability, any history of prior violations, the

ability to pay, and any effect on the ability to continue doing business; and
(C) other matters that justice requires.

(3) The Secretary of Transportation may compromise the penalty before referring the matter to the Attorney General for collection.

(4) The Attorney General shall bring a civil action in an appropriate district court of the United States to collect a penalty referred to the Attorney General for collection under this subsection.

(5) The amount of the penalty may be deducted from amounts the Government owes the person. An amount collected under this section shall be deposited in the Highway Trust Fund (other than the Mass Transit Account).

(e) NONAPPLICATION.—This section does not apply to a motor vehicle—

(1) transporting only school children and teachers to or from school;

(2) providing taxicab service (as defined in section 13102);

(3) carrying not more than 15 individuals in a single, daily round trip to and from work; or

(4) providing transportation service within a transit service area under an agreement with a Federal, State, or local government funded, in whole or in part, with a grant under section 5307, 5310, or 5311, including transportation designed and carried out to meet the special needs of elderly individuals and individuals with disabilities; except that, in any case in which the transit service area is located in more than 1 State, the minimum level of financial responsibility for such motor vehicle will be at least the highest level required for any of such States.

§31141. Review and preemption of State laws and regulations

(a) **PREEMPTION AFTER DECISION.**—A State may not enforce a State law or regulation on commercial motor vehicle safety that the Secretary of Transportation decides under this section may not be enforced.

(b) **SUBMISSION OF REGULATION.**—A State receiving funds made available under section 31104 that enacts a State law or issues a regulation on commercial motor vehicle safety shall submit a copy of the law or regulation to the Secretary immediately after the enactment or issuance.

(c) **REVIEW AND DECISIONS BY SECRETARY.**—

(1) **REVIEW.**—The Secretary shall review State laws and regulations on commercial motor vehicle safety. The Secretary shall decide whether the State law or regulation—

(A) has the same effect as a regulation prescribed by the Secretary under section 31136;

(B) is less stringent than such regulation; or

(C) is additional to or more stringent than such regulation.

(2) **REGULATIONS WITH SAME EFFECT.**—If the Secretary decides a State law or regulation has the same effect as a regulation prescribed by the Secretary under section 31136 of this title, the State law or regulation may be enforced.

(3) **LESS STRINGENT REGULATIONS.**—If the Secretary decides a State law or regulation is less stringent than a regulation prescribed by the Secretary under section 31136 of this title, the State law or regulation may not be enforced.

(4) **ADDITIONAL OR MORE STRINGENT REGULATIONS.**—If the Secretary decides a State law or regulation is additional to or more stringent than a regulation prescribed by the Secretary under section 31136 of this title, the State law or regulation may be enforced unless the Secretary also decides that—

(A) the State law or regulation has no safety benefit;

(B) the State law or regulation is incompatible with the regulation prescribed by the Secretary; or

(C) enforcement of the State law or regulation would cause an unreasonable burden on interstate commerce.

(5) **CONSIDERATION OF EFFECT ON INTERSTATE COMMERCE.**—In deciding under paragraph (4) whether a State law or regulation will cause an unreasonable burden on interstate commerce, the Secretary may consider the effect on interstate commerce of implementation of that law or regulation with the implementation of all similar laws and regulations of other States.

(d) **WAIVERS.**—(1) A person (including a State) may petition the Secretary for a waiver of a decision of the Secretary that a State law or regulation may not be enforced under this section. The Secretary shall grant the waiver, as expeditiously as possible, if the person demonstrates to the satisfaction of the Secretary that the waiver is consistent with the public interest and the safe operation of commercial motor vehicles.

(2) Before deciding whether to grant or deny a petition for a waiver under this subsection, the Secretary shall give the petitioner an opportunity for a hearing on the record.

(e) WRITTEN NOTICE OF DECISIONS.—Not later than 10 days after making a decision under subsection (c) of this section that a State law or regulation may not be enforced, the Secretary shall give written notice to the State of that decision.

(f) JUDICIAL REVIEW AND VENUE.—(1) Not later than 60 days after the Secretary makes a decision under subsection (c) of this section, or grants or denies a petition for a waiver under subsection (d) of this section, a person (including a State) adversely affected by the decision, grant, or denial may file a petition for judicial review. The petition may be filed in the court of appeals of the United States for the District of Columbia Circuit or in the court of appeals of the United States for the circuit in which the person resides or has its principal place of business.

(2) The court has jurisdiction to review the decision, grant, or denial and to grant appropriate relief, including interim relief, as provided in chapter 7 of title 5.

(3) A judgment of a court under this subsection may be reviewed only by the Supreme Court under section 1254 of title 28.

(4) The remedies provided for in this subsection are in addition to other remedies provided by law.

(g) INITIATING REVIEW PROCEEDINGS.—To review a State law or regulation on commercial motor vehicle safety under this section, the Secretary may initiate a regulatory proceeding on the Secretary's own initiative or on petition of an interested person (including a State). AMENDMENTS

1998—Subsecs. (b), (c). Pub. L. 105–178, §4008(e)(1), added subsecs. (b) and (c) and struck out headings and text of former subsecs. (b) and (c) which related to analysis and decisions by Commercial Motor Vehicle Safety Regulatory Review Panel and to review and decisions by Secretary, respectively.

Subsecs. (e) to (h). Pub. L. 105–178, §4008(e)(2), (3), redesignated subsecs. (f) to (h) as (e) to (g), respectively, and struck out heading and text of former subsec. (e). Text read as follows: "The Secretary may consolidate regulatory proceedings under this section if the Secretary decides that the consolidation will not adversely affect a party to a proceeding."

§31142. Inspection of vehicles

(a) **INSPECTION OF SAFETY EQUIPMENT.**—On the instruction of an authorized enforcement official of a State or of the United States Government, a commercial motor vehicle is required to pass an inspection of all safety equipment required under the regulations issued under section 31136.

(b) **INSPECTION OF VEHICLES AND RECORD RETENTION.**—The Secretary of Transportation shall prescribe regulations on Government standards for inspection of commercial motor vehicles and retention by employers of records of an inspection. The standards shall provide for annual or more frequent inspections of a commercial motor vehicle unless the Secretary finds that another inspection system is as effective as an annual or more frequent inspection system. Regulations prescribed under this subsection are deemed to be regulations prescribed under section 31136 of this title.

(c) **PREEMPTION.**—(1) Except as provided in paragraph (2) of this subsection, this subchapter and section 31102 of this title do not—

(A) prevent a State or voluntary group of States from imposing more stringent standards for use in their own periodic roadside inspection programs of commercial motor vehicles;

(B) prevent a State from enforcing a program for inspection of commercial motor vehicles that the Secretary decides is as effective as the Government standards prescribed under subsection (b) of this section;

(C) prevent a State from participating in the activities of a voluntary group of States enforcing a program for inspection of commercial motor vehicles; or

(D) require a State that is enforcing a program described in clause (B) or (C) of this paragraph to enforce a Government standard prescribed under subsection (b) of this section or to adopt a provision on inspection of commercial motor vehicles in addition to that program to comply with the Government standards.

(2) The Government standards prescribed under subsection (b) of this section shall preempt a program of a State described in paragraph (1)(C) of this subsection as the program applies to the inspection of commercial motor vehicles in that State. The State may not enforce the program if the Secretary—

(A) decides, after notice and an opportunity for a hearing, that the State is not enforcing the program in a way that achieves the objectives of this section; and

(B) after making a decision under clause (A) of this paragraph, provides the State with a 6-month period to improve the enforcement of the program to achieve the objectives of this section.

(d) **INSPECTION TO BE ACCEPTED AS ADEQUATE IN ALL STATES.**—A periodic inspection of a commercial motor vehicle under the Government standards prescribed under subsection (b) of this section or a program described in subsection (c)(1)(B) or (C) of this section that is being enforced shall be recognized as adequate in every State for the period of the inspection.

This subsection does not prohibit a State from making random inspections of commercial motor vehicles.

(e) EFFECT OF GOVERNMENT STANDARDS.—The Government standards prescribed under subsection (b) of this section may not be enforced as the standards apply to the inspection of commercial motor vehicles in a State enforcing a program described in subsection (c)(1)(B) or (C) of this section if the Secretary decides that it is in the public interest and consistent with public safety for the Government standards not to be enforced as they apply to that inspection.

(f) APPLICATION OF STATE REGULATIONS TO GOVERNMENT-LEASED VEHICLES AND OPERATORS.—A State receiving financial assistance under section 31102 of this title in a fiscal year may enforce in that fiscal year a regulation on commercial motor vehicle safety adopted by the State as the regulation applies to commercial motor vehicles and operators leased to the Government.

(B) The regulations prescribed under subparagraph (A) shall permit motor carriers—

(i) to conduct preemployment testing of commercial motor vehicle operators for the use of alcohol; and

(ii) to use hair testing as an acceptable alternative to urine testing—

(I) in conducting preemployment testing for the use of a controlled substance; and

(II) in conducting random testing for the use of a controlled substance if the operator was subject to hair testing for preemployment testing.

(C) When the Secretary of Transportation considers it appropriate in the interest of safety, the Secretary may prescribe regulations for conducting periodic recurring testing of operators of commercial motor vehicles for the use of alcohol or a controlled substance in violation of law or a Government regulation.

(2) In prescribing regulations under this subsection, the Secretary of Transportation—

(A) shall require that post-accident testing of an operator of a commercial motor vehicle be conducted when loss of human life occurs in an accident involving a commercial motor vehicle;

(B) may require that post-accident testing of such an operator be conducted when bodily injury or significant property damage occurs in any other serious accident involving a commercial motor vehicle; and

(C) shall provide an exemption from hair testing for commercial motor vehicle operators with established religious beliefs that prohibit the cutting or removal of hair.

(c) TESTING AND LABORATORY REQUIREMENTS.—In carrying out subsection (b) of this section, the Secretary of Transportation shall develop requirements that shall—

(C) appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances

testing in carrying out this section; and

(3) require that a laboratory involved in testing under this section have the capability and facility, at the laboratory, of performing screening and confirmation tests;

(4) provide that any test indicating the use of alcohol or a controlled substance in violation of law or a Government regulation be confirmed by a scientifically recognized method of testing capable of providing quantitative information about alcohol or a controlled substance;

(5) provide that each specimen be subdivided, secured, and labeled in the presence of the tested individual and that a part of the specimen be retained in a secure manner to prevent the possibility of tampering, so that if the individual's confirmation test results are positive the individual has an opportunity to have the retained part tested by a 2d confirmation test done independently at another certified laboratory if the individual requests the 2d confirmation test not later than 3 days after being advised of the results of the first confirmation test;

(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations that may be necessary and in consultation with the Secretary of Health and Human Services;

(7) provide for the confidentiality of test results and medical information (except information about alcohol or a controlled substance) of employees, except that this clause does not prevent the use of test results for the orderly imposition of appropriate sanctions under this section; and

(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

(d) **TESTING AS PART OF MEDICAL EXAMINATION.**—The Secretary of Transportation may provide that testing under subsection (a) of this section for operators subject to subpart E of part 391 of title 49, Code of Federal Regulations, be conducted as part of the medical examination required under that subpart.

The Secretary shall decide on the circumstances under which those operators shall be required to participate in a program. This section does not prevent a motor carrier from establishing a program under this section in cooperation with another motor carrier.

(f) **SANCTIONS.**—The Secretary of Transportation shall decide on appropriate sanctions for a commercial motor vehicle operator who is found, based on tests conducted and confirmed under this section, to have used alcohol or a controlled substance in violation of law or a Government regulation but who is not under the influence of alcohol or a controlled substance as provided in this chapter.

(g) **EFFECT ON STATE AND LOCAL GOVERNMENT REGULATIONS.**—A State or local government may not prescribe or continue in effect a law, regulation, standard, or order that is inconsistent with regulations prescribed under this section. However, a regulation prescribed under this section may not be construed to preempt a State criminal law that imposes sanctions for reckless conduct leading to loss of life, injury, or damage to property.

(h) **INTERNATIONAL OBLIGATIONS AND FOREIGN LAWS.**—In prescribing regulations under this section, the Secretary of Transportation—

(1) shall establish only requirements that are consistent with international obligations of the United States; and

(2) shall consider applicable laws and regulations of foreign countries.

Transportation from continuing in effect, amending, or further supplementing a regulation prescribed before October 28, 1991, governing the use of alcohol or a controlled substance by commercial motor vehicle employees.

(j) APPLICATION OF PENALTIES.—This section does not supersede a penalty applicable to an operator of a commercial motor vehicle under this chapter or another law.

§31315. Waivers, exemptions, and pilot programs

(a) **WAIVERS.**—The Secretary may grant a waiver that relieves a person from compliance in whole or in part with a regulation issued under this chapter or section 31136 if the Secretary determines that it is in the public interest to grant the waiver and that the waiver is likely to achieve a level of safety that is equivalent to, or greater than, the level of safety that would be obtained in the absence of the waiver—

- (1) for a period not in excess of 3 months;
- (2) limited in scope and circumstances;
- (3) for nonemergency and unique events; and
- (4) subject to such conditions as the Secretary may impose.

(b) **EXEMPTIONS.**—

(1) **IN GENERAL.**—Upon receipt of a request pursuant to this subsection, the Secretary of Transportation may grant to a person or class of persons an exemption from a regulation prescribed under this chapter or section 31136 if the Secretary finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.

(2) **LENGTH OF EXEMPTION AND RENEWAL.**—An exemption may be granted under paragraph (1) for no longer than 5 years and may be renewed, upon request, for subsequent 5-year periods if the Secretary continues to make the finding under paragraph (1).

(3) **OPPORTUNITY FOR RESUBMISSION.**—If the Secretary denies an application under paragraph (1) and the applicant can reasonably address the reason for the denial, the Secretary may allow the applicant to resubmit the application.

(4) **AUTHORITY TO REVOKE EXEMPTION.**—The Secretary shall immediately revoke an exemption if—

- (A) the person fails to comply with the terms and conditions of such exemption;
- (B) the exemption has resulted in a lower level of safety than was maintained before the exemption was granted; or
- (C) continuation of the exemption would not be consistent with the goals and objectives of this chapter or section 31136, as the case may be.

(5) **REQUESTS FOR EXEMPTION.**—Not later than 180 days after the date of enactment of this section and after notice and an opportunity for public comment, the Secretary shall specify by regulation the procedures by which a person may request an exemption. Such regulations shall, at a minimum, require the person to provide the following information for each exemption request:

- (A) The provisions from which the person requests exemption.
- (B) The time period during which the requested exemption would apply.
- (C) An analysis of the safety impacts the requested exemption may cause.
- (D) The specific countermeasures the person would undertake to ensure an equivalent or greater level of safety than would be achieved absent the requested exemption.

(6) NOTICE AND COMMENT.—

(A) UPON RECEIPT OF A REQUEST.—Upon receipt of an exemption request, the Secretary shall publish in the Federal Register (or, in the case of a request for an exemption from the physical qualification standards for commercial motor vehicle drivers, post on a web site established by the Secretary to implement the requirements of section 31149) a notice explaining the request that has been filed and shall give the public an opportunity to inspect the safety analysis and any other relevant information known to the Secretary and to comment on the request. This subparagraph does not require the release of information protected by law from public disclosure.

(B) UPON GRANTING A REQUEST.—Upon granting a request and before the effective date of the exemption, the Secretary shall publish in the Federal Register (or, in the case of an exemption from the physical qualification standards for commercial motor vehicle drivers, post on a web site established by the Secretary to implement the requirements of section 31149) the name of the person granted the exemption, the provisions from which the person is exempt, the effective period, and the terms and conditions of the exemption.

(C) AFTER DENYING A REQUEST.—After denying a request for exemption, the Secretary shall publish in the Federal Register (or, in the case of a request for an exemption from the physical qualification standards for commercial motor vehicle drivers, post on a web site established by the Secretary to implement the requirements of section 31149) the name of the person denied the exemption and the reasons for such denial. The Secretary may meet the requirement of this subparagraph by periodically publishing in the Federal Register the names of persons denied exemptions and the reasons for such denials.

(7) APPLICATIONS TO BE DEALT WITH PROMPTLY.—The Secretary shall grant or deny an exemption request after a thorough review of its safety implications, but in no case later than 180 days after the filing date of such request.

(8) TERMS AND CONDITIONS.—The Secretary shall establish terms and conditions for each exemption to ensure that it will likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The Secretary shall monitor the implementation of the exemption to ensure compliance with its terms and conditions.

(9) NOTIFICATION OF STATE COMPLIANCE AND ENFORCEMENT PERSONNEL.—Before the effective date of an exemption, the Secretary shall notify a State safety compliance and enforcement agency, and require the agency to notify the State's roadside inspectors, that a person will be operating pursuant to an exemption and the terms and conditions that apply to the exemption.

(c) PILOT PROGRAMS.—

(1) IN GENERAL.—The Secretary may conduct pilot programs to evaluate alternatives to regulations relating to, or innovative approaches to, motor carrier, commercial motor vehicle, and driver safety. Such pilot programs may include exemptions from a regulation prescribed under this chapter or section 31136 if the pilot program contains, at a minimum, the elements described in paragraph (2). The Secretary shall publish a detailed description of each pilot program, including the exemptions to be considered, and provide notice and an opportunity for public comment before the effective date of the program.

(2) PROGRAM ELEMENTS.—In proposing a pilot program and before granting exemptions for purposes of a pilot program, the Secretary shall require, as a condition of approval of the project, that the safety measures in the project are designed to achieve a level of safety that is equivalent to, or greater than, the level of safety that would otherwise be achieved through compliance with the regulations prescribed under this chapter or section 31136. The Secretary shall include, at a minimum, the following elements in each pilot program plan:

(A) A scheduled life of each pilot program of not more than 3 years.

(B) A specific data collection and safety analysis plan that identifies a method for comparison.

- (C) A reasonable number of participants necessary to yield statistically valid findings.
- (D) An oversight plan to ensure that participants comply with the terms and conditions of participation.
- (E) Adequate countermeasures to protect the health and safety of study participants and the general public.
- (F) A plan to inform State partners and the public about the pilot program and to identify approved participants to safety compliance and enforcement personnel and to the public.

(3) **AUTHORITY TO REVOKE PARTICIPATION.**—The Secretary shall immediately revoke participation in a pilot program of a motor carrier, commercial motor vehicle, or driver for failure to comply with the terms and conditions of the pilot program or if continued participation would not be consistent with the goals and objectives of this chapter or section 31136, as the case may be.

(4) **AUTHORITY TO TERMINATE PROGRAM.**—The Secretary shall immediately terminate a pilot program if its continuation would not be consistent with the goals and objectives of this chapter or section 31136, as the case may be.

(5) **REPORT TO CONGRESS.**—At the conclusion of each pilot program, the Secretary shall report to Congress the findings, conclusions, and recommendations of the program, including suggested amendments to laws and regulations that would enhance motor carrier, commercial motor vehicle, and driver safety and improve compliance with national safety standards.

(d) **PREEMPTION OF STATE RULES.**—During the time period that a waiver, exemption, or pilot program is in effect under this chapter or section 31136, no State shall enforce any law or regulation that conflicts with or is inconsistent with the waiver, exemption, or pilot program with respect to a person operating under the waiver or exemption or participating in the pilot program.

(e) **REPORT TO CONGRESS.**—The Secretary shall submit an annual report to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives listing the waivers, exemptions, and pilot programs granted under this section, and any impacts on safety.

(f) **WEB SITE.**—The Secretary shall ensure that the Federal Motor Carrier Safety Administration web site includes a link to the web site established by the Secretary to implement the requirements under sections 31149 and 31315. The link shall be in a clear and conspicuous location on the home page of the Federal Motor Carrier Safety Administration web site and be easily accessible to the public.

(g) **LIMITATIONS ON MUNICIPALITY AND COMMERCIAL ZONE EXEMPTIONS AND WAIVERS.**—(1) The Secretary may not—

(A) exempt a person or commercial motor vehicle from a regulation related to commercial motor vehicle safety only because the operations of the person or vehicle are entirely in a municipality or commercial zone of a municipality; or

(B) waive application to a person or commercial motor vehicle of a regulation related to commercial motor vehicle safety only because the operations of the person or vehicle are entirely in a municipality or commercial zone of a municipality.

(2) If a person was authorized to operate a commercial motor vehicle in a municipality or commercial zone of a municipality in the United States for the entire period from November 19, 1987, through November 18, 1988, and if the person is otherwise qualified to operate a commercial motor vehicle, the person may operate a commercial motor vehicle entirely in a municipality or commercial zone of a municipality notwithstanding—

(A) paragraph (1) of this subsection;

(B) a minimum age requirement of the United States Government for operation of the vehicle; and

(C) a medical or physical condition that—

(i) would prevent an operator from operating a commercial motor vehicle under the

commercial motor vehicle safety regulations in title 49, Code of Federal Regulations;

(ii) existed on July 1, 1988;

(iii) has not substantially worsened; and

(iv) does not involve alcohol or drug abuse.

(3) This subsection does not affect a State commercial motor vehicle safety law applicable to intrastate commerce.

(C) the driver has at least 10 consecutive hours off duty following each 14 hours on duty;

---------	--	---

Throughout the chapter, the words "Secretary of Transportation" are substituted for "Interstate Commerce Commission" because 49:1655(e)(6)(B)–(D) transferred the authority of the Interstate Commerce Commission under the provisions restated in this chapter to the Secretary of Transportation.

Subsection (a) is included to maintain the jurisdictional scope of the source provisions from which subsections (b) and (c) of the revised section are taken. Subsections (b) and (c) are based on 49:304 which, as part of 49:ch. 8, is now restated as subchapter II of chapter 105 of the revised title. In addition, 49:303(a)(11) (last sentence) extended the jurisdictional scope of 49:304 as provided in subsection (a) of the revised section.

In subsection (b), before clause (1), the words "and to that end" are omitted as surplus. The word "prescribe" is substituted for "establish" for consistency. The word "reasonable" is omitted as surplus.

In subsection (b)(1), the words "as provided in this chapter" are omitted as unnecessary because of the restatement. The term "motor carrier" is substituted for "common carriers by motor vehicle" and "contract carriers by motor vehicle" because they are inclusive.

In subsection (b)(2), the words "when needed" are substituted for "if need therefor is found" to eliminate unnecessary words.

In subsection (c), the word "prescribe" is substituted for "establish" for consistency. The word "reasonable" is omitted as surplus. The words "for a total distance of" are omitted as unnecessary because of the restatement. The words "at least" are substituted for "more than" for consistency. The word "line" is omitted as surplus. The words "possession of the United States" are added for consistency in the revised title. The words "a foreign country" and "the District of Columbia" are omitted as unnecessary because a carrier crossing the boundary of a foreign country or the District of Columbia into or from the United States would necessarily cross the boundary of a State and be covered by the provision related to a State.

In clause (1), the text of 15:1901(11) is omitted as surplus because the complete title of the Secretary of Transportation is used the first time the term appears in a section. The definition of "property loss reduction standard" is combined with the definition of "bumper standard" because the former term is used only in the definition of the latter term. Before subclause (A), the words "the purpose of which is" and "eliminate" are omitted as surplus. In subclauses (A) and (B), the words "(or both)" are omitted as surplus. In subclause (A), the word "physical" is omitted as surplus.

In clause (2), the words "of passenger motor vehicles" and "engaged" are omitted as surplus.

In clause (5)(A), the words "manufacturing or assembling" are substituted for "engaged in the manufacturing or assembling of" to eliminate unnecessary words.

In clause (8), the words "maintenance or operation" are substituted for "operation, maintenance, or use" to eliminate an unnecessary word.

In clauses (12) and (13), the words "the Northern Mariana Islands" are added because of section 502(a)(2) of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, as enacted by the Act of March 24, 1976 (Public Law 94–241, 90 Stat. 268), and as proclaimed to be in effect by the President on January 9, 1978 (Proc. No. 4534, Oct. 24, 1977, 42 F.R. 56593). The words "the Canal Zone" are omitted because of the Panama Canal Treaty of 1977.

In clause (12), the word "means" is substituted for "includes" as being more appropriate. The words "a State

of the United States" are substituted for "each of the several States" for consistency in the revised title and with other titles of the United States Code.

In clause (13), the words "of the Commonwealth of Puerto Rico" are omitted as surplus because the district court of Puerto Rico is a district court of the United States under 28:119.

PUB. L. 103-429

This makes a conforming amendment to 49:32101 necessary because of the amendment to 49:32304(a)(11) made by section 6(29) of the bill and to clarify the restatement of 15:1901 by section 1 of the Act of July 5, 1994 (Public Law 103-272, 108 Stat. 1034).

- (3) the degree of difficulty of diagnosis and repair of damage to, or failure of, mechanical and electrical systems.

(b) **MOTOR VEHICLE INFORMATION.**—To assist a consumer in buying a passenger motor vehicle, the Secretary shall provide to the public information developed under subsection (a) of this section. The information shall be in a simple and understandable form that allows comparison of the characteristics referred to in subsection (a)(1)–(3) of this section among the makes and models of passenger motor vehicles. The Secretary may require passenger motor vehicle dealers to distribute the information to prospective buyers. The Secretary, after providing an opportunity for public comment, shall study and report to Congress the most useful data, format, and method for providing simple and understandable damage susceptibility information to consumers.

(c) **CRASH AVOIDANCE.**—Not later than 1 year after the date of enactment of the Safety Through Informed Consumers Act of 2015, the Secretary shall promulgate a rule to ensure that crash avoidance information is indicated next to crashworthiness information on stickers placed on motor vehicles by their manufacturers.

(d) **MOTOR VEHICLE DEFECT REPORTING INFORMATION.**—

(1) **RULEMAKING REQUIRED.**—Not later than 1 year after the date of enactment of the Motor Vehicle and Highway Safety Improvement Act of 2012, the Secretary shall prescribe regulations that require passenger motor vehicle manufacturers—

(A) to affix, in the glove compartment or in another readily accessible location on the vehicle, a sticker, decal, or other device that provides, in simple and understandable language, information about how to submit a safety-related motor vehicle defect complaint to the National Highway Traffic Safety Administration;

(B) to prominently print the information described in subparagraph (A) within the owner's manual; and

(C) to not place such information on the label required under section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232).

(2) **APPLICATION.**—The requirements under paragraph (1) shall apply to passenger motor vehicles manufactured in any model year beginning more than 1 year after the date on which a final rule is published under paragraph (1).

(e) **ADVANCED CRASH-AVOIDANCE TECHNOLOGIES.**—

(1) **NOTICE.**—Not later than 1 year after the date of enactment of this subsection, the Secretary shall publish a notice, for purposes of public review and comment, to establish, distinct from crashworthiness information, a means for providing to consumers information relating to advanced crash-avoidance technologies, in accordance with subsection (a).

(2) **INCLUSIONS.**—The notice under paragraph (1) shall include—

(A) an appropriate methodology for—

- (i) determining which advanced crash-avoidance technologies shall be included in the information;
- (ii) developing performance test criteria for use by manufacturers in evaluating advanced crash-avoidance technologies;
- (iii) determining a distinct rating involving each advanced crash-avoidance technology to be included; and
- (iv) updating overall vehicle ratings to incorporate advanced crash-avoidance technology ratings; and

(B) such other information and analyses as the Secretary determines to be necessary to implement the rating of advanced crash-avoidance technologies.

(3) **REPORT.**—Not later than 18 months after the date of enactment of this subsection, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that describes a plan for implementing an advanced crash-avoidance technology information and rating system, in accordance with subsection (a).

(f) **VULNERABLE ROAD USER SAFETY.**—

(1) **NOTICE.**—Not later than 1 year after the date of enactment of this subsection, the Secretary shall publish a notice, for purposes of public review and comment, to establish a means for providing to consumers information relating to pedestrian, bicyclist, or other vulnerable road user safety technologies, in accordance with subsection (a).

(2) **INCLUSIONS.**—The notice under paragraph (1) shall include—

(A) an appropriate methodology for—

- (i) determining which technologies shall be included in the information;
- (ii) developing performance test criteria for use by manufacturers in evaluating the extent to which automated pedestrian safety systems in light vehicles attempt to prevent and mitigate, to the best extent possible, pedestrian injury;
- (iii) determining a distinct rating involving each technology to be included; and
- (iv) updating overall vehicle ratings to incorporate vulnerable road user safety technology ratings; and

(B) such other information and analyses as the Secretary determines to be necessary to implement the rating of vulnerable road user safety technologies.

(3) **REPORT.**—Not later than 18 months after the date of enactment of this subsection, the Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that describes a plan for implementing an information and rating system for vulnerable road user safety technologies, in accordance with subsection (a).

§32304. Passenger motor vehicle country of origin labeling

(a) DEFINITIONS.—In this section—

(1) "allied supplier" means a supplier of passenger motor vehicle equipment that is wholly owned by the manufacturer, or if a joint venture vehicle assembly arrangement, a supplier that is wholly owned by one member of the joint venture arrangement.

(2)(A) "carline"—

(i) means a name given a group of passenger motor vehicles that has a degree of commonality in construction such as body and chassis;

(ii) does not consider a level of decor or opulence; and

(iii) except for light duty trucks, is not generally distinguished by characteristics such as roof line, number of doors, seats, or windows; and

(B) light duty trucks are different carlines than passenger motor vehicles.

(3) "country of origin", when referring to the origin of an engine or transmission, means the country from which the largest share of the dollar value added to an engine or transmission has originated—

(A) with the United States and Canada treated as separate countries; and

(B) the estimate of the percentage of the dollar value shall be based on the purchase price of direct materials, as received at individual engine or transmission plants, of engines of the same displacement and transmissions of the same transmission type, plus the assembly and labor costs incurred for the final assembly of such engines and transmissions.

(4) "dealer" means a person residing or located in the United States, including the District of Columbia or a territory or possession of the United States, and engaged in selling or distributing new passenger motor vehicles to the ultimate purchaser.

(5) "final assembly place" means the plant, factory, or other place at which a new passenger motor vehicle is produced or assembled by a manufacturer, and from which the vehicle is delivered to a dealer or importer with all component parts necessary for the mechanical operation of the vehicle included with the vehicle, whether or not the component parts are permanently installed in or on the vehicle. Such term does not include facilities for engine and transmission fabrication and assembly and the facilities for fabrication of motor vehicle equipment component parts which are produced at the same final assembly place using forming processes such as stamping, machining, or molding processes.

(6) "foreign content" means passenger motor vehicle equipment that is not of United States/Canadian origin.

(7) "manufacturer" means a person—

(A) engaged in manufacturing or assembling new passenger motor vehicles;

(B) importing new passenger motor vehicles for resale; or

(C) acting for and under the control of such a manufacturer, assembler, or importer in connection with the distribution of new passenger motor vehicles.

(8) "new passenger motor vehicle" means a passenger motor vehicle for which a manufacturer, distributor, or dealer has never transferred the equitable or legal title to the vehicle to an ultimate purchaser.

(9) "of United States/Canadian origin", when referring to passenger motor vehicle equipment, means—

(A) for an outside supplier—

(i) the full purchase price of passenger motor vehicle equipment whose purchase price contains at least 70 percent value added in the United States and Canada; or

(ii) that portion of the purchase price of passenger motor vehicle equipment containing less than 70 percent value added in the United States and Canada that is attributable to the percent value added in the United States and Canada when such percent is expressed to the nearest 5

percent; and

(B) for an allied supplier, that part of the individual passenger motor vehicle equipment whose purchase price the manufacturer determines remains after subtracting the total of the purchase prices of all material of foreign content purchased from outside suppliers, with the determination of the United States/Canadian origin or of the foreign content from outside suppliers being consistent with subclause (A) of this clause.

(10) "outside supplier" means a supplier of passenger motor vehicle equipment to a manufacturer's allied supplier, or a person other than an allied supplier, who ships directly to the manufacturer's final assembly place.

(11) "passenger motor vehicle" has the same meaning given that term in section 32101(10) of this title, except that it includes any multi-purpose vehicle or light duty truck when that vehicle or truck is rated at not more than 8,500 pounds gross vehicle weight.

(12) "passenger motor vehicle equipment"—

(A) means a system, subassembly, or component received at the final vehicle assembly place for installation on, or attachment to, a passenger motor vehicle at the time of its first shipment by the manufacturer to a dealer for sale to an ultimate purchaser; but

(B) does not include minor parts (including nuts, bolts, clips, screws, pins, braces, and other attachment hardware) and other similar items the Secretary of Transportation may prescribe by regulation after consulting with manufacturers and labor.

(13) "percentage (by value)", when referring to passenger motor vehicle equipment of United States/Canadian origin, means the percentage remaining after subtracting the percentage (by value) of passenger motor vehicle equipment that is not of United States/Canadian origin that will be installed or included on those vehicles produced in a carline, from 100 percent—

(A) with value being expressed in terms of the purchase price; and

(B) for outside suppliers and allied suppliers, the value used is the purchase price of the equipment paid at the final assembly place.

(14) "State" means a State of the United States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, Guam, American Samoa, and the Virgin Islands.

(15) "value added in the United States and Canada" means a percentage determined by subtracting the total purchase price of foreign content from the total purchase price, and dividing the remainder by the total purchase price, excluding costs incurred or profits made at the final assembly place and beyond (including advertising, assembly, labor, interest payments, and profits), with the following groupings being used:

(A) engines of same displacement produced at the same plant.

(B) transmissions of the same type produced at the same plant.

(b) **MANUFACTURER REQUIREMENT.**—(1) Each manufacturer of a new passenger motor vehicle manufactured after September 30, 1994, and distributed in commerce for sale in the United States, shall establish each year for each model year and cause to be attached in a prominent place on each of those vehicles, at least one label. The label shall contain the following information:

(A) the percentage (by value) of passenger motor vehicle equipment of United States/Canadian origin installed on vehicles in the carline to which that vehicle belongs, identified by the words "U.S./Canadian content".

(B) the final assembly place for that vehicle by city, State (where appropriate) and country.

(C) if at least 15 percent (by value) of equipment installed on passenger motor vehicles in a carline originated in any country other than the United States and Canada, the names of at least the 2 countries in which the greatest amount (by value) of that equipment originated and the percentage (by value) of the equipment originating in each country.

(D) the country of origin of the engine and the transmission for each vehicle.

(2) At the beginning of each model year, each manufacturer shall establish the percentages required for each carline to be indicated on the label under this subsection. Those percentages are applicable to that carline for the entire model year. A manufacturer may round those percentages to the nearest 5 percent.

(3) A manufacturer complying with the requirement of paragraph (1)(B) of this subsection satisfies the disclosure requirement of section 3(b) of the Automobile Information Disclosure Act (15 U.S.C. 1232(b)).

(c) **VEHICLE CONTENT PERCENTAGE BY ASSEMBLY PLANT.**—A manufacturer may display separately on the label required by subsection (b) the domestic content of a vehicle based on the assembly plant. Such display shall occur after the matter required to be in the label by subsection (b)(1)(A).

(d) **VALUE ADDED DETERMINATION.**—If a manufacturer or allied supplier requests information in a timely manner from one or more of its outside suppliers concerning the United States/Canadian content of particular equipment, but does not receive that information despite a good faith effort to obtain it, the manufacturer or allied supplier may make its own good faith value added determinations, subject to the following:

(1) The manufacturer or allied supplier shall make the same value added determinations as would be made by the outside supplier, that is, whether 70 percent or more of the value of equipment is added in the United States and/or Canada.

(2) The manufacturer or allied supplier shall consider the amount of value added and the location in which the value was added for all of the stages that the outside supplier would be required to consider.

(3) The manufacturer or allied supplier may determine that the value added in the United States and/or Canada is 70 percent or more only if it has a good faith basis to make that determination.

(4) A manufacturer and its allied suppliers may, on a combined basis, make value added determinations for no more than 10 percent, by value, of a carline's total parts content from outside suppliers.

(5) Value added determinations made by a manufacturer or allied supplier under this paragraph shall have the same effect as if they were made by the outside supplier.

(6) This provision does not affect the obligation of outside suppliers to provide the requested information.

(e) **SMALL PARTS.**—The country of origin of nuts, bolts, clips, screws, pins, braces, gasoline, oil, blackout, phosphate rinse, windshield washer fluid, fasteners, tire assembly fluid, rivets, adhesives, and grommets, of any system, subassembly, or component installed in a vehicle shall be considered to be the country in which such parts were included in the final assembly of such vehicle.

(f) **DEALER REQUIREMENT.**—Each dealer engaged in the sale or distribution of a new passenger motor vehicle manufactured after September 30, 1994, shall cause to be maintained on that vehicle the label required to be attached to that vehicle under subsection (b) of this section.

(g) **FORM AND CONTENT OF LABEL.**—The Secretary of Transportation shall prescribe by regulation the form and content of the label required under subsection (b) of this section and the manner and location in which the label is attached. The Secretary shall permit a manufacturer to comply with this section by allowing the manufacturer to disclose the information required under subsection (b)(1) on the label required by section 3 of the Automobile Information Disclosure Act (15 U.S.C. 1232), on the label required by section 32908 of this title, or on a separate label that is readily visible. A manufacturer may add to the label required under subsection (b) a line stating the country in which vehicle assembly was completed.

(h) **REGULATIONS.**—In consultation with the Secretaries of Commerce and the Treasury, the Secretary of Transportation shall prescribe regulations necessary to carry out this section, including regulations establishing a procedure to verify the label information required under subsection (b)(1) of this section. Those regulations shall provide the ultimate purchaser of a new passenger motor vehicle with the best and most understandable information possible about the foreign content and

The regulations shall include provisions applicable to outside suppliers and allied suppliers to require those suppliers to certify whether passenger motor vehicle equipment provided by those suppliers is of United States origin, of United States/Canadian origin, or of foreign content and to provide other information the Secretary of Transportation decides is necessary to allow each manufacturer to comply reasonably with this section and to rely on that certification and information.

(i) **PREEMPTION.**—(1) When a label content requirement prescribed under this section is in effect, a State or a political subdivision of a State may not adopt or enforce a law or regulation related to the content of vehicles covered by a requirement under this section.

(2) A State or a political subdivision of a State may prescribe requirements related to the content of passenger motor vehicles obtained for its own use.

In this section, the words "passenger motor vehicle" and "vehicle" are substituted for "automobile" because the defined terms used in the operative provisions of the law being restated are "passenger motor vehicle" and "new passenger motor vehicle". The words "final assembly place" are substituted for "final assembly point" for clarity and consistency in the revised title and with other titles of the United States Code.

In subsection (a)(2)(A)(i), the word "given" is substituted for "denoting" for clarity. The words "passenger motor" are added for clarity and consistency in the revised section.

In section (a)(2)(A)(ii), the words "decor or opulence" are substituted for "decor of opulence" for clarity.

In subsection (a)(3), before subclause (A), the words "from which the largest share of the dollar value added to . . . has originated" are substituted for "in which 50 percent or more of the dollar value added of . . . originated. If no country accounts for 50 percent or more of the dollar value, then the country of origin is the country from which the largest share of the value added originated" for clarity and to eliminate unnecessary words. In subclause (A), the word "with" is substituted for "For the purpose of determining the country of origin for engines and transmissions" are omitted as unnecessary.

In subsection (a)(4), the word "possession" is added for clarity and consistency in the revised title and with other titles of the Code.

"U.S./Canadian origin" are omitted as unnecessary because of the defined term "of United States/Canadian origin". In subclause (A), the words "passenger motor vehicle equipment whose purchase price contains" are substituted for "the purchase price of automotive equipment which contains" for clarity. In subclause (B), the words "that part of the individual passenger motor vehicle equipment whose purchase price the manufacturer determines remains after subtracting the total of the purchase price of all material of foreign content purchased from outside suppliers" are substituted for "the manufacturer shall determine the foreign content of any passenger motor vehicle equipment supplied by the allied supplier by adding up the purchase price of all foreign material purchased from outside suppliers that comprise the individual passenger motor vehicle equipment and subtracting such purchase price from the total purchase price of such equipment" for clarity.

In subsection (a)(10), the word "person" is substituted for "anyone" for clarity and consistency in the revised title.

In subsection (a)(11), the words "a motor vehicle with motive power, manufactured primarily for use on public streets, roads, and highways, and designed to carry not more than 12 individuals . . . not including . . . a motorcycle; or . . . a truck not designed primarily to carry its operator or passengers" are substituted for "has the meaning provided in section 1901(1) of this title" for clarity.

In subsection (a)(15), before subclause (A), the words " 'Value added' equals" are omitted as unnecessary because of the restatement.

The text of 15:1950(f)(2) is omitted as unnecessary because of 1:1. The text of 15:1950(f)(8) is omitted because the complete title of the Secretary of Transportation is used the first time the term appears in a section.

In subsection (b)(1)(A), the words "to which that vehicle belongs" are added for clarity.

In subsection (b)(3), the text of 15:1950(b)(3) (1st sentence) is omitted as unnecessary because of the source provisions restated in this subsection.

Subsection (c) is substituted for "and each dealer shall cause to be maintained" for clarity and because of the restatement.

In subsection (e), the words "passenger motor vehicle equipment" are substituted for "a component" for clarity and for consistency with the defined term. The text of 15:1950(d) (last sentence) is omitted as unnecessary because of section 32308 of the revised title. §32502. Bumper standards

(a) **GENERAL REQUIREMENTS AND NONAPPLICATION.**—The Secretary of Transportation shall prescribe by regulation bumper standards for passenger motor vehicles and may prescribe by regulation bumper standards for passenger motor vehicle equipment manufactured in, or imported into, the United States. A standard does not apply to a passenger motor vehicle or passenger motor vehicle equipment—

- (1) intended only for export;
- (2) labeled for export on the vehicle or equipment and the outside of any container of the vehicle or equipment; and
- (3) exported.

(b) **LIMITATIONS.**—A standard under this section—

- (1) may not conflict with a motor vehicle safety standard prescribed under chapter 301 of this title;
- (2) may not specify a dollar amount for the cost of repairing damage to a passenger motor vehicle; and
- (3) to the greatest practicable extent, may not preclude the attachment of a detachable hitch.

(c) **EXEMPTIONS.**—For good cause, the Secretary may exempt from all or any part of a standard—

- (1) a multipurpose passenger vehicle;
- (2) a make, model, or class of a passenger motor vehicle manufactured for a special use, if the standard would interfere unreasonably with the special use of the vehicle; or
- (3) a passenger motor vehicle for which an application for an exemption under section 30013(b) ¹ of this title has been filed in accordance with the requirements of that section.

(d) **COST REDUCTION AND CONSIDERATIONS.**—When prescribing a standard under this section, the Secretary shall design the standard to obtain the maximum feasible reduction of costs to the public, considering—

- (1) the costs and benefits of carrying out the standard;
- (2) the effect of the standard on insurance costs and legal fees and costs;
- (3) savings in consumer time and inconvenience; and
- (4) health and safety, including emission standards.

(e) **PROCEDURES.**—Section 553 of title 5 applies to a standard prescribed under this section. However, the Secretary shall give an interested person an opportunity to make oral and written presentations of information, views, and arguments. A transcript of each oral presentation shall be kept. Under conditions prescribed by the Secretary, the Secretary may conduct a hearing to resolve an issue of fact material to a standard.

(f) **EFFECTIVE DATE.**—The Secretary shall prescribe an effective date for a standard under this section. That date may not be earlier than the date the standard is prescribed nor later than 18 months after the date the standard is prescribed. However, the Secretary may prescribe a later date when the

Secretary submits to Congress and publishes the reasons for the later date. A standard only applies to a passenger motor vehicle or passenger motor vehicle equipment manufactured on or after the effective date.

(g) **RESEARCH.**—The Secretary shall conduct research necessary to carry out this chapter.

(1) the sale, offer for sale, or introduction or delivery for introduction in interstate commerce of a passenger motor vehicle or passenger motor vehicle equipment after the first purchase of the vehicle or equipment in good faith other than for resale (but this clause does not prohibit a standard from requiring that a vehicle or equipment be manufactured to comply with the standard over a specified period of operation or use); or

(2) a person—

(A) establishing that the person had no reason to know, by exercising reasonable care, that the vehicle or equipment does not comply with the standard; or

AMENDMENTS

1998—Subsec. (a). Pub. L. 105–277 inserted "and section 32502 of this title" after "Except as provided in this section" in introductory provisions.

§32507. Penalties and enforcement

(a) **CIVIL PENALTY.**—(1) A person that violates section 32506(a) of this title is liable to the United States Government for a civil penalty of not more than \$1,000 for each violation. A separate violation occurs for each passenger motor vehicle or item of passenger motor vehicle equipment involved in a violation of section 32506(a)(1) or (4) of this title—

(A) that does not comply with a standard prescribed under section 32502 of this title; or

(B) for which a certificate is not provided, or for which a false or misleading certificate is provided, under section 32504 of this title.

(2) The maximum civil penalty under this subsection for a related series of violations is \$800,000.

(3) The Secretary of Transportation imposes a civil penalty under this subsection. The Attorney General or the Secretary, with the concurrence of the Attorney General, shall bring a civil action in a United States district court to collect the penalty.

(b) **CRIMINAL PENALTY.**—A person knowingly and willfully violating section 32506(a)(1) of this title after receiving a notice of noncompliance from the Secretary shall be fined under title 18, imprisoned for not more than one year, or both. If the person is a corporation, the penalties of this subsection also apply to a director, officer, or individual agent of the corporation who, with knowledge of the Secretary's notice, knowingly and willfully authorizes, orders, or performs an act that is any part of the violation.

(c) **CIVIL ACTIONS TO ENFORCE.**—(1) The Secretary or the Attorney General may bring a civil action in a United States district court to enjoin a violation of this chapter or the sale, offer for sale, introduction or delivery for introduction in interstate commerce, or importation into the United States, of a passenger motor vehicle or passenger motor vehicle equipment that is found, before the first purchase in good faith other than for resale, not to comply with a standard prescribed under section 32502 of this title.

(2) When practicable, the Secretary shall—

(A) notify a person against whom an action under this subsection is planned;

(B) give the person an opportunity to present that person's views; and

(C) except for a knowing and willful violation, give the person a reasonable opportunity to comply.

(3) The failure of the Secretary to comply with paragraph (2) of this subsection does not prevent a court from granting appropriate relief.

(d) **JURY TRIAL DEMAND.**—In a trial for criminal contempt for violating an injunction or restraining order issued under subsection (c) of this section, the violation of which is also a violation of this chapter, the defendant may demand a jury trial. The defendant shall be tried as provided in rule 42(b) of the Federal Rules of Criminal Procedure (18 App. U.S.C.).

(e) **VENUE.**—A civil action under subsection (a) or (c) of this section may be brought in the judicial district in which the violation occurred or the defendant is found, resides, or does business. Process in the action may be served in any other judicial district in which the defendant resides or is found. A subpoena for a witness in the action may be served in any judicial district.

§32705. Disclosure requirements on transfer of motor vehicles

(a)(1) **DISCLOSURE REQUIREMENTS.**—Under regulations prescribed by the Secretary of Transportation that include the way in which information is disclosed and retained under this section, a person transferring ownership of a motor vehicle shall give the transferee the following written disclosure:

(A) Disclosure of the cumulative mileage registered on the odometer.

(B) Disclosure that the actual mileage is unknown, if the transferor knows that the odometer reading is different from the number of miles the vehicle has actually traveled.

(2) A person transferring ownership of a motor vehicle may not violate a regulation prescribed

under this section or give a false statement to the transferee in making the disclosure required by such a regulation.

(3) A person acquiring a motor vehicle for resale may not accept a written disclosure under this section unless it is complete.

(4)(A) This subsection shall apply to all transfers of motor vehicles (unless otherwise exempted by the Secretary by regulation), except in the case of transfers of new motor vehicles from a vehicle manufacturer jointly to a dealer and a person engaged in the business of renting or leasing vehicles for a period of 30 days or less.

(B) For purposes of subparagraph (A), the term "new motor vehicle" means any motor vehicle driven with no more than the limited use necessary in moving, transporting, or road testing such vehicle prior to delivery from the vehicle manufacturer to a dealer, but in no event shall the odometer reading of such vehicle exceed 300 miles.

(5) The Secretary may exempt such classes or categories of vehicles as the Secretary deems appropriate from these requirements. Until such time as the Secretary amends or modifies the regulations set forth in 49 CFR 580.6, such regulations shall have full force and effect.

(b) MILEAGE STATEMENT REQUIREMENT FOR LICENSING.—(1) A motor vehicle the ownership of which is transferred may not be licensed for use in a State unless the transferee, in submitting an application to a State for the title on which the license will be issued, includes with the application the transferor's title and, if that title contains the space referred to in paragraph (3)(A)(iii) of this subsection, a statement, signed and dated by the transferor, of the mileage disclosure required under subsection (a) of this section. This paragraph does not apply to a transfer of ownership of a motor vehicle that has not been licensed before the transfer.

(2)(A) Under regulations prescribed by the Secretary, if the title to a motor vehicle issued to a transferor by a State is in the possession of a lienholder when the transferor transfers ownership of the vehicle, the transferor may use a written power of attorney (if allowed by State law) in making the mileage disclosure required under subsection (a) of this section. Regulations prescribed under this paragraph—

(i) shall prescribe the form of the power of attorney;

(ii) shall provide that the form be printed by means of a secure printing process (or other secure process);

(iii) shall provide that the State issue the form to the transferee;

(iv) shall provide that the person exercising the power of attorney retain a copy and submit the original to the State with a copy of the title showing the restatement of the mileage;

(v) may require that the State retain the power of attorney and the copy of the title for an appropriate period or that the State adopt alternative measures consistent with section 32701(b) of this title, after considering the costs to the State;

(vi) shall ensure that the mileage at the time of transfer be disclosed on the power of attorney document;

(vii) shall ensure that the mileage be restated exactly by the person exercising the power of attorney in the space referred to in paragraph (3)(A)(iii) of this subsection;

(viii) may not require that a motor vehicle be titled in the State in which the power of attorney was issued;

(ix) shall consider the need to facilitate normal commercial transactions in the sale or exchange of motor vehicles; and

(x) shall provide other conditions the Secretary considers appropriate.

(B) Section 32709(a) and (b) applies to a person granting or granted a power of attorney under this paragraph.

(3)(A) A motor vehicle the ownership of which is transferred may not be licensed for use in a State unless the title issued by the State to the transferee—

(i) is produced by means of a secure printing process (or other secure process);

(ii) indicates the mileage disclosure required to be made under subsection (a) of this section; and

(iii) contains a space for the transferee to disclose the mileage at the time of a future transfer and to sign and date the disclosure.

(B) Subparagraph (A) of this paragraph does not require a State to verify, or preclude a State from verifying, the mileage information contained in the title.

(c) **LEASED MOTOR VEHICLES.**—(1) For a leased motor vehicle, the regulations prescribed under subsection (a) of this section shall require written disclosure about mileage to be made by the lessee to the lessor when the lessor transfers ownership of that vehicle.

(2) Under those regulations, the lessor shall provide written notice to the lessee of—

(A) the lessee's mileage disclosure requirements under paragraph (1) of this subsection; and

(B) the penalties for failure to comply with those requirements.

(3) The lessor shall retain the disclosures made by a lessee under paragraph (1) of this subsection for at least 4 years following the date the lessor transfers the leased motor vehicle.

(4) If the lessor transfers ownership of a leased motor vehicle without obtaining possession of the vehicle, the lessor, in making the disclosure required by subsection (a) of this section, may indicate on the title the mileage disclosed by the lessee under paragraph (1) of this subsection unless the lessor has reason to believe that the disclosure by the lessee does not reflect the actual mileage of the vehicle.

(d) **STATE ALTERNATE VEHICLE MILEAGE DISCLOSURE REQUIREMENTS.**—The requirements of subsections (b) and (c)(1) of this section on the disclosure of motor vehicle mileage when motor vehicles are transferred or leased apply in a State unless the State has in effect alternate motor vehicle mileage disclosure requirements approved by the Secretary. The Secretary shall approve alternate motor vehicle mileage disclosure requirements submitted by a State unless the Secretary decides that the requirements are not consistent with the purpose of the disclosure required by subsection (b) or (c), as the case may be.

(e) **AUCTION SALES.**—If a motor vehicle is sold at an auction, the auction company conducting the auction shall maintain the following records for at least 4 years after the date of the sale:

(1) the name of the most recent owner of the motor vehicle (except the auction company) and the name of the buyer of the motor vehicle.

(2) the vehicle identification number required under chapter 301 or 331 of this title.

(3) the odometer reading on the date the auction company took possession of the motor vehicle.

(f) **APPLICATION AND REVISION OF STATE LAW.**—(1) Except as provided in paragraph (2) of this subsection, subsections (b)–(e) of this section apply to the transfer of a motor vehicle after April 28, 1989.

(2) If a State requests, the Secretary shall assist the State in revising its laws to comply with subsection (b) of this section. If a State requires time beyond April 28, 1989, to revise its laws to achieve compliance, the Secretary, on request of the State, may grant additional time that the Secretary considers reasonable by publishing a notice in the Federal Register. The notice shall include the reasons for granting the additional time. In granting additional time, the Secretary shall ensure that the State is making reasonable efforts to achieve compliance.

(g) **ELECTRONIC DISCLOSURES.**—

(1) Not later than 18 months after the date of enactment of the Motor Vehicle and Highway Safety Improvement Act of 2012, in carrying out this section, the Secretary shall prescribe regulations permitting any written disclosures or notices and related matters to be provided electronically.

(2) Notwithstanding paragraph (1) and subject to paragraph (3), a State, without approval from the Secretary under subsection (d), may allow for written disclosures or notices and related matters to be provided electronically if—

(A) in compliance with—

(i) the requirements of subchapter 1 of chapter 96 of title 15; 1 or

(ii) the requirements of a State law under section 7002(a) of title 15; 1 and

(B) the disclosures or notices otherwise meet the requirements under this section, including appropriate authentication and security measures.

(3) Paragraph (2) ceases to be effective on the date the regulations under paragraph (1) become effective.

In clause (B), the words "if the transferor knows that the mileage registered by the odometer is incorrect" are substituted for "if the odometer reading is known to the transferor to be different from the number of miles the vehicle has actually traveled" to eliminate unnecessary words.

In subsection (b)(2)(A), before clause (i), the words "Under regulations prescribed by the Secretary" are substituted for "prescribed by rule by the Secretary" for consistency in the revised title and because "rule" is synonymous with "regulation". The words "to a transferor" are added for clarity. The words "before February 1, 1989" are omitted as expired. The words "in the possession of" are substituted for "physically held by", and the words "when the transferor transfers ownership of the vehicle" are substituted for "at the time of a transfer of such motor vehicle", for clarity and consistency. The words "the transferor may" are substituted for "nothing in this subsection shall be construed to prohibit" for clarity and to eliminate unnecessary words.

Clause (i) is substituted for "in a form" and clause (ii) is substituted for "in accordance with paragraph (2)(A)(i)" for clarity and consistency. In clause (iii), the words "consistent with the purposes of this Act and the need to facilitate enforcement thereof" are omitted as surplus. In clauses (iv), (v), (viii), and (ix), the amendment made by section 7(a) of the Independent Safety Board Act Amendments of 1990 (Public Law 101-641, 104 Stat. 4657) is restated as amending section 408(d)(1)(C) of the Motor Vehicle and Cost Savings Act (15 U.S.C. 1988(d)(1)(C)) instead of section 408(d)(2)(C) of that Act to reflect the probable intent of Congress. There is no section 408(d)(2)(C) in that Act. Clause (vii) is substituted for "and under reasonable conditions" for clarity and consistency.

In subsection (b)(3)(A), before clause (i), the words "following such transfer" are omitted as surplus. In clause (i), the word "produced" is substituted for "set forth" for clarity. In clause (iii), the words "(in the event of a future transfer)" are omitted as surplus.

In subsection (d), the text of 15:1988(f)(1) (last sentence) is omitted as surplus because of 49:322(a).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103–429 effective July 5, 1994, see section 9 of Pub. L. 103–429, set out as a note under section 321 of this title.

§32707. Administrative warrants

(a) **DEFINITION.**—In this section, "probable cause" means a valid public interest in the effective enforcement of this chapter or a regulation prescribed under this chapter sufficient to justify the inspection or impoundment in the circumstances stated in an application for a warrant under this section.

(b) **WARRANT REQUIREMENT AND ISSUANCE.**—(1) Except as provided in paragraph (4) of this subsection, an inspection or impoundment under section 32706 of this title may be carried out only after a warrant is obtained.

(2) A judge of a court of the United States or a State court of record or a United States magistrate may issue a warrant for an inspection or impoundment under section 32706 of this title within the territorial jurisdiction of the court or magistrate. The warrant must be based on an affidavit that—

- (A) establishes probable cause to issue the warrant; and
- (B) is sworn to before the judge or magistrate by an officer or employee who knows the facts alleged in the affidavit.

(3) The judge or magistrate shall issue the warrant when the judge or magistrate decides there is a reasonable basis for believing that probable cause exists to issue the warrant. The warrant must—

(A) identify the premises, property, or motor vehicle to be inspected and the items or type of property to be impounded;

(B) state the purpose of the inspection, the basis for issuing the warrant, and the name of the affiant;

(C) direct an individual authorized under section 32706 of this title to inspect the premises, property, or vehicle for the purpose stated in the warrant and, when appropriate, to impound the property specified in the warrant;

(D) direct that the warrant be served during the hours specified in the warrant; and

(E) name the judge or magistrate with whom proof of service is to be filed.

(4) A warrant under this section is not required when—

(A) the owner, operator, or agent in charge of the premises consents;

(B) it is reasonable to believe that the mobility of the motor vehicle to be inspected makes it impractical to obtain a warrant;

(C) an application for a warrant cannot be made because of an emergency;

(D) records are to be inspected and copied under section 32706(e)(1)(A) of this title; or

(E) a warrant is not constitutionally required.

(c) SERVICE AND IMPOUNDMENT OF PROPERTY.—(1) A warrant issued under this section must be served and proof of service filed not later than 10 days after its issuance date. The judge or magistrate may allow additional time in the warrant if the Secretary of Transportation demonstrates a need for additional time. Proof of service must be filed promptly with a written inventory of the property impounded under the warrant. The inventory shall be made in the presence of the individual serving the warrant and the individual from whose possession or premises the property was impounded, or if that individual is not present, a credible individual except the individual making the inventory. The individual serving the warrant shall verify the inventory. On request, the judge or magistrate shall send a copy of the inventory to the individual from whose possession or premises the property was impounded and to the applicant for the warrant.

(2) When property is impounded under a warrant, the individual serving the warrant shall—

(A) give the person from whose possession or premises the property was impounded a copy of the warrant and a receipt for the property; or

(B) leave the copy and receipt at the place from which the property was impounded.

(3) The judge or magistrate shall file the warrant, proof of service, and all documents filed about the warrant with the clerk of the United States district court for the judicial district in which the inspection is made.

§32709. Penalties and enforcement

(a) CIVIL PENALTY.—(1) A person that violates this chapter or a regulation prescribed or order issued under this chapter is liable to the United States Government for a civil penalty of not more than \$10,000 for each violation. A separate violation occurs for each motor vehicle or device involved in the violation. The maximum penalty under this subsection for a related series of violations is \$1,000,000.

(2) The Secretary of Transportation shall impose a civil penalty under this subsection. The Attorney General shall bring a civil action to collect the penalty. Before referring a penalty claim to the Attorney General, the Secretary may compromise the amount of the penalty. Before compromising the amount of the penalty, the Secretary shall give the person charged with a violation an opportunity to establish that the violation did not occur.

(3) In determining the amount of a civil penalty under this subsection, the Secretary shall consider—

- (A) the nature, circumstances, extent, and gravity of the violation;
- (B) with respect to the violator, the degree of culpability, any history of prior violations, the ability to pay, and any effect on the ability to continue doing business; and
- (C) other matters that justice requires.

(b) CRIMINAL PENALTY.—A person that knowingly and willfully violates this chapter or a regulation prescribed or order issued under this chapter shall be fined under title 18, imprisoned for not more than 3 years, or both. If the person is a corporation, the penalties of this subsection also apply to a director, officer, or individual agent of a corporation who knowingly and willfully authorizes, orders, or performs an act in violation of this chapter or a regulation prescribed or order issued under this chapter without regard to penalties imposed on the corporation.

(c) CIVIL ACTIONS BY ATTORNEY GENERAL.—The Attorney General may bring a civil

action to enjoin a violation of this chapter or a regulation prescribed or order issued under this chapter. The action may be brought in the United States district court for the judicial district in which the violation occurred or the defendant is found, resides, or does business. Process in the action may be served in any other judicial district in which the defendant resides or is found. A subpoena for a witness in the action may be served in any judicial district.

(d) CIVIL ACTIONS BY STATES.—(1) When a person violates this chapter or a regulation prescribed or order issued under this chapter, the chief law enforcement officer of the State in which the violation occurs may bring a civil action—

(A) to enjoin the violation; or

(B) to recover amounts for which the person is liable under section 32710 of this title for each person on whose behalf the action is brought.

(2) An action under this subsection may be brought in an appropriate United States district court or in a State court of competent jurisdiction. The action must be brought not later than 2 years after the claim accrues.

The words "or a regulation prescribed or order issued under this chapter" are substituted for "No transferor shall violate any rule prescribed under this section" in 15:1988 for consistency in the revised title and because "rule" is synonymous with "regulations". The words "A separate violation occurs for each motor vehicle or device involved in the violation" are substituted for "A violation of any such provision shall, for purposes of this section, constitute a separate violation with respect to each motor vehicle or device involved" in 15:1990b(a) to eliminate unnecessary words.

In subsections (c) and (d), the word "enjoin" is substituted for "restrain" for consistency.

In subsection (c), the words "The United States district courts shall have jurisdiction" are omitted because of 28:1331. The words "for cause shown and subject to the provisions of rule 65(a) and (b) of the Federal Rules of Civil Procedure" are omitted as surplus because the rules apply in the absence of an exemption from them. The words "the violation occurred" are substituted for "wherein any act, omission, or transaction constituting the violation occurred", and the word "resides" is substituted for "is an inhabitant", to eliminate unnecessary words. The words "may be served in" are substituted for "may run into" for clarity.

In subsection (d)(1), before clause (A), the words "this chapter or a regulation prescribed or order issued under this chapter" are substituted for "requirement imposed under this subchapter" for consistency. The words "civil action" are substituted for "any action" for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.).

In subsection (d)(2), the words "without regard to the amount in controversy" are omitted because jurisdiction is now allowed under 28:1331 without regard to the amount in controversy. In this chapter, the word "model" is substituted for "model type" for consistency in this part.

In subsection (a)(3), before clause (A), the words "except as provided in section 32908 of this title" are added for clarity. The word "line" is added for consistency in the revised title and with other titles of the United States Code. The words "or rails" are omitted because of 1:1. The text of 15:2001(1) (last sentence) is omitted because of 49:322(a). The text of 15:2001(13) and (14) is omitted as surplus because the complete names of the Secretary of Transportation and Administrator of the Environmental Protection Agency are used the first time the terms appear in a section. The text of 15:2001 (related to 15:2011) is omitted because 15:2011 is outside the scope of the restatement. See section 4(c) of the bill.

In subsection (a)(4), the words " 'automobile manufactured by a manufacturer' includes" are substituted for "Any reference in this subchapter to automobiles manufactured by a manufacturer shall be deemed—(1) to include" to eliminate unnecessary words. The word "every" is substituted for "all" because of the restatement. The words "but does not include" are substituted for "to exclude" for consistency. The words "manufactured by the person" are substituted for "manufactured (within the meaning of paragraph (1))" to eliminate unnecessary words.

In subsection (a)(10), the words "in accordance with procedures established" are omitted as surplus.

In subsection (a)(14), the word "particular" is omitted as surplus.

Subsection (a)(15)(B) is substituted for "If a manufacturer has no annual production period, the term 'model year' means the calendar year" to eliminate unnecessary words.

In subsection (a)(16), before clause (A), the words "but does not include an automobile capable of off-highway operation that" are substituted for "(other than an automobile capable of off-highway operation)" and "The term 'automobile capable of off-highway operation' means any automobile which" to eliminate unnecessary words.

In subsection (b), the words "The Secretary may prescribe regulations changing the percentage . . . to not less than 70 percent because of" are substituted for "but not less than 70 percent, as determined by the Secretary, by rule, to provide for" for clarity and because of the restatement.

In subsection (c)(1), the words "For purposes of the definitions in paragraph (1)(D)" are omitted as unnecessary because of the restatement. The words "within 18 months after October 14, 1988" are omitted as obsolete. The words "prescribe by regulation" are substituted for "establish by rule of general applicability" for clarity and consistency in the revised title and with other titles of the United States Code and because "rule" is synonymous with "regulation". The words "that are passenger automobiles" are substituted for "The rule issued under this subparagraph shall apply only to dual fueled automobiles that are passenger automobiles" to eliminate unnecessary words.

§32902. Average fuel economy standards

(a) PRESCRIPTION OF STANDARDS BY REGULATION.—At least 18 months before the beginning of each model year, the Secretary of Transportation shall prescribe by regulation average fuel economy standards for automobiles manufactured by a manufacturer in that model year. Each standard shall be the maximum feasible average fuel economy level that the Secretary decides the manufacturers can achieve in that model year.

(b) STANDARDS FOR AUTOMOBILES AND CERTAIN OTHER VEHICLES.—

(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall prescribe separate average fuel economy standards for—

(A) passenger automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with this subsection;

(B) non-passenger automobiles manufactured by manufacturers in each model year beginning with model year 2011 in accordance with this subsection; and

(C) work trucks and commercial medium-duty or heavy-duty on-highway vehicles in accordance with subsection (k).

(2) FUEL ECONOMY STANDARDS FOR AUTOMOBILES.—

(A) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2011 THROUGH 2020.—The Secretary shall prescribe a separate average fuel economy standard for passenger automobiles and a separate average fuel economy standard for non-passenger automobiles for each model year beginning with model year 2011 to achieve a combined fuel

economy average for model year 2020 of at least 35 miles per gallon for the total fleet of passenger and non-passenger automobiles manufactured for sale in the United States for that model year.

(B) AUTOMOBILE FUEL ECONOMY AVERAGE FOR MODEL YEARS 2021 THROUGH 2030.—For model years 2021 through 2030, the average fuel economy required to be attained by each fleet of passenger and non-passenger automobiles manufactured for sale in the United States shall be the maximum feasible average fuel economy standard for each fleet for that model year.

(C) PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under subparagraph (A), the Secretary shall prescribe annual fuel economy standard increases that increase the applicable average fuel economy standard ratably beginning with model year 2011 and ending with model year 2020.

(3) AUTHORITY OF THE SECRETARY.—The Secretary shall—

(A) prescribe by regulation separate average fuel economy standards for passenger and non-passenger automobiles based on 1 or more vehicle attributes related to fuel economy and express each standard in the form of a mathematical function; and

(B) issue regulations under this title prescribing average fuel economy standards for at least 1, but not more than 5, model years.

(4) MINIMUM STANDARD.—In addition to any standard prescribed pursuant to paragraph (3), each manufacturer shall also meet the minimum standard for domestically manufactured passenger automobiles, which shall be the greater of—

(A) 27.5 miles per gallon; or

(B) 92 percent of the average fuel economy projected by the Secretary for the combined domestic and non-domestic passenger automobile fleets manufactured for sale in the United States by all manufacturers in the model year, which projection shall be published in the Federal Register when the standard for that model year is promulgated in accordance with this section.

(c) AMENDING PASSENGER AUTOMOBILE STANDARDS.—The Secretary of Transportation may prescribe regulations amending the standard under subsection (b) of this section for a model year to a level that the Secretary decides is the maximum feasible average fuel economy level for that model year. Section 553 of title 5 applies to a proceeding to amend the standard. However, any interested person may make an oral presentation and a transcript shall be taken of that presentation.

(d) EXEMPTIONS.—(1) Except as provided in paragraph (3) of this subsection, on application of a manufacturer that manufactured (whether in the United States or not) fewer than 10,000 passenger automobiles in the model year 2 years before the model year for which the application is made, the Secretary of Transportation may exempt by regulation the manufacturer from a standard under subsection (b) or (c) of this section. An exemption for a model year applies only if the manufacturer manufactures (whether in the United States or not) fewer than 10,000 passenger automobiles in the model year. The Secretary may exempt a manufacturer only if the Secretary—

(A) finds that the applicable standard under those subsections is more stringent than the maximum feasible average fuel economy level that the manufacturer can achieve; and

(B) prescribes by regulation an alternative average fuel economy standard for the passenger automobiles manufactured by the exempted manufacturer that the Secretary decides is the maximum feasible average fuel economy level for the manufacturers to which the alternative standard applies.

(2) An alternative average fuel economy standard the Secretary of Transportation prescribes under paragraph (1)(B) of this subsection may apply to an individually exempted manufacturer, to all automobiles to which this subsection applies, or to classes of passenger automobiles, as defined under regulations of the Secretary, manufactured by exempted manufacturers.

(3) Notwithstanding paragraph (1) of this subsection, an importer registered under section 30141(c) of this title may not be exempted as a manufacturer under paragraph (1) for a motor vehicle that the importer—

(A) imports; or

(B) brings into compliance with applicable motor vehicle safety standards prescribed under chapter 301 of this title for an individual under section 30142 of this title.

(4) The Secretary of Transportation may prescribe the contents of an application for an exemption.

(e) EMERGENCY VEHICLES.—(1) In this subsection, "emergency vehicle" means an automobile manufactured primarily for use—

(A) as an ambulance or combination ambulance-hearse;

(B) by the United States Government or a State or local government for law enforcement; or

(C) for other emergency uses prescribed by regulation by the Secretary of Transportation.

(2) A manufacturer may elect to have the fuel economy of an emergency vehicle excluded in applying a fuel economy standard under subsection (a), (b), (c), or (d) of this section. The election is made by providing written notice to the Secretary of Transportation and to the Administrator of the Environmental Protection Agency.

(f) CONSIDERATIONS ON DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.—When deciding maximum feasible average fuel economy under this section, the Secretary of Transportation shall consider technological feasibility, economic practicability, the effect of other motor vehicle standards of the Government on fuel economy, and the need of the United States to conserve energy.

(g) REQUIREMENTS FOR OTHER AMENDMENTS.—(1) The Secretary of Transportation may prescribe regulations amending an average fuel economy standard prescribed under subsection (a) or (d) of this section if the amended standard meets the requirements of subsection (a) or (d), as appropriate.

(2) When the Secretary of Transportation prescribes an amendment under this section that makes an average fuel economy standard more stringent, the Secretary shall prescribe the amendment (and submit the amendment to Congress when required under subsection (c)(2) of this section) at least 18 months before the beginning of the model year to which the amendment applies.

(h) LIMITATIONS.—In carrying out subsections (c), (f), and (g) of this section, the Secretary of Transportation—

(1) may not consider the fuel economy of dedicated automobiles;

(2) shall consider dual fueled automobiles to be operated only on gasoline or diesel fuel; and

(3) may not consider, when prescribing a fuel economy standard, the trading, transferring, or availability of credits under section 32903.

(i) CONSULTATION.—The Secretary of Transportation shall consult with the Secretary of Energy in carrying out this section and section 32903 of this title.

(j) SECRETARY OF ENERGY COMMENTS.—(1) Before issuing a notice proposing to prescribe or amend an average fuel economy standard under subsection (a), (c), or (g) of this section, the Secretary of Transportation shall give the Secretary of Energy at least 10 days from the receipt of the notice during which the Secretary of Energy may, if the Secretary of Energy concludes that the proposed standard would adversely affect the conservation goals of the Secretary of Energy, provide written comments to the Secretary of Transportation about the impact of the standard on those goals. To the extent the Secretary of Transportation does not revise a proposed standard to take into account comments of the Secretary of Energy on any adverse impact of the standard, the Secretary of Transportation shall include those comments in the notice.

(2) Before taking final action on a standard or an exemption from a standard under this section, the Secretary of Transportation shall notify the Secretary of Energy and provide the Secretary of Energy a reasonable time to comment.

(k) COMMERCIAL MEDIUM- AND HEAVY-DUTY ON-HIGHWAY VEHICLES AND

WORK TRUCKS.—

(1) **STUDY.**—Not later than 1 year after the National Academy of Sciences publishes the results of its study under section 108 of the Ten-in-Ten Fuel Economy Act, the Secretary of Transportation, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall examine the fuel efficiency of commercial medium- and heavy-duty on-highway vehicles and work trucks and determine—

(A) the appropriate test procedures and methodologies for measuring the fuel efficiency of such vehicles and work trucks;

(B) the appropriate metric for measuring and expressing commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency performance, taking into consideration, among other things, the work performed by such on-highway vehicles and work trucks and types of operations in which they are used;

(C) the range of factors, including, without limitation, design, functionality, use, duty cycle, infrastructure, and total overall energy consumption and operating costs that affect commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency; and

(D) such other factors and conditions that could have an impact on a program to improve commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency.

(2) **RULEMAKING.**—Not later than 24 months after completion of the study required under paragraph (1), the Secretary, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, by regulation, shall determine in a rulemaking proceeding how to implement a commercial medium- and heavy-duty on-highway vehicle and work truck fuel efficiency improvement program designed to achieve the maximum feasible improvement, and shall adopt and implement appropriate test methods, measurement metrics, fuel economy standards, and compliance and enforcement protocols that are appropriate, cost-effective, and technologically feasible for commercial medium- and heavy-duty on-highway vehicles and work trucks. The Secretary may prescribe separate standards for different classes of vehicles under this subsection.

(3) **LEAD-TIME; REGULATORY STABILITY.**—The commercial medium- and heavy-duty on-highway vehicle and work truck fuel economy standard adopted pursuant to this subsection shall provide not less than—

(A) 4 full model years of regulatory lead-time; and

(B) 3 full model years of regulatory stability.

In subsection (a), the words "Any standard applicable to a model year under this subsection shall be prescribed" are omitted as surplus. The words "which begins more than 30 months after December 22, 1975" are omitted as executed.

In subsection (b), the text of 15:2002(a)(1) (related to model years before 1985) and (3) is omitted as expired. The words "at least" are omitted as unnecessary because of the source provisions restated in subsection (c) of this section.

In subsection (c)(1), the words "Subject to paragraph (2) of this subsection" are added for clarity. The words "may prescribe regulations amending" are substituted for "may, by rule, amend" for clarity and consistency in the revised title and because "rule" is synonymous with "regulation". The words "for a model year" are substituted for "for model year 1985, or for any subsequent model year" to eliminate the expired limitation. The reference in 15:2002(h) to 15:2002(d) is omitted because 15:2002(d) is omitted from the revised title as executed. The words "as well as written" are omitted as surplus.

In subsection (c)(2), the words "If an amendment increases the standard . . . or decreases the standard" are substituted for "except that any amendment that has the effect of increasing . . . a standard . . . , or of decreasing . . . a standard" to eliminate unnecessary words. The words "For purposes of considering any modification which is submitted to the Congress under paragraph (4)" are omitted as surplus. The words "are deemed to be" are substituted for "shall be lengthened to" for clarity and consistency.

In subsection (d)(1), before clause (A), the words "Except as provided in paragraph (3) of this subsection" are added because of the restatement. The words "in the model year 2 years before" are substituted for "in the second model year preceding" for clarity. The words "The Secretary may exempt a manufacturer only if the Secretary" are substituted for "Such exemption may only be granted if the Secretary" and "The Secretary may not issue exemptions with respect to a model year unless he" to eliminate unnecessary words. The words "each such standard shall be set at a level which" are omitted as surplus.

In subsection (d)(3), before clause (A), the words "Notwithstanding paragraph (1) of this subsection" are substituted for "Notwithstanding any provision of law authorizing exemptions from energy conservation requirements for manufacturers of fewer than 10,000 motor vehicles" to eliminate unnecessary words. In clause (B), the word "compliance" is substituted for "conformity" for consistency with chapter 301 of the revised title. The words "prescribed under chapter 301 of this title" are substituted for "Federal" for consistency in the revised title.

Subsection (d)(4) is substituted for 15:2002(c)(1) (2d sentence) to eliminate unnecessary words. The text of 15:2002(c)(2) is omitted as expired.

In subsection (e)(1)(B), the words "police or other" are omitted as unnecessary because the authority to

prescribe standards includes the authority to amend those standards.

In subsection (g)(1), the words "from time to time" are omitted as unnecessary. The cross-reference to 15:2002(a)(3) is omitted as executed because 15:2002(a)(3) applied to model years 1981–1984.

In subsection (g)(2), the words "that makes" are substituted for "has the effect of making" to eliminate unnecessary words.

In subsection (i), the words "his responsibilities under" are omitted as surplus.

In subsection (j), the reference to 15:2002(d) and the words "or any modification of" are omitted because 15:2002(d) is omitted from the revised title as executed.

In subsection (j)(1), the words "to prescribe or amend" are substituted for "to establish, reduce, or amend" to eliminate unnecessary words. The words "adverse impact" are substituted for "level" for clarity and consistency. The words "those comments" are substituted for "unaccommodated comments" for clarity.

EXECUTIVE DOCUMENTS

THE ENERGY INDEPENDENCE AND SECURITY ACT OF 2007

Memorandum of President of the United States, Jan. 26, 2009, 74 F.R. 4907, provided:

Memorandum for the Secretary of Transportation [and] the Administrator of the National Highway Traffic Safety Administration

In 2007, the Congress passed the Energy Independence and Security Act (EISA). This law mandates that, as part of the Nation's efforts to achieve energy independence, the Secretary of Transportation prescribe annual fuel economy increases for automobiles, beginning with model year 2011, resulting in a combined fuel economy fleet average of at least 35 miles per gallon by model year 2020. On May 2, 2008, the National Highway Traffic Safety Administration (NHTSA) published a Notice of Proposed Rulemaking entitled *Average Fuel Economy Standards, Passenger Cars and Light Trucks; Model Years 2011–2015*, 73 Fed. Reg. 24352. In the notice and comment period, the NHTSA received numerous comments, some of them contending that certain aspects of the proposed rule, including appendices providing for preemption of State laws, were inconsistent with provisions of EISA and the Supreme Court's decision in *Massachusetts v. Environmental Protection Agency*, 549 U.S. 497 (2007).

Federal law requires that the final rule regarding fuel economy standards be adopted at least 18 months before the beginning of the model year (49 U.S.C. 32902(g)(2)). In order for the model year 2011 standards to meet this requirement, the NHTSA must publish the final rule in the Federal Register by March 30, 2009. To date, the NHTSA has not published a final rule.

Therefore, I request that:

(a) in order to comply with the EISA requirement that fuel economy increases begin with model year 2011, you take all measures consistent with law, and in coordination with the Environmental Protection Agency, to publish in the Federal Register by March 30, 2009, a final rule prescribing increased fuel economy for model year 2011;

(b) before promulgating a final rule concerning model years after model year 2011, you consider the appropriate legal factors under the EISA, the comments filed in response to the Notice of Proposed Rulemaking, the relevant technological and scientific considerations, and to the extent feasible, the forthcoming report by the National Academy of Sciences mandated under section 107 of EISA; and

(c) in adopting the final rules in paragraphs (a) and (b) above, you consider whether any provisions regarding preemption are consistent with the EISA, the Supreme Court's decision in *Massachusetts v. EPA* and other relevant provisions of law and the policies underlying them.

This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

The Secretary of Transportation is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

**IMPROVING ENERGY SECURITY, AMERICAN COMPETITIVENESS AND JOB CREATION,
AND ENVIRONMENTAL PROTECTION THROUGH A TRANSFORMATION OF OUR**

NATION'S FLEET OF CARS AND TRUCKS

Memorandum of President of the United States, May 21, 2010, 75 F.R. 29399, provided:

Memorandum for the Secretary of Transportation[, the Secretary of Energy[, the Administrator of the Environmental Protection Agency[, and] the Administrator of the National Highway Traffic Safety Administration

America has the opportunity to lead the world in the development of a new generation of clean cars and trucks through innovative technologies and manufacturing that will spur economic growth and create high-quality domestic jobs, enhance our energy security, and improve our environment. We already have made significant strides toward reducing greenhouse gas pollution and enhancing fuel efficiency from motor vehicles with the joint rulemaking issued by the National Highway Traffic Safety Administration (NHTSA) and the Environmental Protection Agency (EPA) on April 1, 2010, which regulates these attributes of passenger cars and light-duty trucks for model years 2012–2016. In this memorandum, I request that additional coordinated steps be taken to produce a new generation of clean vehicles.

SECTION 1. *Medium- and Heavy-Duty Trucks.*

While the Federal Government and many States have now created a harmonized framework for addressing the fuel economy of and greenhouse gas emissions from cars and light-duty trucks, medium- and heavy-duty trucks and buses continue to be a major source of fossil fuel consumption and greenhouse gas pollution. I therefore request that the Administrators of the EPA and the NHTSA immediately begin work on a joint rulemaking under the Clean Air Act (CAA) and the Energy Independence and Security Act of 2007 (EISA) to establish fuel efficiency and greenhouse gas emissions standards for commercial medium- and heavy-duty vehicles beginning with model year 2014, with the aim of issuing a final rule by July 30, 2011. As part of this rule development process, I request that the Administrators of the EPA and the NHTSA:

(a) Propose and take comment on strategies, including those designed to increase the use of existing technologies, to achieve substantial annual progress in reducing transportation sector emissions and fossil fuel consumption consistent with my Administration's overall energy and climate security goals. These strategies should consider whether particular segments of the diverse heavy-duty vehicle sector present special opportunities to reduce greenhouse gas emissions and increase fuel economy. For example, preliminary estimates indicate that large tractor trailers, representing half of all greenhouse gas emissions from this sector, can reduce greenhouse gas emissions by as much as 20 percent and increase their fuel efficiency by as much as 25 percent with the use of existing technologies;

(b) Include fuel efficiency and greenhouse gas emissions standards that take into account the market structure of the trucking industry and the unique demands of heavy-duty vehicle applications; seek harmonization with applicable State standards; consider the findings and recommendations published in the National Academy of Science report on medium- and heavy-duty truck regulation; strengthen the industry and enhance job creation in the United States; and

(c) Seek input from all stakeholders, while recognizing the continued leadership role of California and other States.

SEC. 2. *Passenger Cars and Light-Duty Trucks.*

Building on the earlier joint rulemaking, and in order to provide greater certainty and incentives for long-term innovation by automobile and light-duty vehicle manufacturers, I request that the Administrators of the EPA and the NHTSA develop, through notice and comment rulemaking, a coordinated national program under the CAA and the EISA to improve fuel efficiency and to reduce greenhouse gas emissions of passenger cars and light-duty trucks of model years 2017–2025. The national program should seek to produce joint Federal standards that are harmonized with applicable State standards, with the goal of ensuring that automobile manufacturers will be able to build a single, light-duty national fleet. The program should also seek to achieve substantial annual progress in reducing transportation sector greenhouse gas emissions and fossil fuel consumption, consistent with my Administration's overall energy and climate security goals, through the increased domestic production and use of existing, advanced, and emerging technologies, and should strengthen the industry and enhance job creation in the United States. As part of implementing the national program, I request that the Administrators of the EPA and the NHTSA:

(a) Work with the State of California to develop by September 1, 2010, a technical assessment to inform the rulemaking process, reflecting input from an array of stakeholders on relevant factors, including viable technologies, costs, benefits, lead time to develop and deploy new and emerging technologies, incentives and other flexibilities to encourage development and deployment of new and emerging technologies, impacts on jobs and the automotive manufacturing base in the United States, and infrastructure for advanced vehicle technologies; and

(b) Take all measures consistent with law to issue by September 30, 2010, a Notice of Intent to Issue a Proposed Rule that announces plans for setting stringent fuel economy and greenhouse gas emissions

standards for light-duty vehicles of model year 2017 and beyond, including plans for initiating joint rulemaking and gathering any additional information needed to support regulatory action. The Notice should describe the key elements of the program that the EPA and the NHTSA intend jointly to propose, under their respective statutory authorities, including potential standards that could be practicably implemented nationally for the 2017–2025 model years and a schedule for setting those standards as expeditiously as possible, consistent with providing sufficient lead time to vehicle manufacturers.

SEC. 3. Cleaner Vehicles and Fuels and Necessary Infrastructure.

The success of our efforts to achieve enhanced energy security and to protect the environment also depends upon the development of infrastructure and promotion of fuels, including biofuels, which will enable the development and widespread deployment of advanced technologies. Therefore, I further request that:

(a) The Administrator of the EPA review for adequacy the current nongreenhouse gas emissions regulations for new motor vehicles, new motor vehicle engines, and motor vehicle fuels, including tailpipe emissions standards for nitrogen oxides and air toxics, and sulfur standards for gasoline. If the Administrator of the EPA finds that new emissions regulations are required, then I request that the Administrator of the EPA promulgate such regulations as part of a comprehensive approach toward regulating motor vehicles; and [sic]

(b) The Secretary of Energy promote the deployment of advanced technology vehicles by providing technical assistance to cities preparing for deployment of electric vehicles, including plug-in hybrids and all-electric vehicles; and

(c) The Department of Energy work with stakeholders on the development of voluntary standards to facilitate the robust deployment of advanced vehicle technologies and coordinate its efforts with the Department of Transportation, the NHTSA, and the EPA.

SEC. 4. General Provisions.

(a) This memorandum shall be implemented consistent with applicable law, including international trade obligations, and subject to the availability of appropriations.

(b) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(c) Nothing in this memorandum shall be construed to impair or otherwise affect:

(1) authority granted by law to a department, agency, or the head thereof; or

(2) functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

SEC. 5. Publication.

The Secretary of Transportation is hereby authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

§32903. Credits for exceeding average fuel economy standards

(a) **EARNING AND PERIOD FOR APPLYING CREDITS.**—When the average fuel economy of passenger automobiles manufactured by a manufacturer in a particular model year exceeds an applicable average fuel economy standard under subsections (a) through (d) of section 32902 (determined by the Secretary of Transportation without regard to credits under this section), the manufacturer earns credits. The credits may be applied to—

(1) any of the 3 consecutive model years immediately before the model year for which the credits are earned; and

(2) to the extent not used under paragraph (1) ¹ any of the 5 consecutive model years immediately after the model year for which the credits are earned.

(b) **PERIOD OF AVAILABILITY AND PLAN FOR FUTURE CREDITS.**—(1) Except as provided in paragraph (2) of this subsection, credits under this section are available to a manufacturer at the end of the model year in which earned.

(2)(A) Before the end of a model year, if a manufacturer has reason to believe that its average fuel economy for passenger automobiles will be less than the applicable standard for that model year, the manufacturer may submit a plan to the Secretary of Transportation demonstrating that the manufacturer will earn sufficient credits under this section within the next 3 model years to allow the

manufacturer to meet that standard for the model year involved. Unless the Secretary finds that the manufacturer is unlikely to earn sufficient credits under the plan, the Secretary shall approve the plan. Those credits are available for the model year involved if—

- (i) the Secretary approves the plan; and
- (ii) the manufacturer earns those credits as provided by the plan.

(B) If the average fuel economy of a manufacturer is less than the applicable standard under subsections (a) through (d) of section 32902 after applying credits under subsection (a)(1) of this section, the Secretary of Transportation shall notify the manufacturer and give the manufacturer a reasonable time (of at least 60 days) to submit a plan.

(c) DETERMINING NUMBER OF CREDITS.—The number of credits a manufacturer earns under this section equals the product of—

(1) the number of tenths of a mile a gallon by which the average fuel economy of the passenger automobiles manufactured by the manufacturer in the model year in which the credits are earned exceeds the applicable average fuel economy standard under subsections (a) through (d) of section 32902; times

(2) the number of passenger automobiles manufactured by the manufacturer during that model year.

(d) APPLYING CREDITS FOR PASSENGER AUTOMOBILES.—The Secretary of Transportation shall apply credits to a model year on the basis of the number of tenths of a mile a gallon by which the manufacturer involved was below the applicable average fuel economy standard for that model year and the number of passenger automobiles manufactured that model year by the manufacturer. Credits applied to a model year are no longer available for another model year. Before applying credits, the Secretary shall give the manufacturer written notice and reasonable opportunity to comment.

(e) APPLYING CREDITS FOR NON-PASSENGER AUTOMOBILES.—Credits for a manufacturer of automobiles that are not passenger automobiles are earned and applied to a model year in which the average fuel economy of that class of automobiles is below the applicable average fuel economy standard under section 32902(a) of this title, to the same extent and in the same way as provided in this section for passenger automobiles.

(f) CREDIT TRADING AMONG MANUFACTURERS.—

(1) IN GENERAL.—The Secretary of Transportation may establish, by regulation, a fuel economy credit trading program to allow manufacturers whose automobiles exceed the average fuel economy standards prescribed under section 32902 to earn credits to be sold to manufacturers whose automobiles fail to achieve the prescribed standards such that the total oil savings associated with manufacturers that exceed the prescribed standards are preserved when trading credits to manufacturers that fail to achieve the prescribed standards.

(2) LIMITATION.—The trading of credits by a manufacturer to the category of passenger automobiles manufactured domestically is limited to the extent that the fuel economy level of such automobiles shall comply with the requirements of section 32902(b)(4), without regard to any trading of credits from other manufacturers.

(g) CREDIT TRANSFERRING WITHIN A MANUFACTURER'S FLEET.—

(1) IN GENERAL.—The Secretary of Transportation shall establish by regulation a fuel economy credit transferring program to allow any manufacturer whose automobiles exceed any of the average fuel economy standards prescribed under section 32902 to transfer the credits earned under this section and to apply such credits within that manufacturer's fleet to a compliance category of automobiles that fails to achieve the prescribed standards.

(2) YEARS FOR WHICH USED.—Credits transferred under this subsection are available to be used in the same model years that the manufacturer could have applied such credits under subsections (a), (b), (d), and (e), as well as for the model year in which the manufacturer earned such credits.

(3) **MAXIMUM INCREASE.**—The maximum increase in any compliance category attributable to transferred credits is—

- (A) for model years 2011 through 2013, 1.0 mile per gallon;
- (B) for model years 2014 through 2017, 1.5 miles per gallon; and
- (C) for model year 2018 and subsequent model years, 2.0 miles per gallon.

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

¹ So in original. Probably should be followed by a comma.

§32904. Calculation of average fuel economy

(a) METHOD OF CALCULATION.—(1) The Administrator of the Environmental Protection Agency shall calculate the average fuel economy of a manufacturer subject to—

(A) section 32902(a) of this title in a way prescribed by the Administrator; and

(B) section 32902(b)–(d) of this title by dividing—

(i) the number of passenger automobiles manufactured by the manufacturer in a model year; by

(ii) the sum of the fractions obtained by dividing the number of passenger automobiles of each model manufactured by the manufacturer in that model year by the fuel economy measured for that model.

(2)(A) In this paragraph, "electric vehicle" means a vehicle powered primarily by an electric motor drawing electrical current from a portable source.

(B) If a manufacturer manufactures an electric vehicle, the Administrator shall include in the calculation of average fuel economy under paragraph (1) of this subsection equivalent petroleum based fuel economy values determined by the Secretary of Energy for various classes of electric vehicles. The Secretary shall review those values each year and determine and propose necessary revisions based on the following factors:

(i) the approximate electrical energy efficiency of the vehicle, considering the kind of vehicle and the mission and weight of the vehicle.

(ii) the national average electrical generation and transmission efficiencies.

(iii) the need of the United States to conserve all forms of energy and the relative scarcity and value to the United States of all fuel used to generate electricity.

(iv) the specific patterns of use of electric vehicles compared to petroleum-fueled vehicles.

(b) SEPARATE CALCULATIONS FOR PASSENGER AUTOMOBILES MANUFACTURED DOMESTICALLY AND NOT DOMESTICALLY.—(1)(A) Except as provided in paragraphs (6) and (7) of this subsection, the Administrator shall make separate calculations under subsection

(a)(1)(B) of this section for—

- (i) passenger automobiles manufactured domestically by a manufacturer (or included in this category under paragraph (5) of this subsection); and
- (ii) passenger automobiles not manufactured domestically by that manufacturer (or excluded from this category under paragraph (5) of this subsection).

(B) Passenger automobiles described in subparagraph (A)(i) and (ii) of this paragraph are deemed to be manufactured by separate manufacturers under this chapter, except for the purposes of section 32903.

(2) In this subsection (except as provided in paragraph (3)), a passenger automobile is deemed to be manufactured domestically in a model year if at least 75 percent of the cost to the manufacturer is attributable to value added in the United States or Canada, unless the assembly of the automobile is completed in Canada and the automobile is imported into the United States more than 30 days after the end of the model year.

(3)(A) In this subsection, a passenger automobile is deemed to be manufactured domestically in a model year, as provided in subparagraph (B) of this paragraph, if at least 75 percent of the cost to the manufacturer is attributable to value added in the United States, Canada, or Mexico, unless the assembly of the automobile is completed in Canada or Mexico and the automobile is imported into the United States more than 30 days after the end of the model year.

(B) Subparagraph (A) of this paragraph applies to automobiles manufactured by a manufacturer and sold in the United States, regardless of the place of assembly, as follows:

(i) A manufacturer that began assembling automobiles in Mexico before model year 1992 may elect, during the period from January 1, 1997, through January 1, 2004, to have subparagraph (A) of this paragraph apply to all automobiles manufactured by that manufacturer beginning with the model year that begins after the date of the election.

(ii) For a manufacturer that began assembling automobiles in Mexico after model year 1991, subparagraph (A) of this paragraph applies to all automobiles manufactured by that manufacturer beginning with the model year that begins after January 1, 1994, or the model year beginning after the date the manufacturer begins assembling automobiles in Mexico, whichever is later.

(iii) A manufacturer not described in clause (i) or (ii) of this subparagraph that assembles automobiles in the United States or Canada, but not in Mexico, may elect, during the period from January 1, 1997, through January 1, 2004, to have subparagraph (A) of this paragraph apply to all automobiles manufactured by that manufacturer beginning with the model year that begins after the date of the election. However, if the manufacturer begins assembling automobiles in Mexico before making an election under this subparagraph, this clause does not apply, and the manufacturer is subject to clause (ii) of this subparagraph.

(iv) For a manufacturer that does not assemble automobiles in the United States, Canada, or Mexico, subparagraph (A) of this paragraph applies to all automobiles manufactured by that manufacturer beginning with the model year that begins after January 1, 1994.

(v) For a manufacturer described in clause (i) or (iii) of this subparagraph that does not make an election within the specified period, subparagraph (A) of this paragraph applies to all automobiles manufactured by that manufacturer beginning with the model year that begins after January 1, 2004.

(C) The Secretary of Transportation shall prescribe reasonable procedures for elections under subparagraph (B) of this paragraph.

(4) In this subsection, the fuel economy of a passenger automobile that is not manufactured domestically is deemed to be equal to the average fuel economy of all passenger automobiles manufactured by the same manufacturer that are not manufactured domestically.

(5)(A) A manufacturer may submit to the Secretary of Transportation for approval a plan, including supporting material, stating the actions and the deadlines for taking the actions, that will

ensure that the model or models referred to in subparagraph (B) of this paragraph will be manufactured domestically before the end of the 4th model year covered by the plan. The Secretary promptly shall consider and act on the plan. The Secretary shall approve the plan unless—

- (i) the Secretary finds that the plan is inadequate to meet the requirements of this paragraph; or
- (ii) the manufacturer previously has submitted a plan approved by the Secretary under this paragraph.

(B) If the plan is approved, the Administrator shall include under paragraph (1)(A)(i) and exclude under paragraph (1)(A)(ii) of this subsection, for each of the 4 model years covered by the plan, not more than 150,000 passenger automobiles manufactured by that manufacturer but not qualifying as domestically manufactured if—

- (i) the model or models involved previously have not been manufactured domestically;
- (ii) at least 50 percent of the cost to the manufacturer of each of the automobiles is attributable to value added in the United States or Canada;
- (iii) the automobiles, if their assembly was completed in Canada, are imported into the United States not later than 30 days after the end of the model year; and
- (iv) the model or models are manufactured domestically before the end of the 4th model year covered by the plan.

(c) **TESTING AND CALCULATION PROCEDURES.**—The Administrator shall measure fuel economy for each model and calculate average fuel economy for a manufacturer under testing and calculation procedures prescribed by the Administrator. However, except under section 32908 of this title, the Administrator shall use the same procedures for passenger automobiles the Administrator used for model year 1975 (weighted 55 percent urban cycle and 45 percent highway cycle), or procedures that give comparable results. A measurement of fuel economy or a calculation of average fuel economy (except under section 32908) shall be rounded off to the nearest .1 of a mile a gallon. The Administrator shall decide on the quantity of other fuel that is equivalent to one gallon of gasoline. To the extent practicable, fuel economy tests shall be carried out with emissions tests under section 206 of the Clean Air Act (42 U.S.C. 7525).

(d) **EFFECTIVE DATE OF PROCEDURE OR AMENDMENT.**—The Administrator shall prescribe a procedure under this section, or an amendment (except a technical or clerical amendment) in a procedure, at least 12 months before the beginning of the model year to which the procedure or amendment applies.

(e) **REPORTS AND CONSULTATION.**—The Administrator shall report measurements and calculations under this section to the Secretary of Transportation and shall consult and coordinate with the Secretary in carrying out this section.

In subsection (a)(1), before clause (A), the words "of a manufacturer subject to" are substituted for "for the purposes of" for clarity. In clause (B)(ii), the words "the sum of the fractions obtained by" are substituted for "a sum of terms, each term of which is a fraction created by" to eliminate unnecessary words.

Subsection (a)(2)(A) is substituted for "as defined in section 2012(b)(2) of this title" for clarity.

In subsection (a)(2)(B), before clause (i), the words "the Administrator shall include in the calculation of average fuel economy" are substituted for "the average fuel economy will be calculated . . . to include" for clarity. The text of 15:2003(a)(3)(B) is omitted as executed. The words "determine and propose" are substituted for "propose" for clarity and consistency with the authority of the Secretary under the source provisions. The words "based on the following factors" are substituted for "Determination of these fuel economy values will take into account the following parameters" for clarity and to eliminate unnecessary words. The factors in clauses (i)–(iv) are applied to revisions in fuel economy values for clarity and consistency with the authority of the Secretary under the source provisions. In clause (iv), the words "patterns of use" are substituted for "driving patterns" for clarity.

In subsection (b)(1), before clause (A), the text of 15:2003(b)(2)(A)–(D) is omitted as executed. In clause (A), the words "is imported . . . more than 30 days after" are substituted for "is not imported . . . prior to the expiration of 30 days following" for clarity and for consistency in the revised chapter. The words "The EPA Administrator may prescribe rules for purposes of carrying out this subparagraph" are omitted as surplus because of the authority of the Administrator to prescribe regulations under section 32910(d) of the revised title. The term "regulations" is used in section 32910(d) instead of "rules" for consistency in the revised title and because the terms are synonymous. In clause (B), the words "which is imported by a manufacturer in model year 1978 or any subsequent year, as the case may be, and" are omitted as surplus.

In subsection (b)(2)(A), before clause (i), the words "Except as provided in paragraphs (4) and (5) of this subsection" are added for clarity. The words "the Administrator shall make separate calculations" are substituted for "In calculating average fuel economy . . . the EPA Administrator shall separate the total number of passenger automobiles manufactured by a manufacturer into the following two categories" and "The EPA Administrator shall calculate the average fuel economy of each such separate category" to eliminate unnecessary words. In clauses (i) and (ii), the reference in the parenthetical to paragraph (3) is substituted for the reference in the source to paragraph (3), which apparently should have been a reference to paragraph (4). The text of 15:2003(b)(1)(A) (words in parentheses) and (B) (words in parentheses) is omitted as executed.

Subsection (b)(2)(B) is substituted for 15:2003(b)(1) (words after last comma) because of the restatement.

In subsection (b)(3)(A), before clause (i), the word "deadlines" is substituted for "dates" for clarity. The text

of 15:2003(b)(4)(C) is omitted as executed.

In subsection (b)(4)(A), before clause (i), the words "A manufacturer may file with the Secretary of Transportation a petition for an exemption from the requirement of separate calculations under paragraph (2)(A) of this subsection" are substituted for "petition . . . for an exemption from the provisions of paragraph (1) filed by a manufacturer, the Secretary" for clarity.

In subsection (b)(5)(B), the words "judgment of the court under this subparagraph may be reviewed" are substituted for "judgment of the court affirming, remanding, or setting aside, in whole or in part, any such decision shall be final, subject to review" to eliminate unnecessary words.

In subsection (b)(5)(C), the words "Notwithstanding any other provision of law" are omitted as surplus. The words "a petition for" are added for consistency.

In subsection (c), the words "of a model type" and "of a manufacturer" are omitted as surplus. The words "by rule" are omitted as surplus because of the authority of the Administrator to prescribe regulations under section 32910(d) of the revised title. The term "regulations" is used in section 32910(d) instead of "rules" for consistency in the revised title and because the terms are synonymous. The words "However . . . the Administrator shall use the same procedures for passenger automobiles the Administrator used" are substituted for "Procedures so established with respect to passenger automobiles . . . shall be the procedures utilized by the EPA Administrator" for clarity. The words "(in accordance with rules of the EPA Administrator)" are omitted as surplus. The words "fuel economy tests shall be carried out with" are substituted for "Procedures under this subsection . . . shall require that fuel economy tests be conducted in conjunction with" to eliminate unnecessary words.

In subsection (d), the words "The Administrator shall prescribe a procedure under this section, or an amendment . . . at least" are substituted for "Testing and calculation procedures applicable to a model year and any amendment to such procedures . . . shall be promulgated not less than" to eliminate unnecessary words.

(b) DUAL FUELED AUTOMOBILES.—Except as provided in subsection (d) of this section or section 32904(a)(2) of this title, for any model of dual fueled automobile manufactured by a manufacturer in model years 1993 through 2019, the Administrator of the Environmental Protection Agency shall measure the fuel economy for that model by dividing 1.0 by the sum of—

- (1) .5 divided by the fuel economy measured under section 32904(c) of this title when operating the model on gasoline or diesel fuel; and
- (2) .5 divided by the fuel economy—
 - (A) measured under subsection (a) when operating the model on alternative fuel; or
 - (B) measured based on the fuel content of B20 when operating the model on B20, which is deemed to contain 0.15 gallon of fuel.

(c) GASEOUS FUEL DEDICATED AUTOMOBILES.—For any model of gaseous fuel dedicated automobile manufactured by a manufacturer after model year 1992, the Administrator shall measure the fuel economy for that model based on the fuel content of the gaseous fuel used to operate the automobile. One hundred cubic feet of natural gas is deemed to contain .823 gallon equivalent of natural gas. The Secretary of Transportation shall determine the appropriate gallon equivalent of other gaseous fuels. A gallon equivalent of gaseous fuel is deemed to have a fuel content of .15 gallon of fuel.

(d) GASEOUS FUEL DUAL FUELED AUTOMOBILES.—For any model of gaseous fuel dual fueled automobile manufactured by a manufacturer in model years 1993 through 2019, the Administrator shall measure the fuel economy for that model by dividing 1.0 by the sum of—

- (1) .5 divided by the fuel economy measured under section 32904(c) of this title when operating the model on gasoline or diesel fuel; and
- (2) .5 divided by the fuel economy measured under subsection (c) of this section when operating the model on gaseous fuel.

(e) ELECTRIC DUAL FUELED AUTOMOBILES.—

(1) IN GENERAL.—At the request of the manufacturer, the Administrator may measure the fuel economy for any model of dual fueled automobile manufactured after model year 2015 that is capable of operating on electricity in addition to gasoline or diesel fuel, obtains its electricity from a source external to the vehicle, and meets the minimum driving range requirements established by the Secretary for dual fueled electric automobiles, by dividing 1.0 by the sum of—

- (A) the percentage utilization of the model on gasoline or diesel fuel, as determined by a formula based on the model's alternative fuel range, divided by the fuel economy measured under section 32904(c); and
- (B) the percentage utilization of the model on electricity, as determined by a formula based on the model's alternative fuel range, divided by the fuel economy measured under section 32904(a)(2).

(2) ALTERNATIVE CALCULATION.—If the manufacturer does not request that the Administrator calculate the manufacturing incentive for its electric dual fueled automobiles in accordance with paragraph (1), the Administrator shall calculate such incentive for such automobiles manufactured by such manufacturer after model year 2015 in accordance with subsection (b).

(f) **FUEL ECONOMY CALCULATIONS.**—The Administrator shall calculate the manufacturer's average fuel economy under section 32904(a)(1) of this title for each model described under subsections (a)–(d) of this section by using as the denominator the fuel economy measured for each model under subsections (a)–(d).

(g) **FUEL ECONOMY INCENTIVE REQUIREMENTS.**—In order for any model of dual fueled automobile to be eligible to receive the fuel economy incentives included in section 32906(a) and (b), a label shall be attached to the fuel compartment of each dual fueled automobile of that model, notifying that the vehicle can be operated on an alternative fuel and on gasoline or diesel, with the form of alternative fuel stated on the notice. This requirement applies to dual fueled automobiles manufactured on or after September 1, 2006.

The words "territory or possession" are substituted for "Territory" for consistency in the revised title and with other titles of the United States Code. The words "except that in applying such term to this section, the term 'automobile' has the same meaning as such term has in section 2001(1) of this title (taking into account paragraph (3) of this subsection)" are omitted as surplus.

In subsection (b)(1), before clause (A), the text of 15:2006(a)(2) is omitted as executed. The words "Except as otherwise provided in paragraph (2)" are omitted as surplus because 15:2006(a)(2) is executed and is not

part of the revised title. The words "Under regulations of the Administrator of the Environmental Protection Agency" are substituted for "as determined in accordance with rules of the EPA Administrator" and the text of 15:2006(a)(3) (1st, 2d sentences) to eliminate unnecessary words, for consistency in the revised title, and because "rules" is synonymous with "regulations". The word "attach" is substituted for "cause to be affixed", to eliminate unnecessary words. The words "after model year 1976" are omitted as executed. The words "The label shall contain the following information" are substituted for "indicating" and "containing" for clarity. In clause (C), the words "of all manufacturers" are substituted for "(whether or not manufactured by such manufacturer)" to eliminate unnecessary words. In clause (D), the words "a booklet is available from the dealer to assist in making a comparison of fuel economy of other automobiles manufactured by all manufacturers in that model year" are substituted for "written information (as described in subsection (b)(1) of this section) with respect to the fuel economy of other automobiles manufactured in such model year (whether or not manufactured by such manufacturer) is available from the dealer in order to facilitate comparison among the various model types" to eliminate unnecessary words. In clause (E), the words "automobile fuel efficiency tax imposed on the sale of the automobile under section 4064 of the Internal Revenue Code of 1986 (26 U.S.C. 4064)" are substituted for "in the case of any automobile, the sale of which is subject to any Federal tax imposed with respect to automobile fuel efficiency, a statement indicating the amount of such tax" for clarity.

In subsection (b)(3)(D), the words "Secretary of Energy" are substituted for "Department of Energy" because of 42:7131.

In subsection (c)(1), before clause (A), the words "compile and" are omitted as surplus.

In subsection (c)(3), the words "not later than July 31, 1976" are omitted as executed. The words "make the booklet available to prospective buyers" are substituted for "make available to prospective purchasers information compiled by the EPA Administrator under paragraph (1)" to eliminate unnecessary words.

In subsection (d), the words "which is required to be made", "an express or implied", and "that such fuel economy will be achieved, or that such cost will not be exceeded, under conditions of actual use" are omitted as surplus.

In subsection (f), the words "his duties under" are omitted as surplus.

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 1994 AMENDMENT

Amendment by Pub. L. 103-429 effective July 5, 1994, see section 9 of Pub. L. 103-429, set out as a note under section 321 of this title.

§32911. Compliance

(a) **GENERAL.**—A person commits a violation if the person fails to comply with this chapter and regulations and standards prescribed and orders issued under this chapter (except sections 32902, 32903, 32908(b), 32917(b), and 32918 and regulations and standards prescribed and orders issued under those sections). The Secretary of Transportation shall conduct a proceeding, with an opportunity for a hearing on the record, to decide whether a person has committed a violation. Any interested person may participate in a proceeding under this subsection.

(b) **AUTOMOBILE MANUFACTURERS.**—A manufacturer of automobiles commits a violation if the manufacturer fails to comply with an applicable average fuel economy standard under section 32902 of this title. Compliance is determined after considering credits available to the manufacturer under section 32903 of this title. If average fuel economy calculations under section 32904(c) of this title indicate that a manufacturer has violated this subsection, the Secretary shall conduct a proceeding, with an opportunity for a hearing on the record, to decide whether a violation has been committed. The Secretary may not conduct the proceeding if further measurements of fuel economy,

further calculations of average fuel economy, or other information indicates a violation has not been committed. The results of the measurements and calculations and the information shall be published in the Federal Register. Any interested person may participate in a proceeding under this subsection. (Pub. L. 103–272, §1(e), July 5, 1994, 108 Stat. 1071; Pub. L. 103–429, §6(40), Oct. 31, 1994, 108 Stat. 4382.)

AMENDMENTS

1994—Subsec. (a). Pub. L. 103–429 substituted ", 32917(b), and 32918" for ", and 32917(b)".

§32912. Civil penalties

(b) **PENALTY FOR MANUFACTURER VIOLATIONS OF FUEL ECONOMY STANDARDS**

.—Except as provided in subsection (c) of this section, a manufacturer that violates a standard prescribed for a model year under section 32902 of this title is liable to the Government for a civil penalty of \$5 multiplied by each .1 of a mile a gallon by which the applicable average fuel economy standard under that section exceeds the average fuel economy—

- (1) calculated under section 32904(a)(1)(A) or (B) of this title for automobiles to which the standard applies manufactured by the manufacturer during the model year;
- (2) multiplied by the number of those automobiles; and
- (3) reduced by the credits available to the manufacturer under section 32903 of this title for the model year.

(c) **HIGHER PENALTY AMOUNTS.**—(1)(A) The Secretary of Transportation shall prescribe by regulation a higher amount for each .1 of a mile a gallon to be used in calculating a civil penalty under subsection (b) of this section, if the Secretary decides that the increase in the penalty—

- (ii) will not have a substantial deleterious impact on the economy of the United States, a State, or a region of a State.

(B) The amount prescribed under subparagraph (A) of this paragraph may not be more than \$10 for each .1 of a mile a gallon.

(C) The Secretary may make a decision under subparagraph (A)(ii) of this paragraph only when the Secretary decides that it is likely that the increase in the penalty will not—

- (i) cause a significant increase in unemployment in a State or a region of a State;
- (ii) adversely affect competition; or
- (iii) cause a significant increase in automobile imports.

(D) A higher amount prescribed under subparagraph (A) of this paragraph is effective for the model year beginning at least 18 months after the regulation stating the higher amount becomes final.

(2) The Secretary shall publish in the Federal Register a proposed regulation under this subsection and a statement of the basis for the regulation and provide each manufacturer of automobiles a copy of the proposed regulation and the statement. The Secretary shall provide a period of at least 45 days for written public comments on the proposed regulation. The Secretary shall submit a copy of the proposed regulation to the Federal Trade Commission and request the Commission to comment on the proposed regulation within that period. - (C) experts and consultants that provided information to a person that the person includes, or refers to, in an oral presentation.

(3) The Secretary may restrict the questions of an interested person and the Commission when the Secretary decides that the questions are duplicative or not likely to result in a timely and effective resolution of the issues. A transcript shall be kept of a public hearing under this subsection. A copy of the transcript and written comments shall be available to the public at the cost of reproduction.

(4) The Secretary shall publish a regulation prescribed under this subsection in the Federal Register with the decisions required under paragraph (1) of this subsection.

(d) **WRITTEN NOTICE REQUIREMENT.**—The Secretary shall impose a penalty under this section by written notice.

(e) **USE OF CIVIL PENALTIES.**—For fiscal year 2008 and each fiscal year thereafter, from the total amount deposited in the general fund of the Treasury during the preceding fiscal year from fines, penalties, and other funds obtained through enforcement actions conducted pursuant to this section (including funds obtained under consent decrees), the Secretary of the Treasury, subject to the availability of appropriations, shall—

(1) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to support rulemaking under this chapter; and

(2) transfer 50 percent of such total amount to the account providing appropriations to the Secretary of Transportation for the administration of this chapter, which shall be used by the Secretary to carry out a program to make grants to manufacturers for retooling, reequipping, or expanding existing manufacturing facilities in the United States to produce advanced technology vehicles and components.

In this section, the words "whom the Secretary determines under subsection (a) of this section" are omitted as surplus.

In subsection (b), before clause (1)(A), the words "Except as provided in subsection (c) of this section" are added for clarity. The words "that violates a standard prescribed for a model year under section 32902 of this title" are substituted for "to have violated a provision of section 2007(a)(1) of this title with respect to any model year" and "to have violated section 2007(a)(2) of this title" to avoid referring, as in the source, to one provision that in turn refers to another provision. In clause (1), the words "calculated under" are substituted for "established under" for clarity. The reference to section 32904(a)(1)(A), which is a reference to the provision under which average fuel economy for nonpassenger automobiles is calculated, is added for clarity. The reference to section 32904(a)(1)(B), which is a reference to the provision under which average fuel economy for passenger automobiles is calculated, is substituted for the reference in the source to 15:2002(a) and (c),

which is a reference to the provision under which the average fuel economy standard for those automobiles is established, for clarity. The words "in which the violation occurs" are omitted as surplus.

In subsection (c)(1)(A), before clause (i), the words "shall prescribe by regulation" are substituted for "shall, by rule . . . substitute" for consistency in the revised title and because "rule" and "regulation" are synonymous. The words "in accordance with the provisions of this subsection and subsection (e)" are omitted as surplus. The words "be less than \$5.00" are omitted as surplus because under the subsection the Secretary may only raise the amount imposed to \$10, or a \$5 increase. The words "in the absence of such rule" are omitted as surplus. The words "increase in the penalty" are substituted for "additional amount of the civil penalty" for clarity. In clause (ii), the words "subject to subparagraph (B)" are omitted as surplus.

In subsection (c)(1)(C), the words "the later of" and the text of 15:2008(d)(3)(A) are omitted as obsolete.

In subsection (c)(2), before clause (A), the words "After the Secretary of Transportation develops a proposed rule pursuant to subsection (d) of this section" are omitted as surplus. In clause (B), the words "written comments or an oral presentation" are substituted for "written or oral presentations" for consistency in the section. The text of 15:2008(e)(1)(B) (last sentence) and (C) is omitted as surplus because of 5:556(d).

In subsection (c)(5), before clause (A), the words "department, agency, or instrumentality" are substituted for "department or agency" for consistency in the revised title and with other titles of the United States Code.

AMENDMENTS

2007—Subsec. (e). Pub. L. 110–140 added subsec. (e).

STATUTORY NOTES AND RELATED SUBSIDIARIES

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110–140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110–140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§32913. Compromising and remitting civil penalties

(a) **GENERAL AUTHORITY AND LIMITATIONS.**—The Secretary of Transportation may compromise or remit the amount of a civil penalty imposed under section 32912(a) or (b) of this title. However, the amount of a penalty imposed under section 32912(b) may be compromised or remitted only to the extent—

- (1) necessary to prevent the insolvency or bankruptcy of the manufacturer of automobiles;
- (2) the manufacturer shows that the violation was caused by an act of God, a strike, or a fire; or
- (3) the Federal Trade Commission certifies under subsection (b)(1) of this section that a reduction in the penalty is necessary to prevent a substantial lessening of competition.

(b) **CERTIFICATION BY COMMISSION.**—(1) A manufacturer liable for a civil penalty under section 32912(b) of this title may apply to the Commission for a certification that a reduction in the penalty is necessary to prevent a substantial lessening of competition in the segment of the motor vehicle industry subject to the standard that was violated. The Commission shall make the certification when it finds that reduction is necessary to prevent the lessening. The Commission shall state in the certification the maximum amount by which the penalty may be reduced.

(2) An application under this subsection must be made not later than 30 days after the Secretary decides that the manufacturer has violated section 32911(b) of this title. To the maximum extent practicable, the Commission shall make a decision on an application by the 90th day after the application is filed. A proceeding under this subsection may not delay the manufacturer's liability for the penalty for more than 90 days after the application is filed.

(3) When a civil penalty is collected in a civil action under this chapter before a decision of the Commission under this subsection is final, the payment shall be paid to the court in which the action was brought. The court shall deposit the payment in the general fund of the Treasury on the 90th day after the decision of the Commission becomes final. When the court is holding payment of a penalty

reduced under subsection (a)(3) of this section, the Secretary shall direct the court to remit the appropriate amount of the penalty to the manufacturer.

§32914. Collecting civil penalties

(a) **CIVIL ACTIONS.**—If a person does not pay a civil penalty after it becomes a final order of the Secretary of Transportation or a judgment of a court of appeals of the United States for a circuit, the Attorney General shall bring a civil action in an appropriate district court of the United States to collect the penalty. The validity and appropriateness of the final order imposing the penalty is not reviewable in the action.

(b) **PRIORITY OF CLAIMS.**—A claim of a creditor against a bankrupt or insolvent manufacturer of automobiles has priority over a claim of the United States Government against the manufacturer for a civil penalty under section 32912(b) of this title when the creditor's claim is for credit extended before a final judgment (without regard to section 32913(b)(1) and (2) of this title) in an action to collect under subsection (a) of this section.

(b) JOINT EXAMINATIONS AFTER GRANTING EXEMPTIONS.—(1) After an exemption has been granted under section 32904(b)(6) ¹ of this title, the Secretaries of Transportation and Labor shall conduct annually a joint examination of the extent to which section 32904(b)(6)—¹

§32918. Retrofit devices

(a) DEFINITION.—In this section, the term "retrofit device" means any component, equipment, or other device—

(1) that is designed to be installed in or on an automobile (as an addition to, as a replacement for, or through alteration or modification of, any original component, equipment, or other device); and

as determined under regulations of the Administrator of the Environmental Protection Agency. The term also includes a fuel additive for use in an automobile.

(b) EXAMINATION OF FUEL ECONOMY REPRESENTATIONS.—The Federal Trade Commission shall establish a program for systematically examining fuel economy representations made with respect to retrofit devices. Whenever the Commission has reason to believe that any representation may be inaccurate, the Commission shall request the Administrator to evaluate, in accordance with subsection (c) of this section, the retrofit device with respect to which the representation was made.

(c) EVALUATION OF RETROFIT DEVICES.—(1) On application of any manufacturer of a retrofit device (or prototype of a retrofit device), on request of the Commission under subsection (b) of this section, or on the motion of the Administrator, the Administrator shall evaluate, in accordance with regulations prescribed under subsection (e) of this section, any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations, if any, made with respect to the retrofit device are accurate.

(2) If under paragraph (1) of this subsection, the Administrator tests, or causes to be tested, any retrofit device on the application of a manufacturer of the device, the manufacturer shall supply, at the manufacturer's expense, one or more samples of the device to the Administrator and shall be liable for the costs of testing incurred by the Administrator. The procedures for testing retrofit devices so supplied may include a requirement for preliminary testing by a qualified independent testing laboratory, at the expense of the manufacturer of the device.

(d) RESULTS OF TESTS AND PUBLICATION IN FEDERAL REGISTER.—(1) The Administrator shall publish in the Federal Register a summary of the results of all tests conducted under this section, together with the Administrator's conclusions as to—

(A) the effect of any retrofit device on fuel economy;

(B) the effect of the device on emissions of air pollutants; and

(C) any other information the Administrator determines to be relevant in evaluating the device.

(2) The summary and conclusions shall also be submitted to the Secretary of Transportation and the Commission.

(e) REGULATIONS ESTABLISHING TESTS AND PROCEDURES FOR EVALUATION OF RETROFIT DEVICES.—The Administrator shall prescribe regulations establishing—

(1) testing and other procedures for evaluating the extent to which retrofit devices affect fuel economy and emissions of air pollutants; and

(2) criteria for evaluating the accuracy of fuel economy representations made with respect to retrofit devices.

 (J) the trunk floor pan;
 (K) the frame or, for a unitized body, the supporting structure serving as the frame; and
 (L) any other part of a passenger motor vehicle that the Secretary of Transportation by regulation specifies as comparable in design or function to any of the parts listed in subclauses (A)–(K) of this clause.

(7) "major replacement part" means a major part that is—

(A) an original major part in or on a completed motor vehicle and customized or modified after manufacture of the vehicle but before the time of its delivery to the first purchaser; or

(B) not installed in or on a motor vehicle at the time of its delivery to the first purchaser and the equitable or legal title to the vehicle has not been transferred to a first purchaser.

(8) "model year" has the same meaning given that term in section 32901(a) of this title.

(9) "new line" means a line introduced into commerce after December 31, 1989.

(10) "passenger motor vehicle" includes a multipurpose passenger vehicle or light duty truck when that vehicle or truck is rated at not more than 6,000 pounds gross vehicle weight.

§33102. Theft prevention standard for high theft lines

(a) **GENERAL.**—(1) The Secretary of Transportation by regulation shall prescribe a vehicle theft prevention standard that conforms to the requirements of this chapter. The standard shall apply to—

(A) covered major parts that manufacturers install in passenger motor vehicles in lines

designated under section 33104 of this title as high theft lines; and
(B) major replacement parts for the major parts described in clause (A) of this paragraph.

- (2) The standard may apply only to—
(A) major parts that manufacturers install in passenger motor vehicles having a model year designation later than the calendar year in which the standard takes effect; and
(B) major replacement parts manufactured after the standard takes effect.

(b) **STANDARD REQUIREMENTS.**—The standard shall be practicable and provide relevant objective criteria.

(c) **LIMITATIONS ON MAJOR PART AND REPLACEMENT PART STANDARDS.**—(1) For a major part installed by the manufacturer of the motor vehicle, the standard may not require a part to have more than one identification.

(2) For a major replacement part, the standard may not require—

(A) identification of a part not designed as a replacement for a major part required to be identified under the standard; or

(B) the inscribing or affixing of identification except a symbol identifying the manufacturer and a common symbol identifying the part as a major replacement part.

(d) **RECORDS AND REPORTS.**—This chapter does not authorize the Secretary to require a person to keep records or make reports, except as provided in sections 33104(c), 33106(c), 33108(a), and 33112 ¹ of this title.

§33103. Theft prevention standard for other lines

(a) GENERAL.—Not later than October 25, 1994, the Secretary of Transportation shall prescribe a vehicle theft standard that conforms to the requirements of this chapter for covered major parts that manufacturers install in passenger motor vehicles (except light duty trucks) in not more than 50 percent of the lines not designated under section 33104 of this title as high theft lines.

(b) EXTENSION OF APPLICATION.—(1) Not later than 3 years after the standard is prescribed under subsection (a) of this section and based on the finding of the Attorney General under subsection (c) of this section to apply the standard, the Secretary shall apply that standard to covered major parts and major replacement parts for covered parts that manufacturers install in the lines of passenger motor vehicles (except light duty trucks)—

(A) not designated under section 33104 of this title as high theft lines; and

(B) not covered by the standard prescribed under subsection (a) of this section.

(2) The Secretary shall include as part of the regulatory proceeding under this subsection the finding of, and the record developed by, the Attorney General under subsection (c) of this section.

(c) INITIAL REVIEW OF EFFECTIVENESS.—Before the Secretary begins a regulatory proceeding under subsection (b) of this section, the Attorney General shall make a finding that the Secretary shall apply the standard prescribed under subsection (a) of this section unless the Attorney General finds, based on information collected and analyzed under section 33112 ¹ of this title and other information the Attorney General develops after providing notice and an opportunity for a public hearing, that applying the standard prescribed in subsection (a) to the remaining lines of passenger motor vehicles (except light duty trucks) not covered by that standard would not substantially inhibit chop shop operations and motor vehicle thefts. The Attorney General also shall consider and include in the record additional costs, effectiveness, competition, and available alternative factors. The Attorney General shall submit to the Secretary the finding and record on which the finding is based.

(d) LONG RANGE REVIEW OF EFFECTIVENESS.—(1) Not later than December 31, 1999, the Attorney General shall make separate findings, after notice and an opportunity for a public hearing, on the following:

(A) whether the application of the standard under subsection (a) or (b) of this subsection, or both, have been effective in substantially inhibiting the operation of chop shops and motor vehicle theft.

(B) whether the anti-theft devices for which the Secretary has granted exemptions under section 33106 of this title are an effective substitute for parts marking in substantially inhibiting motor vehicle theft.

(2)(A) In making the finding under paragraph (1)(A) of this subsection, the Attorney General shall—

(i) consider the additional cost, competition, and available alternatives;

(ii) base that finding on information collected and analyzed under section 33112 ¹ of this title;

(iii) consider the effectiveness, the extent of use, and the extent to which civil and criminal penalties under section 33115(b) of this title and section 2322 of title 18 on chop shops have been effective in substantially inhibiting operation of chop shops and motor vehicle theft;

(iv) base that finding on the 3-year and 5-year reports issued by the Secretary under section 33113 of this title; and

(v) base that finding on other information the Attorney General develops and includes in the

public record.

(B) The Attorney General shall submit a finding under paragraph (1)(A) of this subsection promptly to the Secretary. If the Attorney General finds that the application of the standard under subsection (a) or (b) of this section, or both, has not been effective, the Secretary shall issue, not later than 180 days after receiving that finding, an order terminating the standard the Attorney General found was ineffective. The termination is effective for the model year beginning after the order is issued.

(3) In making a finding under paragraph (1)(B) of this subsection, the Secretary shall consider the additional cost, competition, and available alternatives. If the Attorney General finds that the anti-theft devices are an effective substitute, the Secretary shall continue to grant exemptions under section 33106 of this title for the model years after model year 2000 at one of the following levels that the Attorney General decides: at the level authorized before October 25, 1992, or at the level provided in section 33106(b)(2)(C) of this title for model year 2000.

(e) **EFFECTIVE DATE OF STANDARD.**—A standard prescribed under this section takes effect at least 6 months after the date the standard is prescribed, except that the Secretary may prescribe an earlier effective date if the Secretary—

- (1) decides with good cause that the earlier date is in the public interest; and
- (2) publishes the reasons for the decision.

(f) **NOTIFICATION OF CONGRESS.**—The Secretary and the Attorney General shall inform the appropriate legislative committees of Congress with jurisdiction over this part and section 2322 of title 18 of actions taken or planned under this section.

In subsection (e), the text of 15:2022(c)(4) (related to the standard under 15:2022(c)(1)) is omitted as obsolete because the standard under 15:2022(c)(1) has already been prescribed. See 49 C.F.R. 541.

§33104. Designation of high theft vehicle lines and parts

(a) DESIGNATION, NONAPPLICATION, SELECTION, AND PROCEDURES.—(1) For purposes of the standard under section 33102 of this title, the following are high theft lines:

(A) a passenger motor vehicle line determined under subsection (b) of this section to have had a new passenger motor vehicle theft rate in the 2-year period covering calendar years 1990 and 1991 greater than the median theft rate for all new passenger motor vehicle thefts in that 2-year period.

(B) a passenger motor vehicle line initially introduced into commerce in the United States after December 31, 1989, that is selected under paragraph (3) of this subsection as likely to have a theft rate greater than the median theft rate referred to in clause (A) of this paragraph.

(C) subject to paragraph (2) of this subsection, a passenger motor vehicle line having (for existing lines) or likely to have (for new lines) a theft rate below the median theft rate referred to in clause (A) of this paragraph, if the major parts in the vehicles are selected under paragraph (3) of this subsection as interchangeable with the majority of the major parts that are subject to the standard and are contained in the motor vehicles of a line described in clause (A) or (B) of this paragraph.

(2) The standard may not apply to any major part of a line described in paragraph (1)(C) of this subsection if all the passenger motor vehicles of lines that are, or are likely to be, below the median theft rate, and that contain parts interchangeable with the major parts of the line involved, account (for existing lines), or the Secretary of Transportation determines they are likely to account (for new lines), for more than 90 percent of the total annual production of all lines of that manufacturer containing those interchangeable parts.

(3) The lines, and the major parts of the passenger motor vehicles in those lines, that are to be subject to the standard may be selected by agreement between the manufacturer and the Secretary. If the manufacturer and the Secretary disagree on the selection, the Secretary shall select the lines and parts, after notice to the manufacturer and opportunity for written comment, and subject to the confidentiality requirements of this chapter.

(4) To the maximum extent practicable, the Secretary shall prescribe reasonable procedures designed to ensure that a selection under paragraph (3) of this subsection is made at least 6 months before the first applicable model year beginning after the selection.

(5) A manufacturer may not be required to comply with the standard under a selection under paragraph (3) of this subsection for a model year beginning earlier than 6 months after the date of the selection.

(6) A passenger motor vehicle line subject on October 25, 1992, to parts marking requirements under sections 602 and 603 of the Motor Vehicle Information and Cost Savings Act (Public Law 92–513, 86 Stat. 947), as added by section 101(a) of the Motor Vehicle Theft Law Enforcement Act of 1984 (Public Law 98–547, 98 Stat. 2756), continues to be subject to the requirements of this section and section 33102 of this title unless the line is exempted under section 33106 of this title.

(b) DETERMINING THEFT RATE FOR PASSENGER VEHICLES.—(1) In this subsection, "new passenger motor vehicle thefts", when used in reference to a calendar year, means thefts in the United States in that year of passenger motor vehicles with the same model-year designation as that calendar year.

(2) Under subsection (a) of this section, the theft rate for passenger motor vehicles of a line shall be determined by a fraction—

(A) the numerator of which is the number of new passenger motor vehicle thefts for that line during the 2-year period referred to in subsection (a)(1)(A) of this section; and

(B) the denominator of which is the sum of the respective production volumes of all passenger motor vehicles of that line (as reported to the Administrator of the Environmental Protection Agency under chapter 329 of this title) that are of model years 1990 and 1991 and are distributed for sale in commerce in the United States.

(3) Under subsection (a) of this section, the median theft rate for all new passenger motor vehicle thefts during that 2-year period is the theft rate midway between the highest and the lowest theft rates determined under paragraph (2) of this subsection. If there is an even number of theft rates determined under paragraph (2), the median theft rate is the arithmetic average of the 2 adjoining theft rates midway between the highest and the lowest of those theft rates.

(4) In consultation with the Director of the Federal Bureau of Investigation, the Secretary periodically shall obtain from the most reliable source accurate and timely theft and recovery information and publish the information for review and comment. To the greatest extent possible, the Secretary shall use theft information reported by United States Government, State, and local police. After publication and opportunity for comment, the Secretary shall use the theft information to determine the median theft rate under this subsection. The Secretary and the Director shall take any necessary actions to improve the accuracy, reliability, and timeliness of the information, including ensuring that vehicles represented as stolen are really stolen.

(5) The Secretary periodically (but not more often than once every 2 years) may redetermine and prescribe by regulation the median theft rate under this subsection.

(c) PROVIDING INFORMATION.—The Secretary by regulation shall require each manufacturer to provide information necessary to select under subsection (a)(3) of this section the high theft lines and the major parts to be subject to the standard.

(d) APPLICATION.—Except as provided in section 33106 of this title, the Secretary may not make the standard inapplicable to a line that has been subject to the standard.

The substitution also makes it clear that the 2-year period is to be treated as a single period.

In subsection (a)(1)(B), the words "after December 31, 1989," are substituted for "after the beginning of the 2-year period specified in subparagraph (A)" for consistency with clause (A).

In subsection (a)(6), the word "passenger" is added because the source provisions in the revised chapter apply to passenger motor vehicles.

In subsection (b)(2)(B), the words "Administrator of the" are added for clarity and consistency because of section 1(b) of Reorganization Plan No. 3 of 1970 (eff. Dec. 2, 1970, 84 Stat. 2086). The words "model years 1983 and 1984" are substituted for "the 2 model years having the same model-year designations as the 2 calendar years specified in subsection (a)(1)(A) of this section" because the particular years are now known.

§33105. Cost limitations

(a) **MAXIMUM MANUFACTURER COSTS.**—A standard under section 33102 or 33103 of this title may not impose—

- (1) on a manufacturer of motor vehicles, compliance costs of more than \$15 a motor vehicle; or
- (2) on a manufacturer of major replacement parts, compliance costs for each part of more than the reasonable amount (but less than \$15) that the Secretary of Transportation specifies in the standard.

(b) **COSTS INVOLVED IN ENGINES AND TRANSMISSIONS.**—For a manufacturer engaged in identifying engines or transmissions on October 25, 1984, in a way that substantially complies with the standard—

- (1) the costs of identifying engines and transmissions may not be considered in calculating the manufacturer's costs under subsection (a) of this section; and

(2) the manufacturer may not be required under the standard to conform to any identification system for engines and transmissions that imposes greater costs on the manufacturer than are incurred under the identification system used by the manufacturer on October 25, 1984.

(c) COST ADJUSTMENTS.—(1) In this subsection—

§33106. Exemption for passenger motor vehicles equipped with anti-theft devices

(a) DEFINITIONS.—In this section—

(1) "anti-theft device" means a device to reduce or deter theft that—

(A) is in addition to the theft-deterrent devices required by motor vehicle safety standard numbered 114 in section 571.114 of title 49, Code of Federal Regulations;

(B) the manufacturer believes will be effective in reducing or deterring theft of motor vehicles; and

(C) does not use a signaling device reserved by State law for use on police, emergency, or official vehicles, or on schoolbuses.

(2) "standard equipment" means equipment already installed in a motor vehicle when it is delivered from the manufacturer and not an accessory or other item that the first purchaser customarily has the option to have installed.

(b) GRANTING EXEMPTIONS AND LIMITATIONS.—(1) A manufacturer may petition the Secretary of Transportation for an exemption from a requirement of a standard prescribed under section 33102 or 33103 of this title for a line of passenger motor vehicles equipped as standard equipment with an anti-theft device that the Secretary decides is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the standard.

(2) The Secretary may grant an exemption—

(A) for model year 1987, for not more than 2 lines of a manufacturer;

(B) for each of the model years 1988–1996, for not more than 2 additional lines of a manufacturer;

(C) for each of the model years 1997–2000, for not more than one additional line of a manufacturer; and

(D) for each of the model years after model year 2000, for the number of lines that the Attorney General decides under section 33103(d)(3) of this title.

(3) An additional exemption granted under paragraph (2)(B) or (C) of this subsection does not affect an exemption previously granted.

(c) PETITIONING PROCEDURE.—A petition must be filed not later than 8 months before the start of production for the first model year covered by the petition. The petition must include—

(1) a detailed description of the device;

(2) the reasons for the manufacturer's conclusion that the device will be effective in reducing and deterring theft of motor vehicles; and

(3) additional information the Secretary reasonably may require to make the decision described in subsection (b)(1) of this section.

(d) DECISIONS AND APPROVALS.—The Secretary shall make a decision about a petition filed under this section not later than 120 days after the date the petition is filed. A decision approving a petition must be based on substantial evidence. The Secretary may approve a petition in whole or in part. If the Secretary does not make a decision within the 120-day period, the petition shall be deemed to be approved and the manufacturer shall be exempt from the standard for the line covered by the petition for the subsequent model year.

(e) RESCISSIONS.—The Secretary may rescind an exemption if the Secretary decides that the anti-theft device has not been as effective in reducing and deterring motor vehicle theft as compliance with the standard. A rescission may be effective only—

(1) for a model year after the model year in which the rescission occurs; and

(2) at least 6 months after the manufacturer receives written notice of the rescission from the Secretary.

§33107. Voluntary vehicle identification standards

(a) **ELECTION TO INSCRIBE OR AFFIX IDENTIFYING MARKS.**—The Secretary of Transportation by regulation may prescribe a vehicle theft prevention standard under which a person may elect to inscribe or affix an identifying number or symbol on major parts of a motor vehicle manufactured or owned by the person for purposes of section 511 of title 18 and related provisions. TERMINATION OF ADVISORY COMMITTEES

Advisory committees established after Jan. 5, 1973, to terminate not later than the expiration of 2-year period beginning on date of their establishment, unless, in the case of a committee established by the President or an officer of the Federal Government, such committee is renewed by appropriate action prior to expiration of such 2-year period, or in the case of a committee established by Congress, its duration is otherwise provided for by law. §33110. Verifications involving junk and salvage motor vehicles

(a) DEFINITION.—In this section, "vehicle identification number" means a unique identification number (or derivative of that number) assigned to a passenger motor vehicle by a manufacturer in compliance with applicable regulations.

(b) GENERAL REQUIREMENTS.—(1) If an insurance carrier selling comprehensive motor vehicle insurance coverage obtains possession of and transfers a junk motor vehicle or a salvage motor vehicle, the carrier shall—

(A) under procedures the Attorney General prescribes by regulation under section 33109 of this title in consultation with the Secretary of Transportation, verify whether the vehicle is reported as stolen; and

(B) provide the purchaser or transferee of the vehicle from the insurance carrier verification identifying the vehicle identification number and verifying that the vehicle has not been reported as stolen or, if reported as stolen, that the carrier has recovered the vehicle and has proper legal title to the vehicle.

(2)(A) This subsection does not prohibit an insurance carrier from transferring a motor vehicle if, within a reasonable period of time during normal business operations (as decided by the Attorney General under section 33109 of this title) using reasonable efforts, the carrier—

(i) has not been informed under the procedures prescribed in section 33109 of this title that the vehicle has not been reported as stolen; or

(ii) has not otherwise established whether the vehicle has been reported as stolen.

(B) When a carrier transfers a motor vehicle for which the carrier has not established whether the vehicle has been reported as stolen, the carrier shall provide written certification to the transferee that the carrier has not established whether the vehicle has been reported as stolen.

(1) manufacture for sale, sell, offer for sale, introduce or deliver for introduction in interstate commerce, or import into the United States, a motor vehicle or major replacement part subject to a standard prescribed under section 33102 or 33103 of this title, unless it conforms to the standard;

(2) fail to comply with a regulation prescribed by the Secretary of Transportation or Attorney General under this chapter;

(3) fail to keep specified records, refuse access to or copying of records, fail to make reports or provide items or information, or fail or refuse to allow entry or inspection, as required by this chapter;

(4) fail to provide the certification required by section 33108(c) of this title, or provide a certification that the person knows, or in the exercise of reasonable care has reason to know, is false or misleading in a material respect; or

(5) knowingly—

(A) own, operate, maintain, or control a chop shop;

(B) conduct operations in a chop shop; or

(C) transport a passenger motor vehicle or passenger motor vehicle part to or from a chop shop.

(b) NONAPPLICATION.—Subsection (a)(1) of this section does not apply to a person establishing that in the exercise of reasonable care the person did not have reason to know that the motor vehicle or major replacement part was not in conformity with the standard.

In subsection (a)(1), the words "which is manufactured on or after the date the standard under section 2022 of this title takes effect under this subchapter for such vehicle or major replacement part" are omitted as obsolete because the standard applies to passenger motor vehicles and major replacement parts starting with the 1987 model year. See 50 Fed. Reg. 43166 (1985).

In subsection (a)(5)(A), the words "of any kind" are omitted as unnecessary because of the definition of "chop shop" in section 33101 of the revised title.

§33115. Civil penalties and enforcement

(a) GENERAL PENALTY AND CIVIL ACTIONS TO COLLECT.—(1) A person that violates section 33114(a)(1)–(4) of this title is liable to the United States Government for a civil penalty of not more than \$1,000 for each violation. The failure of more than one part of a single motor vehicle to conform to an applicable standard under section 33102 or 33103 of this title is only a single violation. The maximum penalty under this subsection for a related series of violations is \$250,000.

(2) The Secretary of Transportation imposes a civil penalty under this subsection. The Secretary may compromise the amount of a penalty.

(3) In determining the amount of a civil penalty or compromise under this subsection, the Secretary shall consider the size of the person's business and the gravity of the violation.

(4) The Attorney General shall bring a civil action in a United States district court to collect a civil penalty imposed under this subsection.

(5) The Government may deduct the amount of a civil penalty imposed or compromised under this subsection from amounts it owes the person liable for the penalty.

(b) CHOP SHOP PENALTY AND ENFORCEMENT.—(1) A person that violates section 33114(a)(5) of this title is liable to the Government for a civil penalty of not more than \$100,000 a day for each violation.

(2) As appropriate and in consultation with the Attorney General, the Secretary shall—

(A) bring a civil action for a temporary or permanent injunction to restrain a person violating section 33114(a)(5) of this section;

(B) impose and recover the penalty described in paragraph (1) of this subsection; or

(C) take both the actions described in clauses (A) and (B) of this paragraph.

(c) CIVIL ACTIONS TO ENFORCE.—(1) The Attorney General may bring a civil action in a United States district court to enjoin a violation of this chapter or the sale, offer for sale, introduction or delivery for introduction in interstate commerce, or importation into the United States, of a passenger motor vehicle containing a major part, or of a major replacement part, that is subject to the standard and is determined before the sale of the vehicle or part to a first purchaser not to conform to the standard.

(2)(A) When practicable, the Secretary—

(i) shall notify a person against whom an action under this subsection is planned;

(ii) shall give the person an opportunity to present that person's views; and

(iii) except for a knowing and willful violation, shall give the person a reasonable opportunity to comply.

(B) The failure of the Secretary to comply with subparagraph (A) of this paragraph does not prevent a court from granting appropriate relief.

(d) JURY TRIAL DEMAND.—In a trial for criminal contempt for violating an injunction or restraining order issued under subsection (c) of this section, the violation of which is also a violation of this chapter, the defendant may demand a jury trial. The defendant shall be tried as provided in rule 42(b) of the Federal Rules of Criminal Procedure (18 App. U.S.C.).

(e) VENUE.—A civil action under subsection (a) or (c) of this section may be brought in the judicial district in which the violation occurred or the defendant resides, is found, or transacts business. Process in the action may be served in any other judicial district in which the defendant resides or is found. A subpoena for a witness in the action may be served in any judicial district.

In subsection (a)(1), the words "section 33114(a)(1)–(4)" are used to correct an erroneous cross-reference in section 611(a)(1) of the Motor Vehicle Information and Cost Savings Act (Public Law 92–513, 86 Stat. 947) to section 607 of that Act. Sections 607 and 611 were redesignated by section 306(a) of the Anti Car Theft Act of 1992 (Public Law 102–519, 106 Stat. 3397). The words "is liable to the United States Government for a civil penalty" are substituted for "may be assessed a civil penalty" for consistency in the revised title and with other titles of the United States Code.

In subsection (a)(2), the word "imposes" is substituted for "assessed" for consistency.

In subsection (a)(3), the words "the appropriateness of such penalty to" are omitted as surplus.

In subsection (a)(5), the words "United States district court" are added for clarity and consistency in the revised title.

In subsection (c)(1), the words "The Attorney General may bring a civil action" are substituted for "Upon petition by the Attorney General" for consistency with rule 2 of the Federal Rules of Civil Procedure (28 App. U.S.C.). The words "on behalf of the United States" are omitted as surplus. The words "shall have jurisdiction" are omitted because of 28:1331. The words "for cause shown and subject to the provisions of rule 65(a) and (b) of the Federal Rules of Civil Procedure" are omitted as surplus because the rules apply in the absence of an exception from them. The word "enjoin" is substituted for "restrain" for consistency in the revised title.

In subsection (d), the words "the defendant may demand a jury trial" are substituted for "trial shall be by the court, or, upon demand of the accused, by a jury" to eliminate unnecessary words and for consistency in the revised title.

§33116. Confidentiality of information

(a) GENERAL.—Information obtained by the Secretary of Transportation under this chapter related to a confidential matter referred to in section 1905 of title 18 may be disclosed only—

(1) to another officer or employee of the United States Government for use in carrying out this chapter; or

(2) in a proceeding under this chapter (except a proceeding under section 33104(a)(3)).

(b) WITHHOLDING INFORMATION FROM CONGRESS.—This section does not authorize information to be withheld from a committee of Congress authorized to have the information.

§306(a), 106 Stat. 3397.

In subsection (a), before clause (1), the words "reported to, or otherwise" and "or the Secretary's representative" are omitted as surplus. The words "related to a confidential matter referred to" are substituted for "contains or relates to a trade secret or other matter referred to" to eliminate unnecessary words and for consistency in the revised title. The words "or in section 552(b)(4) of title 5" are omitted as surplus because the language in 18:1905 is broader than the language in 5:552(b)(4) and for consistency with similar provisions in other chapters in this part. The words "shall be considered confidential for the purpose of the applicable section of this subchapter" are omitted as surplus. In clause (1), the words "for use in carrying out" are substituted for "concerned with carrying out" for consistency with similar provisions in other chapters in this part. In clause (2), the words "when relevant" are omitted as surplus. The cross-reference to 15:2023(a)(3) is omitted. The text of 15:2023(a)(3), originally enacted as section 603(a)(3) of the Motor Vehicle Information and Cost Savings Act (Public Law 92–513, 86 Stat. 947), was repealed by section 303(2) of the Anti Car Theft Act of 1992 (Public Law 102–519, 106 Stat. 3396). Section 303(2) also redesignated subsection (a)(4) as subsection (a)(3). However, a corresponding amendment to correct the cross-reference in the source provisions restated in this section was not made.

In subsection (b), the words "authorized to have the information" are added for clarity and consistency with similar provisions in other chapters in this part.

§33117. Judicial review

A person that may be adversely affected by a regulation prescribed under this chapter may obtain judicial review of the regulation under section 32909 of this title. A remedy under this section is in addition to any other remedies provided by law.

§40101. Policy

(a) **ECONOMIC REGULATION.**—In carrying out subpart II of this part and those provisions of subpart IV applicable in carrying out subpart II, the Secretary of Transportation shall consider the following matters, among others, as being in the public interest and consistent with public convenience and necessity:

(1) assigning and maintaining safety as the highest priority in air commerce.

(2) before authorizing new air transportation services, evaluating the safety implications of those services.

(3) preventing deterioration in established safety procedures, recognizing the clear intent, encouragement, and dedication of Congress to further the highest degree of safety in air transportation and air commerce, and to maintain the safety vigilance that has evolved in air transportation and air commerce and has come to be expected by the traveling and shipping public.

(4) the availability of a variety of adequate, economic, efficient, and low-priced services without unreasonable discrimination or unfair or deceptive practices.

(5) coordinating transportation by, and improving relations among, air carriers, and encouraging fair wages and working conditions.

(6) placing maximum reliance on competitive market forces and on actual and potential competition—

(A) to provide the needed air transportation system; and

(B) to encourage efficient and well-managed air carriers to earn adequate profits and attract capital, considering any material differences between interstate air transportation and foreign air transportation.

(7) developing and maintaining a sound regulatory system that is responsive to the needs of the public and in which decisions are reached promptly to make it easier to adapt the air transportation system to the present and future needs of—

(A) the commerce of the United States;

(B) the United States Postal Service; and

(C) the national defense.

(8) encouraging air transportation at major urban areas through secondary or satellite airports if consistent with regional airport plans of regional and local authorities, and if endorsed by

appropriate State authorities—

(A) encouraging the transportation by air carriers that provide, in a specific market, transportation exclusively at those airports; and

(B) fostering an environment that allows those carriers to establish themselves and develop secondary or satellite airport services.

(9) preventing unfair, deceptive, predatory, or anticompetitive practices in air transportation.

(10) avoiding unreasonable industry concentration, excessive market domination, monopoly powers, and other conditions that would tend to allow at least one air carrier or foreign air carrier unreasonably to increase prices, reduce services, or exclude competition in air transportation.

(11) maintaining a complete and convenient system of continuous scheduled interstate air transportation for small communities and isolated areas with direct financial assistance from the United States Government when appropriate.

(12) encouraging, developing, and maintaining an air transportation system relying on actual and potential competition—

(A) to provide efficiency, innovation, and low prices; and

(B) to decide on the variety and quality of, and determine prices for, air transportation services.

(13) encouraging entry into air transportation markets by new and existing air carriers and the continued strengthening of small air carriers to ensure a more effective and competitive airline industry.

(14) promoting, encouraging, and developing civil aeronautics and a viable, privately-owned United States air transport industry.

(15) strengthening the competitive position of air carriers to at least ensure equality with foreign air carriers, including the attainment of the opportunity for air carriers to maintain and increase their profitability in foreign air transportation.

(16) ensuring that consumers in all regions of the United States, including those in small communities and rural and remote areas, have access to affordable, regularly scheduled air service.

(b) **ALL-CARGO AIR TRANSPORTATION CONSIDERATIONS.**—In carrying out subpart II of this part and those provisions of subpart IV applicable in carrying out subpart II, the Secretary of Transportation shall consider the following matters, among others and in addition to the matters referred to in subsection (a) of this section, as being in the public interest for all-cargo air transportation:

(1) encouraging and developing an expedited all-cargo air transportation system provided by private enterprise and responsive to—

(A) the present and future needs of shippers;

(B) the commerce of the United States; and

(C) the national defense.

(2) encouraging and developing an integrated transportation system relying on competitive market forces to decide the extent, variety, quality, and price of services provided.

(3) providing services without unreasonable discrimination, unfair or deceptive practices, or predatory pricing.

(c) **GENERAL SAFETY CONSIDERATIONS.**—In carrying out subpart III of this part and those provisions of subpart IV applicable in carrying out subpart III, the Administrator of the Federal Aviation Administration shall consider the following matters:

(1) the requirements of national defense and commercial and general aviation.

(2) the public right of freedom of transit through the navigable airspace.

(d) **SAFETY CONSIDERATIONS IN PUBLIC INTEREST.**—In carrying out subpart III of this

part and those provisions of subpart IV applicable in carrying out subpart III, the Administrator shall consider the following matters, among others, as being in the public interest:

- (5) consolidating research and development for air navigation facilities and the installation and operation of those facilities.
- (6) developing and operating a common system of air traffic control and navigation for military and civil aircraft.
- (7) providing assistance to law enforcement agencies in the enforcement of laws related to regulation of controlled substances, to the extent consistent with aviation safety.

(e) **INTERNATIONAL AIR TRANSPORTATION.**—In formulating United States international air transportation policy, the Secretaries of State and Transportation shall develop a negotiating policy emphasizing the greatest degree of competition compatible with a well-functioning international air transportation system, including the following:

(1) strengthening the competitive position of air carriers to ensure at least equality with foreign air carriers, including the attainment of the opportunity for air carriers to maintain and increase their profitability in foreign air transportation.

(2) freedom of air carriers and foreign air carriers to offer prices that correspond to consumer demand.

(3) the fewest possible restrictions on charter air transportation.

(4) the maximum degree of multiple and permissive international authority for air carriers so that they will be able to respond quickly to a shift in market demand.

(5) eliminating operational and marketing restrictions to the greatest extent possible.

(6) integrating domestic and international air transportation.

(7) increasing the number of nonstop United States gateway cities.

(8) opportunities for carriers of foreign countries to increase their access to places in the United States if exchanged for benefits of similar magnitude for air carriers or the traveling public with permanent linkage between rights granted and rights given away.

(9) eliminating discrimination and unfair competitive practices faced by United States airlines in foreign air transportation, including—

- (A) excessive landing and user fees;
- (B) unreasonable ground handling requirements;
- (C) unreasonable restrictions on operations;
- (D) prohibitions against change of gauge; and
- (E) similar restrictive practices.

(10) promoting, encouraging, and developing civil aeronautics and a viable, privately-owned United States air transport industry.

In this part, the words "overseas air commerce" and "overseas air transportation" are omitted as obsolete because there no longer is a distinction in economic or safety regulation between "interstate" and "overseas" air commerce or air transportation.

In this section, the words "In carrying out . . . this part" are substituted for "In the exercise and performance of its powers and duties under this chapter" in 49 App.:1302(a), "In the exercise and performance of his powers and duties under this chapter" in 49 App.:1303, and "In exercising the authority granted in, and discharging the duties imposed by, this chapter" in 49 App.:1347 for consistency in the revised title and to eliminate unnecessary words.

In subsections (a) and (b), the reference to subpart II is added because the policy applies only to economic issues, and under the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 731), the Civil Aeronautics Board was given responsibility for economic issues.

In subsection (a)(2), the word "full" is omitted as surplus. The words "the recommendations of the Secretary of Transportation on" are omitted as obsolete because the Secretary carries out 49 App.:1302(a). The words "and full evaluation of any report or recommendation submitted under section 1307 of this Appendix" are omitted as obsolete because the report and recommendations are no longer required.

In subsection (a)(4), the words "by air carriers and foreign air carriers" are omitted as surplus. The words "unreasonable discrimination" are substituted for "unjust discriminations, undue preferences or advantages"

for consistency in the revised title and to eliminate unnecessary words.

In subsection (a)(6)(B), the words "nevertheless", "on the one hand", and "on the other" are omitted as surplus.

In subsection (a)(8), before subclause (A), the word "authorities" is substituted for "entities" for consistency in the revised title and with other titles of the Code. In subclause (A), the words "sole responsibility" are omitted as unnecessary because of the restatement.

In subsection (a)(15), the words "United States" are omitted as surplus because of the definition of "air carrier" in section 40102(a) of the revised title.

In subsection (b)(3), the words "unreasonable discrimination" are substituted for "unjust discriminations, undue preferences or advantages" for consistency in the revised title and to eliminate unnecessary words.

In subsections (c) and (d), the reference to subpart III is added because the policies apply only to safety issues, and under the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 731), the Federal Aviation Administration was given responsibility for safety issues.

In subsection (c), before clause (1), the word "Administrator" in section 306 of the Federal Aviation Act of 1958 (Public Law 85–726, 72 Stat. 749) is retained on authority of 49:106(g). The words "consider the following matters" are substituted for "give full consideration to" for consistency in this section.
