Such price support shall be provided through loans on, or purchases of, the products of milk and butterfat.

Whole milk, butter-
fat, etc.

TITLE III—OTHER NONBASIC AGRICULTURAL COMMODITIES

SEC. 301. The Secretary is authorized to make available through loans, purchases, or other operations price support to producers for any nonbasic agricultural commodity not designated in title II at a level not in excess of 90 per centum of the parity price for the commodity.

Ante, p. 1052.

SEC. 302. Without restricting price support to those commodities for which a marketing quota or marketing agreement or order program is in effect, price support shall, insofar as feasible, be made available to producers of any storable nonbasic agricultural commodity for which such a program is in effect and who are complying with such program. The level of such support shall not be in excess of 90 per centum of the parity price of such commodity nor less than the level provided in the following table:

Price support levels.

Provided, That the level of price support may be less than the minimum level provided in the foregoing table if the Secretary, after examination of the availability of funds for mandatory price support programs and consideration of the other factors specified in section 401 (b), determines that such lower level is desirable and proper.

Less than minimum level.

SEC. 303. In determining the level of price support for any nonbasic agricultural commodity under this title, particular consideration shall be given to the levels at which the prices of competing agricultural commodities are being supported.

Post, p. 1054.
Determination of level.

TITLE IV—MISCELLANEOUS

SEC. 401. (a) The Secretary shall provide the price support authorized or required herein through the Commodity Credit Corporation and other means available to him.

Determining factors
in price support.

(b) Except as otherwise provided in this Act, the amounts, terms, and conditions of price support operations and the extent to which such operations are carried out, shall be determined or approved by the Secretary. The following factors shall be taken into consideration in determining, in the case of any commodity for which price support is discretionary, whether a price-support operation shall be undertaken and the level of such support and, in the case of any commodity for which price support is mandatory, the level of support in excess of the minimum level prescribed for such commodity: (1) the supply of the commodity in relation to the demand therefor, (2) the price levels at which other commodities are being supported and, in the case of feed grains, the feed values of such grains in relation to corn, (3) the availability of funds, (4) the perishability of the commodity, (5) the importance of the commodity to agriculture and the national economy, (6) the ability to dispose of stocks acquired through a price-support operation, (7) the need for offsetting temporary losses of export markets, and (8) the ability and willingness of producers to keep supplies in line with demand.

Compliance by
producers.

(c) Compliance by the producer with acreage allotments, production goals and marketing practices (including marketing quotas when authorized by law), prescribed by the Secretary, may be required as a condition of eligibility for price support.

Determination of
price support level.

(d) The level of price support for any commodity shall be determined upon the basis of its parity price as of the beginning of the marketing year or season in the case of any commodity marketed on a marketing year or season basis and as of January 1 in the case of any other commodity.

Price support at
increased levels.

SEC. 402. Notwithstanding any other provision of this Act, price support at a level in excess of the maximum level of price support otherwise prescribed in this Act may be made available for any agricultural commodity if the Secretary determines, after a public hearing of which reasonable notice has been given, that price support at such increased level is necessary in order to prevent or alleviate a shortage in the supply of any agricultural commodity essential to the national welfare or in order to increase or maintain the production of any agricultural commodity in the interest of national security. The Secretary's determination and the record of the hearing shall be available to the public.

Adjustments.

SEC. 403. Appropriate adjustments may be made in the support price for any commodity for differences in grade, type, staple, quality, location, and other factors. Such adjustments shall, so far as practicable, be made in such manner that the average support price for such commodity will, on the basis of the anticipated incidence of such factors, be equal to the level of support determined as provided in this Act. Middling seven-eighths inch cotton shall be the standard grade for purposes of parity and price support.

Supp. II, § 612c.
Post, p. 1057.
60 Stat. 231.
42 U. S. C. § 1755.

SEC. 404. The Secretary, in carrying out programs under section 32 of Public Law Numbered 320, Seventy-fourth Congress, approved August 24, 1935, as amended, and section 6 of the National School Lunch Act may utilize the services and facilities of the Commodity Credit Corporation (including but not limited to procurement by contract), and make advance payments to it.

Liability for def-
iciencies.

SEC. 405. No producer shall be personally liable for any deficiency arising from the sale of the collateral securing any loan made under

authority of this Act unless such loan was obtained through fraudulent representations by the producer. This provision shall not, however, be construed to prevent the Commodity Credit Corporation or the Secretary from requiring producers to assume liability for deficiencies in the grade, quality, or quantity of commodities stored on the farm or delivered by them, for failure properly to care for and preserve commodities, or for failure or refusal to deliver commodities in accordance with the requirements of the program.

SEC. 406. The Secretary shall, insofar as practicable, announce the level of price support for field crops in advance of the planting season and for other agricultural commodities in advance of the beginning of the marketing year or season (January 1 in the case of commodities not marketed on a marketing year or season basis), but the level of price support so announced shall not exceed the estimated maximum level of price support specified in this Act, based upon the latest information and statistics available to the Secretary when such level of price support is announced; and the level of price support so announced shall not be reduced if the maximum level of price support when determined, is less than the level so announced.

SEC. 407. The Commodity Credit Corporation may sell any farm commodity owned or controlled by it at any price not prohibited by this section. In determining sales policies for basic agricultural commodities or storable nonbasic commodities, the Corporation should give consideration to the establishing of such policies with respect to prices, terms, and conditions as it determines will not discourage or deter manufacturers, processors, and dealers from acquiring and carrying normal inventories of the commodity of the current crop. The Corporation shall not sell any basic agricultural commodity or storable nonbasic commodity at less than 5 per centum above the current support price for such commodity, plus reasonable carrying charges. The foregoing restrictions shall not apply to (A) sales for new or byproduct uses; (B) sales of peanuts and oilseeds for the extraction of oil; (C) sales for seed or feed if such sales will not substantially impair any price-support program; (D) sales of commodities which have substantially deteriorated in quality or as to which there is a danger of loss or waste through deterioration or spoilage; (E) sales for the purpose of establishing claims arising out of contract or against persons who have committed fraud, misrepresentation, or other wrongful acts with respect to the commodity; (F) sales for export; (G) sales of wool; and (H) sales for other than primary uses.

Sec. 408. For the purposes of this Act—

(a) A commodity shall be considered storable upon determination by the Secretary that, in normal trade practice, it is stored for substantial periods of time and that it can be stored under the price-support program without excessive loss through deterioration or spoilage or without excessive cost for storage for such periods as will permit its disposition without substantial impairment of the effectiveness of the price-support program.

(b) A "cooperator" with respect to any basic agricultural commodity shall be a producer on whose farm the acreage planted to the commodity does not exceed the farm acreage allotment for the commodity under title III of the Agricultural Adjustment Act of 1938, as amended, or in the case of price support for corn to a producer outside the commercial corn-producing area, a producer who complies with conditions of eligibility prescribed by the Secretary. For the purpose of this subsection, a producer shall not be deemed to have exceeded his farm acreage allotment unless such producer knowingly exceeded such allotment.

(c) A "basic agricultural commodity" shall mean corn, cotton, peanuts, rice, tobacco, and wheat, respectively.

(d) A "nonbasic agricultural commodity" shall mean any agricultural commodity other than a basic agricultural commodity.

(e) The "supply percentage" as to any commodity shall be the percentage which the estimated total supply is of the normal supply as determined by the Secretary from the latest available statistics of the Department of Agriculture as of the beginning of the marketing year for the commodity.

(f) "Total supply" of any nonbasic agricultural commodity for any marketing year shall be the carry-over at the beginning of such marketing year, plus the estimated production of the commodity in the United States during the calendar year in which such marketing year begins and the estimated imports of the commodity into the United States during such marketing year.

(g) "Carry-over" of any nonbasic agricultural commodity for any marketing year shall be the quantity of the commodity on hand in the United States at the beginning of such marketing year, not including any part of the crop or production of such commodity which was produced in the United States during the calendar year then current. The carry-over of any such commodity may also include the quantity of such commodity in processed form on hand in the United States at the beginning of such marketing year, if the Secretary determines that the inclusion of such processed quantity of the commodity is necessary to effectuate the purposes of this Act.

(h) "Normal supply" of any nonbasic agricultural commodity for any marketing year shall be (1) the estimated domestic consumption of the commodity for the marketing year for which such normal supply is being determined, plus (2) the estimated exports of the commodity for such marketing year, plus (3) an allowance for carry-over. The allowance for carry-over shall be the average carry-over of the commodity for the five marketing years immediately preceding the marketing year in which such normal supply is determined, adjusted for surpluses or deficiencies caused by abnormal conditions, changes in marketing conditions, or the operation of any agricultural program. In determining normal supply, the Secretary shall make such adjustments for current trends in consumption and for unusual conditions as he may deem necessary.

(i) "Marketing year" for any nonbasic agricultural commodity means any period determined by the Secretary during which substantially all of a crop or production of such commodity is normally marketed by the producers thereof.

(j) Any term defined in the Agricultural Adjustment Act of 1938, shall have the same meaning when used in this Act.

“Notwithstanding any limitations or conditions imposed by law, but subject to the availability of funds, the Central Bank for Cooperatives shall have power and authority to make separate loans to cooperative associations as defined in the Agricultural Marketing Act, as amended, for the purpose of financing the construction of structures for the storage of agricultural commodities (other than structures to provide refrigerated cold storage or structures located in areas in which existing privately owned storage facilities for the commodity concerned are adequate) in amounts up to a maximum of 80 per centum of the cost of such structures, as approved by such bank: *Provided*, That the cooperative association which has applied for any loan shall have furnished to such bank an appropriate commitment from the Commodity Credit Corporation that the Commodity Credit Corporation will lease or guarantee utilization of not less than 75 per centum of the storage space contained in such structures when completed for a period of at least three years if such structures are not additions to existing structures, or two years if such structures are additions to existing structures.”

SEC. 418. (a) Sections 353, 354, 355, and 356 of the Agricultural Adjustment Act of 1938, as amended, are amended to read as follows:

“APPORTIONMENT OF NATIONAL ACREAGE ALLOTMENT

“SEC. 353. (a) The national acreage allotment of rice for each calendar year shall be apportioned by the Secretary among the several States in which rice is produced in proportion to the average number of acres of rice in each State during the five-year period immediately preceding the calendar year for which such national acreage allotment of rice is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs) with adjustments for trends in acreage during the applicable period.

“(b) The State acreage allotment shall be apportioned to farms owned or operated by persons who have produced rice in any one of the five calendar years immediately preceding the year for which such apportionment is made on the basis of past production of rice by the producer on the farm taking into consideration the acreage allotments previously established for such owners or operators; abnormal conditions affecting acreage; land, labor, and equipment available for the production of rice; crop rotation practices; and the soil and other physical factors affecting the production of rice: *Provided*, That if the State committee recommends such action and the Secretary determines that such action will facilitate the effective administration of the Act, he may provide for the apportionment of the State acreage allotment to farms on which rice has been produced during any one of such period of years on the basis of the foregoing factors, using past production of rice on the farm and the acreage allotments previously established for the farm in lieu of past production of rice by the producer and the acreage allotments previously established for such owners or operators. Not more than 3 per centum of the State acreage allotment shall be apportioned among farms operated by persons who will produce rice during the calendar year for which the allotment is made but who have not produced rice in any one of the past five years, on the basis of the applicable apportionment factors set forth herein: *Provided*, That in any State in which allotments are established for

“(2) any acreage planted to rice in excess of the farm acreage allotment shall not be taken into account in establishing State, county, and farm acreage allotments.

“MARKETING QUOTAS

Proclamation by
Secretary.

“SEC. 354. (a) Whenever in any calendar year the Secretary determines that the total supply of rice for the marketing year beginning in such calendar year will exceed the normal supply for such marketing year by more than 10 per centum, the Secretary shall not later than December 31 of such calendar year proclaim such fact and marketing quotas shall be in effect for the crop of rice produced in the next calendar year.

Referendum.

“(b) Within thirty days after the date of the issuance of the proclamation specified in subsection (a) of this section, the Secretary shall conduct a referendum by secret ballot of farmers engaged in the production of the immediately preceding crop of rice to determine whether such farmers are in favor of or opposed to such quotas. If more than one-third of the farmers voting in the referendum oppose such quotas the Secretary shall, prior to the 15th day of February, proclaim the result of the referendum and such quotas shall become ineffective.

“AMOUNT OF FARM MARKETING QUOTA

Maximum.

“SEC. 355. The farm marketing quota for any crop of rice shall be the actual production of rice on the farm less the normal production of the acreage planted to rice on the farm in excess of the farm acreage allotment. The normal production from such excess acreage shall be known as the ‘farm marketing excess’: *Provided*, That the farm marketing excess shall not be larger than the amount by which the actual production of rice on the farm exceeds the normal production of the farm acreage allotment if the producer establishes such actual production to the satisfaction of the Secretary.

“PENALTIES AND STORAGE

“SEC. 356. (a) Whenever farm marketing quotas are in effect with respect to any crop of rice, the producer shall be subject to a penalty on the farm marketing excess at a rate per pound equal to 50 per

centum of the parity price per pound for rice as of June 15 of the calendar year in which such crop is produced.

“(b) The farm marketing excess of rice shall be regarded as available for marketing and the amount of penalty shall be computed upon the normal production of the acreage on the farm planted to rice in excess of the farm acreage allotment. If a downward adjustment in the amount of the farm marketing excess is made pursuant to the proviso in section 355, the difference between the amount of the penalty computed upon the farm marketing excess before such adjustment and as computed upon the adjusted marketing excess shall be returned to or allowed the producer.

“(c) The person liable for payment or collection of the penalty shall be liable also for interest thereon at the rate of 6 per centum per annum from the date the penalty becomes due until the date of payment of such penalty.

“(d) Until the penalty on the farm marketing excess is paid, postponed, or avoided, as provided herein, all rice produced on the farm and marketed by the producer shall be subject to the penalty provided by this section and a lien on the entire crop of rice produced on the farm shall be in effect in favor of the United States.

“(e) The penalty on the farm marketing excess on any crop of rice may be avoided or postponed by storage or by disposing of the commodity in such other manner, not inconsistent with the purposes of this Act, as the Secretary shall prescribe, including, in the discretion of the Secretary, delivery to Commodity Credit Corporation or any other agency within the Department. The Secretary shall issue regulations governing such storage or other disposition. Unless otherwise specified by the Secretary in such regulations, any quantity of rice so stored or otherwise disposed of shall be of those types and grades which are representative of the entire quantity of rice produced on the farm. Upon failure so to store or otherwise dispose of the farm marketing excess of rice within such time as may be determined under regulations prescribed by the Secretary, the penalty on such excess shall become due and payable. Any rice delivered to any agency of the Department pursuant to this subsection shall become the property of the agency to which delivered and shall be disposed of at the direction of the Secretary in a manner not inconsistent with the purposes of this Act.

“(f) Subject to the provisions of subsection (g) of this section, the penalty upon the farm marketing excess stored pursuant to this section shall be paid by the producer at the time and to the extent of any depletion in the amount so stored except depletion resulting from some cause beyond the control of the producer or from substitution of the commodity authorized by the Secretary.

“(g) (1) If the planted acreage of the then current crop of rice for any farm is less than the farm acreage allotment, the amount of the commodity from any previous crop of rice stored to postpone or avoid payment of the penalty shall be reduced by an amount equal to the normal production of the number of acres by which the farm acreage allotment exceeds the acreage planted to rice.

“(2) If the actual production of the acreage of rice on any farm on which the acreage of rice is within the farm acreage allotment is less than the normal production of the farm acreage allotment, the amount of rice from any previous crop stored to postpone or avoid payment of the penalty shall be reduced by an amount which, together with the actual production of the then current crop will equal the normal production of the farm acreage allotment: *Provided*, That the reduction under this paragraph shall not exceed the amount by which the normal production of the farm acreage allotment less any reduction made
