Sept. 25, 1990  
[H.R. 94]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE.

This Act may be cited as the "Hotel and Motel Fire Safety Act of 1990".

Hotel and Motel Fire Safety Act of 1990.  
15 USC 2201 note.  
15 USC 2201 note.

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) more than 400 Americans have lost their lives in multi-story hotel fires over the last 5 years;

(2) when properly installed and maintained, automatic sprinklers and smoke detectors provide the most effective safeguards against the loss of life and property from fire;

(3) automatic sprinklers and smoke detectors should supplement and not supplant other fire protection measures, including existing requirements for fire resistive walls and fire retardant furnishings;

(4) some State and local governments and the hotel industry need to act more rapidly to require the installation and use of automatic sprinkler systems in hotels; and

(5) through the United States Fire Administration and the Center for Fire Research, the Federal Government has helped to develop and promote the use of residential sprinkler systems and other means of fire prevention and control.

(b) PURPOSE.—It is the purpose of this Act to save lives and protect property by promoting fire and life safety in hotels, motels, and all places of public accommodation affecting commerce.

“**DISSEMINATION OF FIRE PREVENTION AND CONTROL INFORMATION**

15 USC 2226.

“**SEC. 30.** The Director, acting through the Administrator, is authorized to take steps to encourage the States to promote the use of automatic sprinkler systems and automatic smoke detection systems, and to disseminate to the maximum extent possible information on the life safety value and use of such systems. Such steps may
